

'PAPERHANGING' IS INCREASING

Check Artists Increase; Forty Per Cent. More Fraudulent Checks in California in 1922.

(By Associated Press)
OAKLAND, Calif., Mar. 24.—Fraudulent check passers increased 40 per cent in California in 1922 compared with the previous year, according to Harry Schrader, Jr., handwriting expert of the state bureau of criminal investigation, who recently prepared statistics for August Vollmer, chief of police of Berkeley, who lectured at the University of California students on criminology.
One California city, chosen because it typifies other municipalities in the state, is supporting forces, had check passers and other members of the "paperhanging" profession at the rate of \$3,822 a day, the statement showed. From January 1 to April 1, 1922, the city used as an illustration rewarded the criminals to the extent of \$12,000, Schrader said.
Mr. Schrader's report stated: "Even children are becoming proficient, for only recently nine juveniles, ranging from twelve to sixteen years of age, were arrested in one locality for flooding the town with fraudulent checks, written by themselves and signed 'Mr. Brown,' or 'Mr. Smith' (even the initials being omitted), and the merchants readily took these checks in payment for candy, flashlights, etc."
Worthless checks are cashed in the larger cities more readily than in the rural communities, Mr. Schrader's statement showed.

SPRING WORK ON AT GRANGE

GRANGE HALL, Mar. 24.—Mrs. Doris Talon went to Huntington Saturday morning and returned home Sunday evening.
Mrs. Joe Winn is visiting relatives in the valley. Mrs. Winn arrived from her home in Pacific City, Ore., Saturday evening in order to attend the funeral of her father, A. E. Huff. It is reported that Mrs. Bert Green, who underwent a serious operation at Hot Lake some time ago, is getting along nicely and is able to receive visitors.
Mr. and Mrs. J. A. Holman returned home last week from Los Angeles, Calif., where they spent two months visiting with their daughter, Mrs. Fred Weatherford and other relatives. While in the sunny south the Holmans enjoyed every minute of their time. On their way home they stopped and made Mr. and Mrs. W. P. Gekeler, who give seven miles out from Portland, a short visit.
Lyman Huff returned to the St. Vincent hospital in Portland Monday. Mr. Huff's arm, which was operated upon several days ago, is in a cast and he made the journey from and to Portland with a fair degree of comfort. The hospital authorities gave him leave to come home to attend his father's funeral.
Over 100 people partook of the dinner given by the grange brothers at the hall Saturday, March 17. When Bob Mageron and George Thibault were appointed to take charge of the affair, the grange knew there would be something good. This is the third year that Mr. Mageron has held the position of chief chef on Brothers' day and his efficiency has increased each year until his friends declare that he is an adept in stocking a table as he is in shoeing a horse. Ben Gekeler arranged a fine program, which was enjoyed immensely by all.
Harry McVay of Union made a short call on relatives in the district Monday. Mr. McVay returned Saturday evening from Los Angeles, Calif., where his father, who had been killed in an accident, was buried Tuesday. The elder Mr. McVay had just returned to his home in Los Angeles from the 3rd division of lawyers, where he had been practicing for many years. The funeral of his father-in-law, A. E. Huff, the loss of his grandfather, father and father-in-law, all within two weeks makes it seem as though Mr. McVay's sorrow came in triple form and friends are expressing their deepest sympathy.
The putting and painting of Ernest De Long's tractor can be heard throughout a part of the district. Mr. De Long is breaking soil and the noise of the tractor caused us to realize that spring has come and the farmers are beginning the preparation of seed beds for another one of Grange's bountiful crops.

RUSSIA SEEKS MORE COAL.
VLADIVOSTOK, Mar. 24.—The Far Eastern Branch of the All-Russia Geological Survey Department has decided to make a complete survey, during the coming summer of all the mineral bearing regions of the Primoria. The first places to be surveyed will be coal fields of the upper Suchan district, the coal fields of and lower Suifoon and the iron deposits of the Sergievo district.
