FISHERS ASK 16 CENTS
 ASTORIA, Apr. 6.—The Columbia River Fishermen's league at a meeting here last night decided to ask 16 cents a pound for the chinook catch, the season for which starts in May. The ruling price last year was 10 cents.

The league also instructed the secretary to request a meeting of the directors of the league with the packers for consideration of the prices to be paid during the season. The reason for the request for an advance was given as increasing costs of living and materials.

It may be that men's minds are not so clean as women's because they don't change them so frequently.

Men take away the bee's hoarded wealth, also; but they don't make him file a return before taking it.

FOOD CHANGES IN THE SPRING
 The average person during the winter months eats heavy cooked foods because fresh vegetables are not obtainable. The result is an accumulation of dormant secretions in the system especially in the liver. If these are left they cause headaches, stomach disorders and a general sluggish condition—or, in other words, "Spring Fever."

 "The Store That Keeps Faith with the People"

Look up the Policy of your Clothier---
 as you would your Insurance!

Wholesale costs are rising—clothes for men are going to be 5 to 15 per cent. higher this fall.

But not one garment in this store that we own at original figures is going up—the suits are going out at original prices as long as they last.

That's our policy—it's worth considering. Lots of stores have felt the raise—and have raised.

We'll go up with the rest—when our present stock is exhausted and when we have to pay more for more!

Until then—and even after then—we'll shoot straight with you—not at you.

Today this suit selection is full of clothes at "before the raise prices" and beckoning to every man who knows we are telling the truth.
