

There's Much Variety in Spring Coats

Variety in style, variety in fabric, variety in color and detail. There is an irresistible appeal in the soft lines of these wrappy coats, enhanced by the texture of material and smartness of line. They boast of clever sleeve treatments, unusual side fastenings, bloused backs and there are straight line coats very much in vogue. For street or for dress, and they assure real satisfaction.

OR
J. D. DOBBIN, of La Grande

Society

Dr. and Mrs. Ray F. Murphy and Mr. and Mrs. William H. Bohnenkamp, Jr., presided over one of the most attractive Bridge dinners of the Easter season Friday evening. The Country club was the scene of the dinner.

The centerpiece was a beautiful bowl of daffodils and lavender sweet peas, surrounded by seven branch candles.

Bridge honors for the evening were awarded to Harrison A. Zurbrick, and Miss Ruth Zanella, who is a guest at the home of Dr. and Mrs. Harry Bouvy.

and Wagner of Enterprise, have been visiting their mother, Mrs. J. G. Rennie of this city, for some time. Mrs. Claude Rennie left this morning for Echo where she will make her home in the future.

OFFICE CAT

"I hated to do it," whimpered Amos Tash, "but I had to whale the fat out of my youngest kid for using my shaving mug to eat his bread and milk out of."

WAX

Charming in all its details, was the Bridge luncheon given Tuesday at the Country club when Mrs. Ray F. Murphy and Mrs. William H. Bohnenkamp, Jr., were hostesses.

Covers were laid for eighteen guests around a beautifully decorated luncheon table. The color scheme of lavender and yellow was carried out in floral centerpieces and corsage bouquets.

Miss Lee Bouvy and Mrs. Harry Bouvy won honors at Revere.

THE WEAKER SEX

Women are often referred to as the weaker sex. Cy Kology wonders who ever got that way. According to Cy, after paying for a breach of promise suit that didn't fit his son at college and sitting in the jury in a case where a six foot man was plaintiff, charging his wife with assault and battery with intent to kill, it is still an enigma "Weak?" he exploded. "Bunk!" and then he branched off on some choice profanity.

Junius wonders how a fellow feels when he has to stop in the middle of a proposal of marriage, to sneeze.

POEM
Ah, what is the cure when life all goes wrong?

193 APPLY FOR WHEAT OLYMPIA, Wash., Apr. 7.—Applications for seed wheat in the eastern Washington drought counties for which the last legislature provided relief by a \$250,000 seed wheat loan appropriation from the reclamation revolving fund are not expected to total 100,000. Up to Tuesday night 193 applications had been received and 117 applications paid for, totaling \$29,354. As the spring seeding is usually pretty well over by April 15, the closing rush scarcely will equal the applications already received.

The counties included in the applications already received include Douglas, where the demand is the heaviest; Lincoln, Grant, Benton, Chelan and Franklin.

NUTHER POME
In days of old when knights were bold
And ladies prim and saucy—
Liquor flowed, wild oats were sowed,
I'll bet the nights were naughty.

Hupmobile

58-Day Run of 26,165 Miles Without a Stop Proves Hupmobile Staunchness and Reliability

Perhaps no motor car ever before was given such a reliability test as this.

Day and night for 58 days, without the engine being stopped once, and without the official seals on its hood being broken, a stock Hupmobile was driven 26,165 miles by drivers working in three shifts about Salt Lake City and over a maze of intermountain highways in Utah, Idaho and Wyoming.

Utah. He reported that the engine—with 33,000 miles to its credit—showed only slight wear; that the life of this stock Hupmobile had only just commenced.

The qualities revealed by the car in this test—its economy records—the way it stood up in continuous service such as not one motor car in ten thousand is asked to give—these things are not remarkable or unusual for the Hupmobile.

The starter was removed before the run began. Oil was taken on through a special tube in the side of the sealed hood. This intake for oil, as well as the intakes for gas and water, were all securely sealed, and were broken and re-sealed only under official inspection.

They are the daily portion of every Hupmobile owners.

The Reliability Record

Days without Engine Stop	58
Total non-stop mileage	26,165
Average Miles Per Day	449
Gas—ave. miles per gal.	21.5
Oil—ave. miles per gal.	1,218

Replacement

At 22,106 miles—Brake lining
At 24,995 miles—Head lamp tie rod
At 26,165 miles—Fan Belt.

The first engine stop was necessitated by the breaking of the fan belt. The run was then continued two days, the total mileage at the end of 60 days being 27,096, on which the daily average is computed.

The route of the car, for the most part, was over a maze of mountain highways. Part of the course led the car into the precipitous mountain canyons of Heber, Provo, and Parkleys, in the Wasatch range.

The engine was brought to a stop only after the fan belt had broken, at 26,165 miles. The car then completed its 60th day with a mileage of 27,096. It was immediately torn down and inspected under direction of Prof. A. LeRoy Taylor, of the Automotive Department of the University of
