Remarkably Large Hat  
Paris—A remarkably large hat is in favor today for formal occasions. It is usually black, the brim of straw the crown of taffeta. Often it is ornamented with a drooping cluster of encircled ostrich, in various colors, among which green, old gold and violet are favorite combinations.

Matching of Colors  
Paris—There is a subtle matching of colors today where least expected. The predominant shade is an Egyptian giraffe that will match the hosiery. Or the bright lining of a brown cloak will match a bit of rib-

bon twisted around the brim of the hat.

White Leather on Costumes.

Organdie Again in Favor  
New York—Organdie today is again in full flavor as a material for late spring and summer gowns. This is a decided departure from the clinging, limp fabrics so long insisted upon. Organdie can not be too crisp at present. It comes in exquisite shades.

Egyptian Anklet Here  
New York—The Egyptian anklet is here, in reality and in ghost form. The real one is usually worn beneath a very fine stocking. The ghost one is embroidered in gold or silver on a stocking and given verisimilitude by glistening bits of embroidered emerald, ruby and jade.

They're Wearing Mummy Cases  
New York—One New York woman has brought back from Egypt an ornament which is attracting wide attention today. It is a little gold mummy case, swung on the end of a fine gold chain. All the sacred Egyptian symbols are enameled on it. And when the case is opened there's a tiny gold mummy inside.

Trend Toward Moire Effects  
New York—There is a decided trend toward moire effects today although moire materials are far more pliable than in other days. Satin back crepes in the moire effect and in splendid colorings. Moire ribbon is much used on hats.

### Preventative Medicine.

The tendency of medical science is toward preventative measures. It is easier and better to prevent than cure. Pneumonia, one of the most dangerous diseases that medical men have to contend with, often follows a cold or attack of the grip. The cold prepares the system for the reception and development of the pneumonia germ. The longer the cold hangs on, the greater the danger. Take Chamberlain's Cough Remedy as soon as the first indication of a cold appears so as to get rid of it with the least possible delay. It is folly to risk an attack of pneumonia when this remedy may be obtained for a trifle.—Adv.

LONDON, Apr. 25.—During the discussion in the House of Commons of Lady Astor's temperance bill, W. A. Jenkins said that Americans were divided into two classes, those who "still had a little" and those who "had a little still."
