### VANISHING CREAM and POWDER BASE

Five words in the entire dictionary of the toilette are as important as these.

Every woman should use a good vanishing cream to prevent blackheads, enlarged pores and dry skin, to correct or prevent roughness, redness or chaps, to keep the complexion youthful and fair and as a base before applying face powder.

### Arbutus Complexion Cream

fulfills all these important requirements, and does it well. Furthermore, this cream contains peroxide of hydrogen. This tends to preserve the texture of the skin, do away with any sallow appearance and eliminate freckles. Arbutus Complexion Cream is delicately scented with the perfume of May flowers. It is greaseless, quickly absorbed and delightful to use.

## Fashion Notes

**Flounces Popular**  
Paris—The popularity of flounces today, especially on gowns of light-weight summer materials, is seen in two or three theatrical productions of the smart society type. The gowns have two deep flounces composing the skirt. The flounces are edged or inset with lace.

**For Rainy Days**  
London—For rainy days there has been devised an attractive costume of very light weight and very soft leather. It is as light as cloth and

not much warmer. Retaining its shape even in the worst rainstorm, it is an ideal wet weather garment. The long coats with small hats to match are in shades of beaver or blue with black stitching.

**Practical Sports Suits**  
New York—Sports suits that are really practical, both for country and town wear, are being made today of fine Jersey in such attractive shades as beige, dark blue and dull green. The skirts are, of course, closely plaited, and the jackets, with swanky pockets, fasten trimly around the hips.

**New Boudoir Clock**  
New York—The latest boudoir clock, taking a hint, perhaps, from the ornate wrist watch of today, looks at first glance like some bit of mosaic in a beautiful frame. These little clocks are of fantastic shapes, the dials pulled into all sorts of octagons and triangles. The colors are as varied as those of boudoirs themselves.

**Decorated Blouses**  
New York—Blouses for wear with the tailored suit are returning today to all the little intricacies of bygone days. They are frilled, they are piped, they are plaited and they are further decorated with panels or edgings of lace.

Why is it that one make of car may cost for maintenance two or three times as much as another? Learn how real value is built into the Hupmobile, and you will get a better insight into how to buy your next car.
