Why divide the family at breakfast?

WHY take coffee for yourself, while saying "No" to the children? It is true, as most parents are careful to explain, that little folks should not endanger health and growth through the drug element in coffee and tea, but—

There's complete satisfaction in Postum, and safety alike for young and old. Postum is a pure cereal beverage. It is coffee-like in color and flavor, but free from any element that can harm. Thousands who are now saying "No" to themselves as well as to the children, as a safeguard against coffee-ills, have found better comfort and better health, in Postum.

Your health is valuable, too—and their desire for a hot drink with breakfast may be as great as yours.

Your grocer sells Postum in two forms: Instant Postum (in tins) prepared instantly in the cup by the addition of boiling water. Postum Cereal (in packages) for those who prefer the flavor brought out by boiling fully 20 minutes. The cost of either is about one-half cent a cup.
