Begin Taking Salts if You Have Backache or Have Bladder Weakness

Too much rich food forms acid which excite and overwork the kidneys in their efforts to filter it from the blood. Flush the kidneys occasionally relieve them like you relieve the bowels, removing acids, waste and poisons you may feel a dull misery in the kidney region, sharp pains in the or sick headache, dizziness, the acid sour, tongue is coated, and the weather is bad you have itic twinges. The urine is cloudy of sediment, the channels often irritated, obliging one to get up or three times during the night.

To help neutralize these ing acids and flush off the body's waste, begin drinking water. Get about four ounces of Jad Salts any pharmacy, take a tablet in a glass of water before breakfast a few days and your kidneys will begin to work again. This famous salt is made of the acid of grapes and lemon combined with bicarbonate and has been used for years to help clean away sluggish kidneys and stop irritation. Jad Salts is inexpensive makes a delightful effervescent-water drink which milkmen and women take now and then prevent serious kidney and bladder disorders.
