## Mrs. Hayes Helps Break Ground

Mrs. Myrtle E. Hayes, indicted in New York in a forgery case involving the signature of Charles M. Edwards, is shown here at the site of the hotel she proposed to build when ground was broken at Brookline, Mass. The man with the spade is William H. Sellers.

To La Grande and put up at the old high hotel run by Moose-kneed Pete, which was located where the Foley now stands, came in from Elgin Saturday and spent Sunday with L. A. Steep.

## Railroad Efficiency Cuts Operating Cost

Within the last two years the railroads have reduced their operating expenses \$10,000,000 a month and in January and February of this year they were \$48,000,000 less than in the same months of 1922, under normal operation, although the railroads are paying higher average prices for coal and fuel oil than in 1922. These figures have just been made public in an editorial of the current issue of the "Railway Age" replying to criticism of "efficiency" of private operation voiced by Senator James Couzens of Michigan.

## New Records Expected For Iron Ore Shipments

(By Associated Press.) DULUTH, May 21.—Encouraged by reports from the lower lake smelters that iron ore is being melted on a larger scale than had been anticipated, controllers of the Lake Superior mining district and its kindred industries are looking forward to a season of new records. Everything depends upon the de-

mand for ore from the Lake Erie ports, but with the dock stores diminishing sharply under the heavy consumption at the smelters, district operators are confident of a rushing business. Experts who last winter estimated the output for the district at between 55,000,000 and 60,000,000 tons have raised their maximum estimates 5,000,000 tons. In case this latter figure is reached there will be a new record for annual shipments from the Lake Superior mines. With the Lake Superior docks al-

# The Point of Contact

THERE'S a simple catch in the familiar phrase that tells how the world beats a path to the door of the man who makes a better mouse-trap.

The maker of anything, if he is to win the plaudits of the world, must not only manufacture a superior product, but most also let folks know of his achievements. He must point out just why his mouse-trap, his automobile or his shaving cream is better than his neighbor's. He must advertise.

Advertising is the point of contact between the man who makes something and the man who wants something. Through an advertisement, a manufacturer can tell you in a few short minutes all you want to know about the article or the service he has to offer.

This newspaper is constantly full of ideas that other men and women have thought out for your personal benefit. Fail to read the advertisements and you remain in ignorance of countless products that would make life easier, happier and more interesting for you and your entire family.

Advertising gives you news of the latest and best things made—with word as to what they will do, what they cost and where to get them. Think of all you miss when you overlook the advertisements.

Read Them Regularly—Every Day.

## TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

Bennie Krueger's Orchestra

2419. "Apple Sauce" "Wild Papa" Two Wonderful Fox Trots

Bennie Krueger's Dance Orchestra makes records exclusively for Brunswick, because of their absolute fidelity to tone and rhythm and their clearness and beauty. Here are two of the best dance selections you have ever heard. Full of tantalizing saxophone strains with a rippling accompaniment of brasses and piano. Hear these two dance records. You'll want them.

Something new every day

New Brunswick Records are ready every day. No waiting. Any Brunswick dealer will gladly play them for you. Brunswick Records can be played on any phonograph but are best on The Brunswick.

## Puzzling Problems--- Brick, Lumber and Banking

THE brickmaker tells you it costs less to build with brick. The lumberman says that good lumber lasts indefinitely. But brick costs more than wood and wood wears less well than brick.

In your business you will meet many contradictory and confusing problems. It is, therefore, well to talk your business affairs over with your banker. He is without bias and applies fundamental principles.

The officers of this bank are always at your service.
