The first five grades in the school tried nearly every afternoon last week to have a picnic and every afternoon we had rain, to the great disappointment of the little people. It is to be hoped that the weather clerk will favor us with better weather this week as this is the last week of school and unless old "Rol" does his part better the picnic will have to be held in the basement of the school building.
Rain has been falling for several days the past week and the crops are looking fine. Wire worm is damaging the grain on the dry land farms and it is to be hoped that the grain will outgrow the pest. It is said to be caused by the damp cold weather.
