Cove Coming To La Grande Next Sunday

Outcome of Game Will Decide Leadership of League As La Grande and Cove Tied for First.

More interest than has been shown throughout the 1922 intermountain league season is evidenced in the game scheduled for next Sunday in La Grande between the Cove Farmers and the La Grande Pirates, tied for first place in the league, each with three wins and one loss. Whichever team wins next Sunday will end the first third of the season leading the league by a safe margin.

The Pirates Sunday against Baker presented the strongest line-up they have mastered this year. Not only did their line-up lack a weak spot, but as a whole, the team played more strategically than in any of their previous games, and received a higher brand of pitching than at any time this season—or last season, as far as that goes. The team this year, after a bad start at Baker, with only a partial strength, are going at a fast rate, hitting hard, hitting to advantage, supporting McGee's excellent pitching in great shape and, in fact, looking like a "million dollars" to the fans.

If there is any advantage either way it rests with La Grande next Sunday. Baker beat Cove once and lost to Cove once, also breaking even with La Grande. Baker gave Cove a good trouncing a short time ago and La Grande knocked the spots off of the Cove as it looks as if the Pirates have a bit of an edge over the visitors, and with La Grande playing at home considerable more support will urge them on. Whether La Grande wins or loses, fans are expecting to see one of the fastest games in many years when the two leading teams clash.

Exhibition Game.
Arrangements have been made for an exhibition game at Cove tomorrow, providing weather permits. This game will have no bearing upon the standing of the two teams and it is doubtful if the complete Pirate line-up will be present, as one or two players will be forced to remain here.

NEW TRACK EVENT
PHILADELPHIA, May 29.—With the many athletes of the University of California speeding toward the Pacific coast with the third successive inter-collegiate championship trophy won here Saturday by their supremacy in the field events, the suggestion has been made that a new track event be added to the 1924 program, Lawson Robertson, coach of the Pennsylvania track team said Monday.

"Either the 440-yard hurdles or a relay race," said Mr. Robertson, "has been suggested by Chairman Gustave Kirby of the advisory committee."

GOES TO WILLAMETTE
SALEM, May 29.—Ray Bathum, athletic coach at the Oregon Agricultural college, has been named as coach for Willamette university, according to announcement. He will succeed Roy Bohler. Mrs. Bathum is athletic instructor for women at Willamette.

LINCOLN PILOT OF BIG SHRINE AUTO CARAVAN

With a record of having twice crossed the continent and covering more than 60,000 miles, the Lincoln car of Capt. Bernard S. McMahon, Secretary-Treasurer and Manager of the National Shrine Touring Club, is now plotting the caravan which left Oakland, Calif., May 1 for Washington, D. C., to attend the national Shrine meetings scheduled for June 5, 6 and 7.

Following the Washington meeting, Captain McMahon will plot the routes over a northern route on their return trip, the big white Lincoln blazing the way as Pathfinder. Selection of the Lincoln as the official pilot car is a notable tribute to the sturdy and enduring character of this car and its masterly performance under all kinds of road conditions.

Captain McMahon is enthusiastic over the Lincoln and declares that it has the most wonderful mechanism he has ever handled.

Aside from its matchless mechanical mechanism during the entire time he has driven it, the thing that impresses him most about the Lincoln is the extremely high tire mileage, a feature frequently commented on by Lincoln owners.

In speaking of the performance of the car, Captain McMahon recently said that on his last trip across the continent he consistently got thirteen miles to the gallon of gasoline in open country.

The high quality and superior performance of the Lincoln are daily winning new and enthusiastic admirers who find in this car everything that the Lincoln division of the Ford Motor Company claim for it, that it presents the highest achievement in automobile mechanics and construction that modern methods can produce.

Perkins Motor Company represent Lincoln and Fords in this vicinity.
