Ouch! Rub Backache, Stiffness, Lumbago

Rub Pain from back with small trial bottle of old "St. Jacobs Oil."

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica or maybe from a strain, and you'll get relief the moment you rub your back with soothing, penetrating "St. Jacobs Oil." Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on your back and out comes the pain. It is harmless and doesn't burn the skin.

Limber up! Don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" from any drug store, and after using it just once, you'll forget that you ever had backache, lumbago or sciatica, because your back will never hurt or cause any more misery. It never disappoints and has been recommended for 60 years.

Operation Avoided

Portland, Oreg.—"Dr. Pierce's medicine has been so very beneficial to me that I am glad to give it my recommendation. Doctors said I would have to undergo an operation, but after taking the 'Favorite Prescription' I found that an operation was not necessary. During one expectant period I suffered with inflammation and became so weak and run-down I could not do my work. Doctors again advised an operation, but instead I began taking the 'Favorite Prescription' and it soon put me on my feet. My health returned, I had practically no suffering, and my baby was very healthy. Since that time whenever I have felt badly I have taken the 'Favorite Prescription.' It always makes me well in no time.—Mrs. Isabella McLaughlin, 704 1/2 1st Ave. Go to your neighborhood drug store and get Favorite Prescription in tablets or liquid. Write Dr. Pierce, President Invalids' Hotel, in Buffalo N. Y., and receive good medical advice in return, free.

A Few Facts About Cement

Cement is "burned" at one of the highest temperatures used in industry.

The cement you get is in several billion pieces to the cubic inch.

17,000 miles of cotton cloth are used for a year's supply of cement sacks.

Cement must pass through sieves with 40,000 holes to the square inch.

Eight heavy grinding and crushing operations. Slow burning and at a temperature higher than is necessary to melt gold or make steel.
