A Good Place to Trade

Society

The Royal Neighbors are preparing for a big district convention to be held June 13 in the Rex hall. District Deputy Phoebe Williams of Baker, is here soliciting new members, and they will have a large crowd for selection.

They will hold a special meeting in the K. P. hall Thursday at seven p. m. for balloting and preparation for the convention.

A large delegation will be here from Baker and their degree staff will put on the work. Halfway, Oregon, will also send a number of representatives. In fact they are expected to have a royal time.

Elaborate plans are being completed for one of the series of Country club dances to be given Monday night at the club house. The dances have attracted a great deal of interest in the past, and as this dance promises to be one of the best yet given, a goodly number is expected to be present.

The Columbia theater's second discovery concert Sunday noon was greeted by a capacity audience. The programme was a well-balanced one featuring Margaret Carney, soprano and Lieutenant R. L. Crane of the police bureau. Other members were Francis Ritcher, pianist; Charles R. Thompson, baritone; Harry Linden, violinist, and the Columbia Players orchestra.

Miss Carney added to an already impressive reputation by her two numbers, "Magne's Waltz" (Arditi) and "I Passed by Your Window" (Brahe).

The Columbia theater offered her a four-weeks' engagement—Oregonian.

Miss Carney is a former local girl having lived in La Grande for some years. She has many friends in this city and surrounding country.

Mrs. John Taylor passed through La Grande last evening, en route to her home at Grass Valley. Mrs. Taylor has been spending some time at Hot Lake visiting friends.

Mrs. E. Thomas, wife of the O. W. R. & N. roundhouse foreman, of La Grande, left on No. 18 for Portland on a pleasure trip.

Mrs. D. A. MacDonald will leave on 24 tonight for Winnipeg, Manitoba. Mr. MacDonald will go to Vancouver, B. C., and Seattle, Washington, where they will visit for some time before returning to Pendleton.

The Women of Mooseheart will meet at the home of Mrs. Frank Shanko, on East Penn avenue Thursday afternoon at two o'clock for a social afternoon. Mrs. Fred Smith and Mrs. L. A. Stoop will act as joint hostesses.

The Thursday afternoon club will be entertained by Mrs. C. J. Edelen tomorrow afternoon at her home on Depot street.

The Missionary Society of the Presbyterian church will hold its regular monthly meeting Friday afternoon at 2:30 o'clock at the home of Mrs. W. B. Pickens. It will be a meeting of exceptional interest to La Grande ladies who are interested in missions. Miss Hatch, a missionary on a furlough from India, will talk. She is well known in La Grande where she has many friends.

Miss Hatch's work is supported by the societies of this section. Visitors who would like to meet Miss Hatch will be cordially welcome.

Fashion Notes

Scarabs are Used.
London.—Scarabs are almost compulsory as a decoration today on gowns and hats; sometimes the hat is almost a big scarab in motif. Such was the fashion noticed at Claridge's during the dinner hour Friday. Made up of dull gold braid and scarab green silk, it had a beetle head in front and flat wings at the sides.

Shoes Have Color Combination.
New York.—A remarkable shoe seen here today, makes a happy compromise between the conservative and the coquettish. It starts out with being white kid and black patent leather trimmings. It ends, however, with a little tassel of red kid and seals, fastened to the top strap and falling over the instep.

Grave Idea in Shoes.
New York.—You may, if you are so disposed today, wear King Tut's tomb upon your shoe. One of the latest buckles copies the shape of the entrance to the tomb. The buckle is of enamel, and has goddesses kneeling what upon it in Egyptian characters.

Temperamental Gray Tweed.
New York.—Not every shade of gray is easily matched in hosiery. There is a gray seen this season in tweed suits which does not harmonize with the usual slate or smoke or gray stockings. This temperamental gray tweed demands a strange but pretty small gray with a distinctly tan cast to it.

Combine Gray with Lavender.
Paris.—The combination of gray with lavender is one which appeals to young girls today for afternoon or "little" dinner frocks. At a recent smart tea one of the guests, an ash blonde, wore a gown of gray silk crepe, with panels of accordion plaited lavender tulle.

Grain Inspection Dates.
C. B. Ahlson, state seed commissioner, Boise, Idaho, announces that grain growers who desire inspection for certification may have until July 1st to file application instead of June 15th as stated in the certification circular. Extending the time two weeks will give the growers a better opportunity to observe the seed possibilities of the fields.
If this condition can be determined by June 15th, please make application to state seed commissioner so that ample time will be given to complete schedule of inspection. Notify county agent when inspection is desired.

Take Vicks on Your Vacation

Nearly everybody uses Vicks for colds, coughs, asthma, hay fever, catarrh or tonsillitis. These are inflammations of the air passages. But we forget that it's just as good for inflammations of the skin or muscles.
Take the familiar blue jar on your vacation and try it for sunburn, bruises, sprains, bites, stings, poison oak (poison ivy), cuts and scratches.

FORD PLAN IS PLEASING VETS

Disabled war veterans of Michigan have welcomed the offer recently and already more than fifty are undergoing treatment at the big institution.

All of the veterans are admitted in the same manner as private patients and are treated on exactly the same basis. They are entitled and receive the same quality of service and are distributed in the various units in the hospital according to the availability of rooms.

The first thought was to open a special unit for these men, but the hospital on consideration felt the men would be better satisfied if they were distributed throughout the hospital with the other patients and accorded the same services free of any charge to all disabled veterans of Michigan needing treatment were made a few weeks ago at a meeting between Alvin M. Gwysley, National Commander of the American Legion, Henry Ford, Edsel B. Ford, President of the Ford Motor Company, and Dr. Harkness, State Commander of the American Legion.

The arrangements for the care of the disabled veterans continue in effect until December 31, 1923. If at that time Congress has not passed necessary legislation to afford hospitalization of ex-service men the matter will come up for further discussion and the agreement renewed for another definite period.

The ex-service men are admitted following a recommendation by the Welfare Office of the American Legion in Detroit.

Another arrangement also has been effected between the Legion and the Henry Ford Hospital whereby in extreme cases of destitute families of former service men their children needing hospitalization will be treated when designated by the Legion Office.

WHOLESALE TRADE IS DULL NOW IN LUMBER INDUSTRY

Wholesale trade in lumber has undergone considerable reduction in volume during May and at present is quite dull, says the American Lumberman, Chicago. The result is that prices have shown a general downward trend. Declines, however, have not been extensive and are not likely to become so, in view of the fact that fundamentally the lumber industry remains in a strong position. The congestion of business at the mills consequent to the enormous demand earlier this year, and aggravated by intense stock scarcity and unfavorable production conditions, has been greatly relieved. Therefore the market has an easier tone, but there is no element warranting the belief that it will suffer a serious decline. Prices are seeking the lower level made necessary by this changed condition, and when this has been found will undoubtedly become stabilized on that basis.

There is a disposition to postpone large building projects until labor and material costs have declined, but prospects are that the present enormous amount of dwelling construction will be continued uninterrupted in most sections. This alone would insure lumbermen of an active and steady market throughout the year. Retail trade remains heavy, and yards which recently carried heavy stocks as a result of large, almost simultaneous, receipts on old orders, are steadily moving out this lumber. However, they are in no hurry to buy for replacement, as they feel they can now secure lumber promptly when they need it. Distributors expect that, at the present rate of reduction of retail stocks, dealers must come into the market for heavy replenishments during June. Manufacturers meanwhile are taking advantage of the present opportunity to clean up order files and rebuild stocks, and are exerting no great pressure for new business.

Industrial business also is low, particularly in hardwood. Factory consumers are busy and have excellent prospects, but are well supplied with lumber and are not likely to re-enter the market on a large scale for some weeks. The outlook for late summer and fall is excellent and a strong hardwood market at that time is generally expected. Production is still seriously retarded, in the South by water and in the North

by labor scarcity. Stocks therefore remain in bad condition and, as any material replenishments this summer appear unlikely, there are many who look for higher prices.

A lot of flight fans are wondering if the Fourth of July affair will be a fight on the border, or just border on the fight.

There always are two sides. If there is a guard on the Mexican border to keep aliens out, it will keep our criminals in.

In a little while now the children will be home from college and we'll see them every once in a while during the summer.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed With Sulphur It Brings Back its Beautiful Lustre At Once

Gray hair, however handsome, denotes advancing age. We know the advantages of a youthful appearance. Your hair is your charm. It laces or unites the face. When it falls, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur restores its appearance to a hundred-fold.

Don't stay gray. Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application of two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.
