EASY TO DARKEN YOUR GRAY HAIR

You Can Bring Back Color and Lustre With Sage Tea and Sulphur

When you darken your hair with Sage Tea and Sulphur, you can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. At little cost you can lay at any drug store the ready-to-use preparation, improved by the addition of other ingredients called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger.

LIGHTNING KILLS TWO COWS, ELGIN

(Special to Observer)

At the McMillen farm on Gondola creek, two cows were killed by lightning. A cloud burst later wrought havoc in the foothills, washing mud to the depth of several inches over the floors in the Charles Moore home, and drowning young chickens at a number of farms. The worst of the storm was confined to that region, and that portion of town, in the east and south part of town, it came as only a heavy rain.
