## Bat Averages Take A Slump

### Fosbury's Performance Last Sunday Sent Pirate Percentage Down the Ladder.

Fosbury played thunder with the Pirate batting averages at Baker Sunday when he let the team down without a hit. Only one man maintains his former percentage and that is McGee, who was ill and was unable to take part in the game. He still leads with a percentage of .467. The team batted at a whole .000.

With seven games played and only three more yet to play, due to the forfeiture of two games to La Grande by Union, the averages now stand:

Players	GP	AB	H	Pct.
McGee	5	15	7	.467
Crews	7	25	6	.240
Thielson	7	27	6	.222
Johnson	7	22	4	.182
T. Knight	6	22	4	.182
McInnis	3	6	1	.167
B. Knight	6	19	3	.158
Rosenbaum	7	28	4	.143
Garrity	7	27	3	.111
White	3	9	1	.111
Team (Sunday)	7	27	0	.000
Team	7	228	42	.185

La Grande will play no official league games again until July 8 when they will play Baker here. Two games with Cove will then close the season.

## ALL SUMMER GREENS

A peculiar vegetable from the other side of the world which shares with Swiss Chard the function of furnishing "summer" greens is the New Zealand spinach. It is not a spinach at all, although used in the same manner. Seed of New Zealand spinach should not be sown before May 1 or later, when the ground becomes warm, as it will not germinate while the ground and weather remain chilly.

Unlike the true spinach it is a long-season vegetable and remains in bearing until fall. As this stranger from the Antipodes makes a strong growth, sometimes attaining a spread of from six to eight feet, it needs plenty of room and the plants should be set two feet apart in rows three feet apart. Both the stems and the leaves are brittle and succulent and are not affected by heat which quickly sends the ordinary spinach spinning up to seed and destroys its usefulness in the garden.

The New Zealand spinach is a relative of the ice plant. It grows for ornament and the seed is much slower to germinate than that of the true spinach, sometimes taking three weeks to appear if the weather is cool. But with hot weather it makes a rapid growth and when well grown more than a half a peck of leaves per plant may be picked from time to time during the summer. The tips of the leaves are tenderest.

Unlike the true spinach, the leaves are picked instead of pulling up the entire plant.

The "greens" when cooked precisely in the same manner as spinach have much the same flavor as the better known vegetable now so largely grown.

**RED PEPPER HEAT ENDS RHEUMATISM**

Red Pepper Rub takes the "ouch" from sore, stiff, aching joints. It cannot hurt you, and it quickly stops that old rheumatism from coming back.

When you are suffering so you can hardly get around, just try Red Pepper Rub and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers. Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and soreness are gone.

Ask any good druggist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package.

## LEONARD TO MEET TENDLER JULY 23

NEW YORK, June 20.—Benny Leonard of New York, world's light-weight champion, will defend his title in a 15-round match with Lew Tandler, Philadelphia southpaw, at the Yankee stadium on the night of July 23. The boxers, together with their managers Tuesday, signed contracts for the bout with the newly organized Cromwell Athletic club, which has obtained ring privileges at the American league park.

Financial terms it was understood called for the champion to receive 55 and 1-2 per cent of the gross receipts and Tandler 12 and 1-2 per cent. Club officials estimated that the fight would attract a gate of \$400,000 and on this basis Leonard would receive about \$150,000 for the defense of his crown and Tandler, \$50,000.

## BOYS ARE EXPENSIVE

(By Associated Press)

MISSOULA, Mont., June 20.—From figures compiled from the expense accounts of students at Montana University, authorities have ascertained that it costs \$17 a month more to keep a boy in college than a girl. Boys spend more for pleasure and \$4.50 a month more for board, the figures disclosed.

**Can You Afford to Speculate?**

EVERY time you buy something you are either speculating or making a definite investment.

Few people can afford to speculate. Yet many do it continually, in making their every-day purchases. And it is so unnecessary! The advertisements make it easy for any one to avoid taking a chance.

The merchant or manufacturer who advertises, realizes that the good-will of his customers means money in the bank to him. He knows that public confidence in his products and public respect for his own character are as valuable as his credit at the bank.

So he makes the individual satisfaction of his patrons, their loyalty and their friendship paramount issues in his business.

When you buy an advertised product, you can know in advance what to expect in return for your money. You can count on its being right. You are making an investment.

But when you buy nameless, unbranded merchandise, you are taking a chance. You are speculating.

Know what you buy. The Advertisements will tell you.
