## Shelby Crisis Now Settled

## Financial Difficulty Avoided When Action Is Taken by Great Falls Business Men.

SHELBY, Mont., June 27.—Another crisis which threatened for a time to imperil the holding of the Dempsey-Gibbons world's heavyweight championship bout here July 4, was avoided Tuesday when an agreement was reached between the high officials of Great Falls businessmen financially interested in the fight and lumber dealers and labor contractors who hold a mortgage of \$35,000 against the arena constructed for the battle.

Repayment of the money advanced by Great Falls bankers for the second \$100,000 guaranteed Jack Dempsey, and reimbursement of local lumber dealers and contractors will be a pro rata basis, it was announced by Geo. H. Stanton, Great Falls banker, after a prolonged and hectic conference held Tuesday.

## HARDING AND GRANT WIN FOURSOME PLAY

SALT LAKE, June 27.—Four presidents matched their golf skill Tuesday in a game on the golf links of the Country club here. Warren G. Harding, president of the United States, won with Heber J. Grant, president of the Mormon church, as his partner.

Singularly enough, the presidents of two golf clubs lost to the superior playing of the club executive and the church executive. They were L. C. Miller, of the Country club, and J. H. Johnson of the Bonneville club.

The score of the victors was one up on the 12 holes played.

The game was played on what is said to be the sportiest and most picturesque course in the country, a site formerly the bottom of a great lake, with canyons and plateau lands comprising what are now the playgrounds of Salt Lake people.

President Harding's best drive was made upon the edge of a high precipice to a green 510 yards away in the canyon beneath. He was on the green and in the hole in three.

## REGATTA TO BE HELD ON HUDSON RIVER THURSDAY

(By Associated Press)  
POUGHKEEPSIE, N. Y., June 27.—Six crews, five of the East and one from the far West, start on the Hudson tomorrow in the 26th championship regatta, a rowing event rivalled in interest only by the Yale-Harvard four-mile pull on the Thames at New London.

The champion Naval Academy boat victor in 1921 and 1922, will be fitted with another great oar set of oarsmen. The University of Washington shot, second only to the Navy in last year's event, again will have a strong eight-handling its sweepers. Coach Rice's Columbia University crew, one of the best in years, and the crews of Syracuse, Cornell and Pennsylvania are the other entries.

Cornell, winner of the championship more times than any other college crew, Syracuse and Pennsylvania have improved greatly in training during the last few weeks, and it is considered likely that either of these crews might fulfill the hopes of their most optimistic followers.

Based on early season performance, Navy, Columbia and Washington appear strongest of the six. Columbia, with one exception, has had a season of marked success. Their only defeat was by Yale in the triangular regatta with Pennsylvania on the Housatonic at Derby, Connecticut. The Columbia shell was led across the finish line by less than a length in that event.

The Navy has won from Princeton, Harvard, and Syracuse. Cornell lost to Yale, but defeated Princeton and Harvard. Washington won the Pacific Coast championship from California with a crew that appears even as good as that turned out by Ed Leader, now the Yale mentor, for last year's intercollegiate classic.

In this year's event Pennsylvania will row in lane No. 2, the traditionally lucky position. Navy, which rowed to victory in No. 2 in 1921 and in No. 5 last year, has drawn the fourth lane this year. Washington is in No. 1, the closest to shore. Cornell will be in No. 3, Columbia in No. 5 and Syracuse in No. 6.

There are now in Santa Barbara between forty and fifty patients who are being treated with insulin, many of whom have gained more than forty pounds in weight and have been changed from bedridden invalids to patients who are enjoying active diets and a full measure of normal activities. We have already treated 120 patients with insulin.

**Insulin Spurs M. D.'s Forward.**

William Englebach, president of the Association for the Study of Internal Secretions and clinical professor of medicine of St. Louis University told delegates to the American Medical association convention here that the recent isolation of insulin in the treatment of diabetes has been "an impetus to men who are particularly interested in this fascinating field of medicine." Dr. Englebach said:

"Many of the active principles of other ductless glands which have so much to do with the growth and development, both physical and mental, of the human body, such as adrenalin, thyroxin, etc., have placed the

## INSULIN CURES SHOWN AT MEET

(By Associated Press)  
SAN FRANCISCO, June 27.—Diabetes patients long bedridden are returning to normalcy through the treatment of insulin, Dr. W. D. Sansum, director of the Santa Barbara Cottage Hospital, Santa Barbara, Calif., told delegates to the seventy-fourth annual convention of the American Medical association here.

Dr. Sansum is conducting a special clinic at the Providence hospital in Oakland on the "treatment of diabetes with insulin," and a post-operative clinic at the Cottage hospital, Santa Barbara, will be given on the same subject. Dr. Sansum said:

Disorders of these glands beyond the stage of theory and hypothesis." Dr. Englebach gave a clinic at the Franklin hospital at which he demonstrated various types of ductless gland disorders.

**Great Lakes Shipping Breaks the May Record**

DULUTH, Minn., June 27.—The Great Lakes shipping business held to a late start due to the delayed opening of navigation, is booming. Yesterday's total of the total coal and iron ore tonnage handled during May was evidence of the increased shipping activity over last year.

The coal receipts for May, the first month of the 1923 navigation season, totaled approximately 1,600,000 tons. This is one of the largest monthly receipts on record, marine men said.

The total ore tonnage shipped from the head of the lakes exclusive of Escanaba, Mich., was 2,741,721 tons.

This is four times the tonnage handled during May, 1922.

The difference in the ore and coal tonnage for the opening month gives an idea of the percentage of boats traveling "light" from the lower lake port, to the head of the lakes, according to vesselmen. One of the few months to pass the coal receipts mark set during May was October, 1922, when every available craft was pushed into service to bring 1,771,525 tons to the local dock.

**England's Grist of Letters.**

LONDON, June 27. (AP)—In the 12 months just ended the British postoffice handled the enormous number of 3,300,000,000 letters, 500,000,000 postcards, 1,500,000,000 printed papers, 175,000,000 newspapers and 120,000,000 parcels. The total is 5,595,000,000 pieces of mail.

Of the 120,000,000 parcels, no fewer than 30,000,000 were wrongly addressed, or not addressed at all, while thousands of tons of letters were not delivered for the same reasons.

(By Associated Press)  
MISSOULA, Mont., June 27.—The forest service here recently sent 8,000 letters to various parts of the district, asking assistance from residents in protecting the forests from fire during the season.

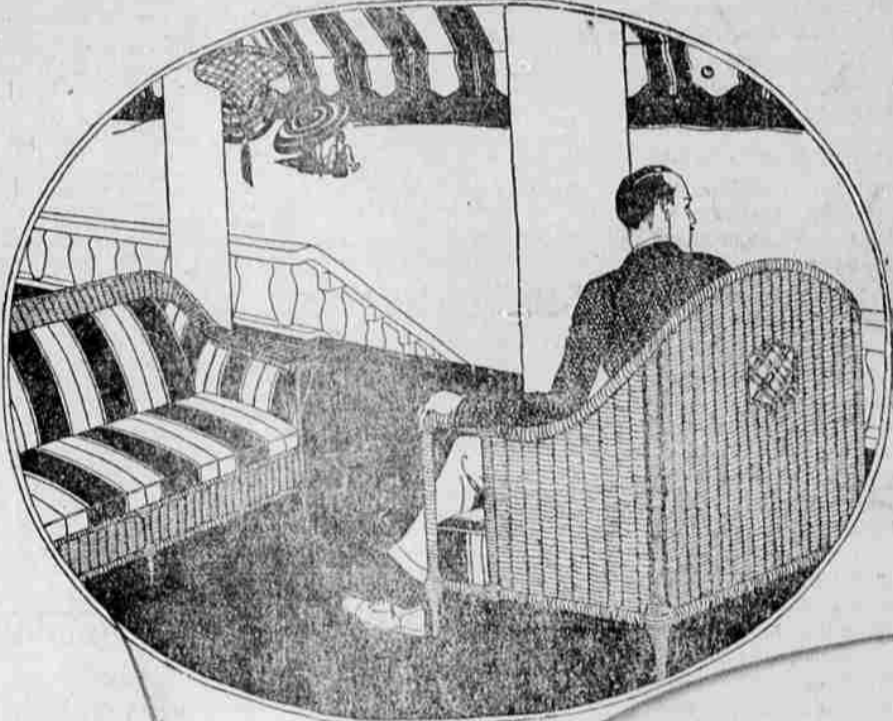

The replies have been varied: "I would be glad to help and if you'll use your influence to get me out of jail, I'll be at your service," is the reply from one man, imprisoned at Anaconda for failure to pay alimony.

Others trying to get roads through their homesteads, connections with government telephone lines, or other advantages, made similar offers to exchange services.

When Adam found he was naked he probably felt no more conspicuous than a modern in his first pair of knickers.

Forest Service Asks for Assistance Against Fires

# SUMMER FURNITURE

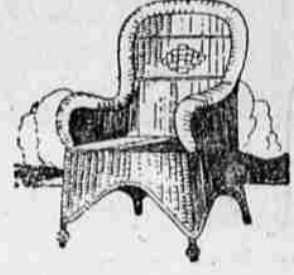

200 pieces of Summer furniture consisting of chairs, rockers and tables, substantially built in grass, reed and peel. We have assembled all these and are going to sell the 200 pieces at one price to all—you will be surprised to see the wonderful values we are offering.

Everyone interested in furnishing a sun parlor, bungalow, or a piazza should see these wonderful Summer furniture bargains.

Comfortable, light and sturdily built, each table, chair and rocker will satisfy you for many Summers to come. Each is representative of the quality and price fairness you will always find at CARR'S.

## One Price - \$12.85 - One Price
