**SAGE TEA TURNS GRAY HAIR DARK**  
It's Grandmother's Recipe to Bring Back Color and Lustre to Hair

That beautiful, even shade of dark glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur Compound. Your hair is your crown. It makes or mars the face. When it fades, turns gray or streaked, just an application of two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, already for use. It is called Weyth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair. Everybody uses "Weyth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.
