HIGHER WAGES FOR LABORERS
Supply of Help is Normal in Umatilla County With More Men Coming.

PENDLETON, July 10.—The supply of labor in Umatilla county is about normal, according to the conditions as Fred Beaman finds them. Some new men are arriving in the county every day in anticipation of the wheat harvest, and more are expected as the time for work draws near. Advertising has been done in the wheat belts of Idaho, California and other states that have earlier harvest seasons than Oregon to secure men as their work in these states is completed. This plan has been used to advantage three years ago.

Wages for harvest men will be slightly higher this year than last year and on about the same level as two years ago. The increase in pay is not being made because of an increased ability of wheat farmers to pay more but because of the keen demand from industry that makes the task of securing men harder than it has been since during the period of the war.

Wages will range from three to \$12 daily, depending on the kind of work done and the size of the outfit on which a man may be employed. Common labor will receive the lower pay. Separator tenders will receive from eight to \$12 per day, under the scale adopted by the county farm bureau organization. Sack sewers and "dies" will receive between four and one-half and seven dollars daily, and caterpillar men from six to eight dollars. Wages paid hauling crews will vary for the different kinds of work between three and one-half to six dollars daily.

NEW MILL READY SOON.
REEDSPORT, Or., July 10.—The Umpqua Mills & Timber company mill which has been under construction for the past two months, will be operating about August 1, according to Robert Archib, superintendent. The camp, which is located 18 miles up Smith river on Murphy creek this fall, will be running about the middle of the month. At present the cook house and bankhouses are completed and two donkey engines are there. A third engine is expected within the next week.

One parcel of machinery has already arrived for the mill and three or four more carloads are expected shortly. When everything is fully operating it will increase the city's payroll from \$10,000 to \$15,000 monthly.

FORD STALLS IN FRONT OF TRAIN

UNION July 10.—Wednesday morning as the train was just starting for the Junction to meet number seven, a Ford roadster tried to cross Main Street ahead of the train. The driver was warned to wait but came right on and as luck would have it he killed his engine while the car was still on the track. The train hit it and shoved it off the track. No one was injured and the machine only slightly damaged, owing to the fact that the train had just started and was moving very slowly. The Ford appeared to be practically new and as far as could be seen it had no license number of any kind.

Union was quite deserted Tuesday, all the stores being closed and very few people remaining in town for the day.

The annual rose festival and parade held here last Friday was well attended and was a great success in every way. A beautiful display of flowers or exhibits and the parade had so many different kinds of exhibits that the prizes were almost all firsts. Two or three seconds and one fourth prize were awarded and the others were all firsts. Afterwards the following program was given at the Union Hotel: "Unfold the Glorious Banner" and "Oregon" by the Community Chorus, reading "How the West Was Won" by Agnes Faddock, The Minnet Dance by twelve members of the L. P. H. Beehive Girls, in colonial costumes, after talk by Roy Conklin.

R. H. Rohrig is experiencing a little difficulty in getting around to look after his work owing to the result of an accident which befell him Wednesday. He was helping stack hay and while driving the horse he was struck by a wire cable when a pulley broke. He was thrown to the ground and had two of his ribs torn loose in front and was also badly bruised. With the injured ribs properly bandaged Mr. Rohrig is able to get out again and says he will be all right in a few weeks.

Ralph Moran, accompanied by his wife, Mrs. Morgan's mother and brother, Mr. and Leslie Bellis, drove out of Union Sunday morning on their way to Yellowstone Park for a few weeks' vacation.

E. F. Reuter was elected as a lay delegate to the annual Methodist conference to be held in Baker this fall, at a special election just after the morning services at the local M. E. Church.

At their regular meeting last Friday evening the local Odd Fellows lodge installed Vernon Allen as Noble Grand and Rex Griggs as Vice Grand. E. F. Reuter as secretary and William Kiehlbeck were retained in these two offices.

Lakes in Good Order.
Superintendent E. H. Bonney of the state fish hatchery was called to Wallowa Lake last Thursday owing to a report that the ponds recently installed above the lake were polluting the water. He returned to Union Friday and reported that everything at the lake was in good order. Mr. Brailier who was here from Portland building the new cottage at the hatchery, has left the finishing of the

Age Faces Rich Red Wine.
(By Associated Press)
BUDAPEST, July 10.—There is promise of a bumper wine crop in Hungary, as result of satisfactory weather conditions. But frontiers on the Czechoslovakian and Serbian sides, and the low purchasing power of the Austrian crown make it highly improbable that much Hungarian wine, including the costly Tokay, highly esteemed by connoisseurs, will ever find its way out of the well stocked cellars of Budapest.

The Hungarian wine industry is practically ruined by the new political conditions. Czechoslovakia and Serbia will not admit Hungarian wines, because they are wine-producing countries themselves. Austria cannot buy it, because she is too poor, although she was formerly Hungary's chief customer.

Hungarian wine producers have been having a huge surplus on their hands for four years, and they see no way open to them, except to continue crowding their cellars. But even that is impossible, as the cellars are already crowded.

FIRST MASS OBSERVED.
MOUNT ANGEL, Or., July 10.—St. Mary's parish, Mount Angel, today celebrated an unusual event. Rev. Joseph Klott, C. S. S. R., read his first mass here at 10:30. Father Klott is the first native son of Mount Angel to be elevated to priesthood. He was born here February 4, 1897, and was passed through the grammar grades at St. Mary's school. His high school course was at Mount Angel college. After completing his preparatory studies at Grand Rapids, Mich., he entered the novitiate of the Redemptorist Fathers at De Soto, Mo., and finished his theological studies at Oconomowoc, Wis.

After the mass, at which almost the entire parish was present, he imparted his blessing to each individual in turn. Souvenirs of the occasion were also distributed. A reception was held at the home of his father, one mile north of the city, from 2 to 5 p. m. After a short visit here Father Klott will leave for another year's work, including the study of Spanish, having been assigned to a mission on the Mexican border in the San Antonio diocese.

Dictator Pockets Big Earnings.
(By Associated Press)
PEKING July 10.—The Peking Mukden Railway has definitely ceased to exist as a trunk railway, according to R. Lenox Simpson, who has just returned from a tour of investigation in Manchuria. There is no through traffic north of Shanhai-kwan, with the exception of a daily mixed train. All freight, including grain, which forms a large part of the traffic, has to be trans-shipped at the Great Wall.

This state of affairs is the result of the military fiasco of last year when Chang Tso-lin was driven back to Mukden after his collision with Wu Pei-fu. Since then General Chang has kept all of the rolling stock which he collected in his retreat. No part of it has been allowed to go south of Shanhai-kwan. Simpson estimates General Chang's profits from his portion of the railway at a million dollars. Chinese currency, a month, in spite of the fact that 2,000 cars are lying idle on sidings.
