Clare Fitzgerald and Everett Rosenbaum left this afternoon for Pendleton to drive back the car which Mr. Rosenbaum recently purchased while in Portland.

CAMP FOR MOTHERS.
(By the Associated Press.)
SPokane, July 11.—Five mothers and 12 children made up the summer camp at Twin Lakes, in Northern Idaho, near here, maintained for poor mothers and children by the American Association of University Women.

"Those chosen to go to the camp are people who could otherwise not enjoy a vacation and whose condition of health makes it advisable that they be given an outing," Mrs. Wesley H. Du Bois, in charge of local arrangements, said in explanation of the association's work.

"They will remain at the lake a week or so and then another group will be sent out. Each week we will have new persons going to the lake and have others brought back home."

Orphans To Be Trained.
LONDON, June 21.—Two thousand orphan boys from Anatolia have been transported as farm colonists to the rich agricultural district behind the Macedonian front through the efforts of the Near East Relief and the British Red Cross.

The Greek government has allotted 5,000 acres of land near Philipp to the Near East Relief, which is establishing three farm villages for the boys. Within a year, the boys will be able to take work to establish themselves on individual farms.

This is the first farm experiment of its kind in Greece and the government farm experts will pay close attention to the initial stages of the enterprise.

The open door policy in China gives nationals of every country equal opportunity to fight with disaster.

Adds to Fame of King.
(By Associated Press.)
BIRMINGHAM, England, June 20.—Perched on the arm of a chair and smoking a big cigar, the Prince of Wales recently joined vigorously with the Bishop of Birmingham, the lord mayor, and many young men in singing the chorus of "Caractacus," which ends thus: "The stick that lashed the trousers of the boy who shouted 'Beaver' to the man who put the powder on the faces of the harem of the King Caractacus."

This occurred at an informal gathering in the lounge of a club presented to ex-service men, which the prince had just formally opened.

My Hair

Grows finer, thicker every year

By Edna Wallace Hopper

At my ripe age, my hair is such as any girl might envy. Heavy and luxuriant, fine and clean. I have never had gray hair, never falling hair, never a touch of dandruff. And every year, despite my age, it grows more beautiful.

It is my greatest glory, admired by all who see it. Yet I have stood in the limelight for 32 years as a musical comedy star.

Beautiful at 57

I owe this to my hair. She said, "Science knows some way to beautify the hair. Let us find it." So we searched the world until we found the best that science offered.

Mother died at 57 with hair like mine today. Never a hair turned gray. I used what she used, and with like results. Scores of my friends have come likewise, and all have this beautiful hair. So I am convinced that millions can enjoy these benefits, and I am going to help them do it.

Hair is Stifled

Experts tell me that hair health depends on a healthy scalp. An oil called Sebum accumulates there, grows hard and clogs the pores. Dandruff attacks the scalp. Then the stifled hair roots deteriorate or perish.

The pigment which gives hair its color becomes stifled in a like way. Then some hair falls out, some loses its color, all ceases to thrive. Just as flowers wither and perish when stifled by weeds.

So those scientists in France gave me the formula I use. It stimulates the hair roots, fertilizes the scalp. They told me it would multiply the beauty of my hair, and it certainly has done so.

With An Eye-Dropper

I call this formula my Hair Youth. I apply it with an eye-dropper once a day—just enough to dampen the scalp. It takes but a moment, and it doesn't muss the hair.

Now I offer this formula to all. I hope and believe it will bring to millions what it brought to me. I have never met anyone who has found a hair help to compare.

Edna Wallace Hopper's Hair Youth sells everywhere at 50c and \$1.00 with eye-dropper. Also my Facial Youth—my famous liquid cleanser. Also my Youth Cream—my fruity cold cream. Also my White Youth Clay. My Beauty Book comes with each.

I hope that all who want lovely hair will see what my Hair Youth does. If the first bottle fails to please you, your dealer will return the price.

REPORT BRISK TRADE

(By the Associated Press.)
COPENHAGEN, July 11.—Danish shipbuilding yards seem to have safely weathered the post-war trade depression and are entering upon a period of comparatively prosperity, says the Scandinavian Shipping Gazette.

The yards have come through the crisis very well, principally owing to the consolidation policy which has been followed. With the placing of new orders, the yards are able to work more or less independently again. They are all busy, and a few of

them are booked up. Unemployment has benefited accordingly.

The yard workers, earlier in the year, voluntarily agreed to reductions in wages in order to make it possible for the yard shipbuilders to bid low.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he can not be too

careful about unnecessary expenses.

Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars.—Adv.

Of course insects have brains. How else could they figure out just where you are going to have your picnic?

Play safe on oil

It's important to you, to your motor, to your pocketbook—that you get a distilled lubricant for your car. There's just one way to be sure of getting it.

SUNOCO

THE DISTILLED OIL

is the distinctive, distilled lubricant for motors; made by an exclusive patented process.

You know what distilling does—removes every impurity. Every one of Sunoco's six types—Light to XX Heavy—is pure, distilled lubricant. Ordinary oils consist of light oil with "cylinder stock" added to give body. It's cylinder stock that causes your carbon troubles.

Ask your dealer or write us for booklet, "What's Happening Inside Your Motor?"
