This morning Mr. Hackman entered his garden following the hail storm of yesterday and gathered one head of New York Market lettuce that weighed three pounds and one-half ounce, and a head of Hanson lettuce that weighed two pounds, two and a half ounces. FORD WORLD'S RICHEST MAN

Jitney Manufacturer Reported To Be Worth Half Billion Dollars; John D. Rockefeller Next Richest.

(By Associated Press.)
 LONDON, July 17.—Who are the ten richest men in the world? asks the Sunday Express. It answers the query itself by giving a list at the head of which is Henry Ford, whose fortune it estimates at \$500,000,000. John D. Rockefeller comes next with \$450,000,000; Andrew W. Mellon, secretary of the treasury, is third with \$150,000,000, and then follow the Duke of Westminster, Sir Basil Zaharoff, Hugo Stinnes, Percy Rockefeller, Baron H. Mitsui, Byron H. Ivesack and the Gackwar of Baroda, each with \$100,000,000. James B. Duke, the tobacco king; George F. Baker, of the First National Bank of New York and T. B. Walker, the Minneapolis timber landowner, the Express says, might be added to the list, since they all have fortunes estimated at \$100,000,000, while there are at least three other Indian rulers whose fortunes probably exceed this amount.

The Rothschilds, Guggenheims, Vanderbilts, Weyerhaeusers, and the Astors, says the writer, do not figure because their are family fortunes. The Rothschild wealth has been estimated at from \$250,000,000 to \$500,000,000 and that of the Astors at from \$100,000,000 to \$300,000,000.

Henry Ford is possibly the richest man in all history, the paper declares. He has a net business income of more than \$100,000,000 a year. He earns \$250 every minute. Croesus may have been richer, since his famous gift to Delphi cost \$10,000,000, and that, reduced to today's terms, might mean \$200,000,000.

John D. Rockefeller gave away \$500,000,000 to charity and to foundations before 1921. He is the head however, of the biggest group of wealthy men ever produced by a single industry, and his private fortune must still rank him second.

Sir Basil Zaharoff is Europe's mystery man, but it is no mystery that he is one of Europe's wealthiest men. He owns more than half of Monte Carlo, and his holdings in armament firms are even larger. He is in oil, finance, shipping; in fact, it is difficult to say what he is not interested in.

The Mitsuis and the Iwasakis are financiers, traders and shippers. The Gackwar of Baroda's wealth is almost impossible to estimate, but his diamonds alone are valued at \$1,250,000, and he has a jeweled tapestry worth \$1,500,000. Guns of gold weighing 400 pounds stand at his palace gate.

Lady Bugs And Orchard
 MEDFORD, Ore., July 17.—C. C. Cate, county agent, rode into Medford Monday, from the Astorian range station with about 300 lady bugs in the back seat of his automobile which he declared will be worth at least \$5000 to the orchardists of the Rogue river valley.

Mr. Cate released several thousand of the insects in the orchard section east of Medford today. The lady-bugs, says Cate, may eventually clear local orchards of scale and aphid.

World Printers Unite For Mutual Benefit

(By Associated Press.)
 GOTHENBURG, Sweden, June 26.—The establishment of an international bureau of master printers in Sweden is one of the results of the world congress of master printers which has just ended in Gothenburg. This meeting of expert printers was attended by one hundred and fifty delegates from eighteen countries, including the United States, England, France, Germany, Italy, Spain, Sweden, Denmark and Norway.

It was set forth that a central bureau was needed in order to collect and distribute information regarding industrial disputes and settlement, new methods of cost accounting, development of standardization of paper grades, etc., the establishment of unit prices, and similar topics of general interest to the trade. The meeting passed a resolution that the Swedish Association of Master Printers be invited to open such a central bureau, and the invitation was accepted.

A bulletin will be issued in English, French, and German, and the financial support of the central bureau will come from the various national bodies of printers who avail themselves of its service.

Taps Coal Deposits
 HELENA, Mont., July 17.—Construction of the Escalante branch of the Northern Pacific railroad from Forsyth, Mont., which will be undertaken this summer, will tap a deposit estimated to contain 350,000,000 tons of semi-bituminous coal.

 consequence in most districts.

An accurate check on the damage may never be made but it is certain that the yield will be somewhat less than was forecasted a short time ago by agricultural authorities.

La Grande Suffers.

La Grande did not escape undamaged. In several portions of the city reports came that window panes had been broken, flowers damaged, and other small injuries.

Probably the most important result of the storm here was the smashing of about 350 window panes in the greenhouse owned and operated by A. B. Cherry, florist. Mr. Cherry today estimates the damage to be about

Viennese Too Poor To Pay The Doctor Bills

VIENNA, June 26 (By Mail)—Hundreds of doctors in Vienna are having hard times these days, keeping themselves and their families alive. The people cannot afford to pay their fees, which are 10-20 crowns, or 15 cents, for a visit. Many physicians' families get meekly only once a month, and live chiefly on bread and potatoes.

Ninety per cent of the people in Vienna belong to sick benefit associations, and seek the help of an outside doctor only as a last recourse. Furthermore, few foreigners come nowadays to Vienna in quest of medical aid. The home doctors discourage them from taking the journey, recommending the local facilities for cure as good as anything to be had in Austria. It is evident the local practitioner does not want fees to slip through his fingers for the benefit of the profession in another country.

Johnson Is Elected In Minnesota

 person voted, has been dissipated to a large extent.

Both Governor Preus, republican candidate, and Mangus Johnson, farmer-laborite, voted early in their respective home precincts and James A. Carley, democratic nominee, did likewise.

In almost every case the county reports showed a vote in excess of that in the primary and in some instances it was double. This led to the prediction that the total vote would exceed 500,000. In the general election last fall, when Preus and Johnson were opponents in the gubernatorial race, the vote totalled 715,000. There are 500,000 eligible voters in Minnesota.

A Studebaker, owned by J. J. Quinn, of Blackfoot, Idaho, returning home after touring the coast, came into La Grande the top of the car looking like a sieve. The owner reported that there wasn't a six inch square that wasn't bored with one or more holes. The holes ranged in size from one to six square inches. Several of the occupants of the car were bruised by the hail.

A T. Hill's sedan was damaged by the hail and several other cars also suffered.

Events from upper Lead Canyon were that no hail hit that district yesterday.
