HARDING BELIEVES IN SAVING HABIT

President Harding has often shown his interest in the savings movement and has personally invested in Treasury Savings Certificates, the valuable savings security issued by the U. S. Treasury Department. In a speech at Salt Lake City, Utah, the President said: "The world, its Government, its quasi-public corporations, its people acquired the spending habit during the war to an extent not merely unprecedented but absolutely alarming. There is but one way for the com-

munity finally to get back on its feet and that is to go seriously about paying its debts and reducing its expenses. That is what the world must face. The greatest and richest Government must face it and so must the humblest citizen. "No habit is so easy to form, none so hard to break, as that of reckless spending. And on the other side, none is more certain to contribute to security and happiness than the habit of thrift, of savings, of careful management in all business concerns, of balanced budgets and living within incomes. "If I could urge upon the American people a single rule applicable to every one of them as individuals, and to every political or corporate unit among them, it would be to learn to spend somewhat less than your income all the time. If you have debts, reduce them as rapidly as you can; if you are one of the fortunate few who have no debts, make it a rule to save something every year. "I would have our Government adequate in every locality and in every activity, and publish sentiment will demand it and secure it, and require no more, if we may have the simple and thrifty life, which makes the healthful nation."

If Kidneys Act Bad Take Salts

Says Backache Often Means You Have Not Been Drinking Enough Water

When you wake up with backache and dull misery in the kidney region it may mean you have been eating foods which create acids, says a well-known authority. An excess of such acids overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night. Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys, also to neutralize acids in the system, so they no longer irritate, thus often relieving bladder weakness. Jad Salts is inexpensive, can not injure and makes a delightful, effervescent lithia-water drink. Drink lots of soft water. By all means have your physician examine your kidneys at least twice a year.
