Fishing Trip a Success—
Our fishing trip was not as successful as to the number of fish caught as was the one we took last year—but we had a wonderful time, stated J. C. Macpherson today, who has just returned to La Grande from a summer outing and is back in the harness again. Last year we were able to wade all of the streams but we had to swim 'em this year and as a result our catch wasn't so large, although we captured 182 members of the finny tribe. I. W. W. PLANS MARINE STRIKE

Invasion of Texas Town as Protest Demonstration Is Hated; Walkout Considered.

PORT ARTHUR, Tex., July 21.—The invasion of Port Arthur by Industrial Workers of the World, has to all outward appearances, been called off. Outside of those of the advance guard who arrived early in the week, none of the I. W. W. army has arrived.

Plan Marine Strike
PORT ARTHUR, Tex., July 21.—The climax of an impending general marine strike, embracing the entire country, being ordered, to take place in the World out of vessels in every port, comes coincident with calling off of the I. W. W. invasion of Port Arthur.

Summons from high officials Friday had checked the army of more than 20,000 crusaders bound for this city, itself having little more than 20,000 population. But a few members of the advance guard had arrived. These were in jail.

At 11 o'clock Thursday night General Organizer Sidney Terry had announced to his Associated Press representative the calling off of the crusade and simultaneously made the first public announcement of the impending marine strike.

The marine strike is to be a protest, Terry said, for imprisonment for violation of criminal syndicate laws and against the recent court injunction in California. Reports received here from Los Angeles Wednesday told of 27 members of the I. W. W. being convicted of criminal syndicate law by a jury in superior court in Los Angeles, and of their sentences to serve from one to 14 years in San Quentin penitentiary.

New Orleans as Hub
New Orleans, he said, was to have been the centralization point for the Port Arthur invasion, and that already a considerable number had arrived there by vessel from both Atlantic and Pacific coasts.

Bodies the flank of the army ordered retained at New Orleans, another flank. Terry declared, had been ordered to the New York sector, while still other detachments from the west will be diverted from their journey here to strategic points to await the "zero hour" of the strike.

Then simultaneously the strike will go into effect east, west, and on the Gulf coasts. The west may come in a short time, he said.

The first in about five years and was arranged on short notice or more would have been present. The family is one of the earlier pioneer families of the Grande Ronde valley. A basket dinner was served and all got together for a good time.

UNION CHURCH HAS 50TH ANNIVERSARY

UNION, July 21.—Pastor Quinn of the M. E. Church, has furnished the Republican with the following account of the services at the fiftieth anniversary of the Union M. E. Church, which is the mother church of this valley:

Last Sunday was a red-letter day in the history of the local M. E. Church. It was the fiftieth anniversary of the organizing of the church in Union. Simon Miller, Miles Baird, W. T. Wright, Wm. Hutchinson, Samuel Hanna and A. T. Eaton composed the first official board. These were men of vision and faith, and built wisely and well. The first church built by this society, is now owned by the Catholics, the Methodists having outgrown it. The splendid plant now in use was erected in 1902 and 1903 and is in good repair. This church, like all others has had its ups and downs, but through all the years its aim has been to create and maintain a sentiment for those things worth while in life, and ever remembering, "that one is your Master, even Christ, and all ye are brethren."

Twenty-nine men have served as pastors, ranging in time from three months to three years. Only three persons that were charter members of the church, Rev. J. B. Wright and Mrs. Doherty, are now living.

Rev. Ira Aldrich preached a strong sermon Sunday morning. In the afternoon a platform meeting was held, when greetings were brought from Cove, by Rev. Post; from Island City, by Rev. Wallace; from the local Presbyterian Church, by Rev. Hodge; from the Mormon Church, by W. J. Baxter. Greetings were read from Bishop Burns, Rev. Van Dusen, J. G. A. Martin, W. A. Winters, and a poem written by Dr. J. B. Gillilan. Mrs. Bell Wright gave a most excellent talk along the line of the beginning and early struggles of the church, after which S. E. Miller in a few well chosen words presented her 45 choice roses in token of her 45 years of continuous service as a member of the official board.

ROCK TAKEN FROM BODY

KLAMATH FALLS, Or., July 21.—Twenty pounds of rock were removed from the body of Bert G. Day of Klamath Falls as the result of an operation performed at a local hospital today.

Day was terribly injured last week in a dynamite explosion on the Ashland-Klamath highway, when his companion Glen Nyhart was killed. Day had never lost consciousness since the accident took place, but his condition is still precarious.

YAQUINA ROCK BLASTED

NEWPORT, Or., July 21.—Fred Berock, submarine diver, touched off a blast at the entrance of Yaquina harbor today. The blast was very successful, tearing away a large portion of the big rock that is to be taken out of the channel.

Owing to the rough seas and undertow the diver was not able to set off the second blast. At low tide tomorrow the diver again will make an effort to tear down the harbor obstruction that has been a menace to shipping for many years. Berock was with the United States navy through the war.

SURVEY IS COMPLETED

BEND, Or., July 21.—John Scott, engineer in the employ of the state highway commission, today completed the survey of a new location for the Dalles-California highway south of Bend from Lava butte to Paulina bridge.

The new location was made on instructions from the commission in consideration of the possible construction of the fall reservoir for the Jefferson equity water conservancy district, better known as the north unit, and is beyond the line of flow should the reservoir be built.

Mr. Gram refused to grant the license on the grounds that in case of participating the law provides that each member of the firm shall submit an application for a permit, post a bond and comply with other requirements under the Oregon statutes. The Star employment agency contends that the labor commissioner exceeded his authority when he refused to grant the license.

Coast Football Season Will Open October 20

SAN FRANCISCO, Cal., July 21.—Six Pacific Coast Conference teams will open the 1923 football season on October 20, when the Oregon Agricultural College meets the University of California at Berkeley, the University of Washington tries to dust off the gridiron with the Southern California Trojans at Seattle, and the University of Idaho and Washington State College "settle" some old scores at Pullman.
