WHEAT GROWING RECORD BROKEN

(By the Associated Press)

DAVIS, Calif., July 23.—All previous official American wheat growing records were broken this season by the College of Agriculture of the University of California here when a field of Onas wheat produced at the rate of 110.4 bushels of threshed grain per acre, according to Professor G. W. Hendry, agronomist of the college. This is equivalent to 47.6 bags or 6,624 pounds to the acre.

The highest previous experiment station record was 102 bushels per acre made by Turkey wheat under irrigation at Fort Collins, Colo., in 1918, Professor Hendry said.

In announcing this extraordinary crop, Professor Hendry said that it was the product of systematic breeding, seed selection, seed treatment, approved dry farm practices, and a deliberate attempt to make a naturally fertile soil produce to the limit of its capacity. The season was favorable, but no fertilization or irrigation was practiced. The crop, which is of high milling quality, is to be widely distributed for seed.

Flexible Tariff an Aid To Gamblers, Say Bankers

WASHINGTON, July 23.—The flexible provisions of the Tariff Law have been denounced by the newly organized American Bankers' League, representing 9000 bankers, as "giving to speculators and gamblers the same consideration as those engaged in legitimate enterprises in proposed rate changes." In a formal protest to the Tariff Commission, Charles B. Claiborne, president of the league, declared that American bankers with investments in domestic industries regard a danger the the the the the danger to trade and as injecting an element of uncertainty into the whole industrial world.

"The flexible provisions of the tariff act cloud the title to every schedule," he asserted. "They operate as a free-trade rider to the Fordney-McCumber law and inject uncertainty into values and fear into trade and become an able ally to foreign interests and a foe to home industries. It should be repealed."

Mr. Claiborne declared that American bankers are marking time in their dealings with business interests because of the uncertainty surrounding the tariff situation. He called for a "clear statement" from the Tariff Commission as to its procedure under the flexible tariff provisions. Bankers, he said, demand to know what constitutes a basis for re-opening tariff schedules, what constitutes a "legitimate complaint" and who is eligible to ask for investigations by the commission.

The Bankers' League, Mr. Claiborne informed the Tariff Commission, will be present at all hearings to oppose reduction of rates affecting productive industries. Certain "selfish interests," it was charged, are behind many of the applications for reduction received by the commission, and are being given the same consideration as those engaged in "legitimate enterprises."

The statement laid before the commission declares:

We submit that a governmental agency gives to speculators and gamblers the same consideration as those engaged in legitimate enterprises and they have no rights that the Tariff Commission should respect. Neither should the Tariff Commission lend its influence and spend the taxpayers' money on application and in the interest of those who desire, for personal gain, to build up foreign industry. The free traders and those who seek personal profit by having the Tariff Commission find the Fordney-McCumber measure inadequate should receive small consideration at your hands."

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he can not be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars.—Adv.

A Splendid Medicine for the Stomach and Liver.

"Chamberlain's Tablets for the stomach and liver are splendid. I never tire of telling my friends and neighbors of their qualities," writes Mrs. William Vollmer, Eastwood, N. Y. When bilious, constipated or troubled with indigestion, give them a trial. They will do you good—Adv.
