Mrs. Myrtle Owsley returned to her home in Huntington this morning after spending several days visiting with her daughter in this city. Mrs. Ed. Miller and daughters Alveda and Bethine and son motored to

UNION SOCIAL NEWS BUDGET

UNION, July 25.—Ed Boyton and Beecher Shale were La Grande visitors in Union Friday evening. Luncheon is on the ground and work has begun on the new residence to be built just north of the Union hotel. Tom Cook, who owns this property, will occupy the new residence when it is finished. Mrs. Wanda Law was up from Portland last week visiting with relatives and friends in La Grande and Union. Mrs. Law will be revealed as Miss Wanda Kinnison, who formerly lived in La Grande. Catherine Creek is the Mecca for fishermen this season, both for trout and for salmon, judging by the number of cars which pass through Union on their way upstream. Even a band of Umatilla Indians were camped along the stream banks and fishing for salmon. Observe Utah Day Utah day will be celebrated at the J. A. Koffard ranch next Tuesday with an all day program which will include a picnic, picnic dinner, and various games and contests during the day. A dance in the evening will wind up the day's events. Mrs. Carrie Sinte, who in company with her husband, Beecher Sinte, motored up from Bend, attended the Women of Woodcraft state convention held here Friday and Saturday, being one of the state officers. Mrs. Sinte was formerly Miss Carrie Low and made her home in La Grande

when she was married, later the couple going to Bend, where Mr. Sinte is running a butcher shop. Mr. and Mrs. Quinn will motor to Idaho Monday and expect to return Wednesday. Their daughter, Marian, who has been visiting in Meridian and other places will make the return trip with her parents. Cherry Packers Struck One of the big events in connection with the cherry harvest occurred just west of the packing house. About 250 packers were engaged in packing the fruit. Union is not in the same class with these in quantity of cherries and just as the slack time came in the packing work and the foreman was deciding to lay off part of his force, about fifteen of the packers struck for higher rates. The remaining packers easily handled the fruit which was arriving at the plant and the foreman said he was glad the unpleasant duty of laying off part of his force of workers. Several auto loads of fans from Union attended the ball game at Cove Sunday afternoon. The new cottage which was built at the state fish hatchery for Superintendent R. H. Bonney is about completed and the family are now moving into their more commodious quarters. For the last three years they have been living in three rooms and are much elated because the state has seen fit to erect a modern home for them. Mrs. Patrick Sullivan was hostess to the Ladies' After Society at the home of Miss Eva Wilson last Wednesday afternoon. A business session was followed by lunch. Miss Eunice Gates is home for the summer from Pullman, Washington, where she has been attending the university. Miss Gates arrived in Union about Wednesday. Mrs. Belle Miller is here from Portland visiting with her son, Lester Miller. The visitors' register at the state fish hatchery shows that this is an attraction which interests many people from various parts of the country during the season. Most of the states are represented in the list of names on the book. Probably the most distant point from which people hail who come to see the fish in London, England, a party from across the Atlantic having paid the hatchery a visit one day last week. Ahead of Schedule ABOARD TRANSPORT HENDERSON, July 25.—President Harding and his party are ahead of their schedule today. A stop is to be made at Clatsop, River, B. C., where the President will try his luck fishing for king salmon. They are due at Vancouver tomorrow.

Nervous? If Coffee disagrees Drink Postum There's a Reason

Office Cat TRADE MARK BY JUNIUS Cheer Up If you intend to be happy—don't be foolish enough to wait for a cause. Early evening drowsiness noticeable among elderly people of 25 or thereabouts these warm nights is probably due to the change from coffee to tea for the evening meal. Correct this sentence: "Thank you no," said the small boy; "they are rather green and I am afraid green apples wouldn't be good for me." Two Weeks With Pay. When does a vacation begin? When you start to plan it. When does a vacation end? When you start to take it. By whom were vacations invented? Some poor devil who could never afford to take one. Where is the loveliest scenery? In the little free booklet published by the Chamber of Commerce. Where is the wonderful fishing? In the little free booklet prepared by the railroad. Where is the glorious climate? In the little free booklet issued by the steamship company. What is a private bath? One which not more than twenty persons are supposed to use. How can you tell poison ivy from the harmless kind? Give it

time if it poisons you, it's poison. Who enjoys (1) a picnic lunch in the woods, and who enjoys (2) those who participate in it? (1) Ants. (2) Chiggers. What kind of cows does one encounter in the country? Stray and curious. Do they give milk? Not to anybody from the city. How long is a mosquito? From one to skating inches. What is mosquito netting? The bridal veil of New Jersey. What is its purpose? To advertise the victim. What does the average vacation cost? Twice as much as it is worth. What is it worth? Half the value of a Chinese coin which has been run over by a street car and dropped down a manhole. What wonderful winters you could arrange if you had charge of this weather and could save up a few of these days for next February. HERE'S TO THE CHIGGER THAT GROWS NO BIGGER THAN THE SMALLEST POINT OF A PIN, BUT THE BUMP HE RAISES, PITCHES LIKE BLAZES AND THAT'S WHERE THE TUB COMES IN. WAILS AMONG TASH RACK FROM A PINCH. In the choice of ice men, you might as well patronize the one who gives the biggest chunk, they all set the ice down on the floor while they open the refrigerator door anyway. Behold the weed! It talketh not, neither doth it spin; it getteth not love, nor food, nor drink, yet it groweth and cometh to grow in spite of sun and hoe and cursing. Great and mighty is weed! "A man can buy a home, make many improvements, pay taxes and all sorts of things, and in the BITES-STINGS Apply wet baking soda or household ammonia, followed by VICKS VAPORUB Over 17 Million Jars Used Yearly

Clay Did This A white, refined super-clay By Edna Wallace Hopper My complexion in the early of youth, the desired results. Modern science, less young girls, and the marvel of millions of women. For I, remember, have been 22 years a stage star, and am still, like a grandmother's age. Yet my skin is just as soft and rosy, just as smooth and glowing, as 40 years ago. Scores of my friends, on the stage and in society, have attained the results in my way. So I know that now women can do it, and I am going to help them. A new type clay You read much now about complexion clays. But those I see are crude and muddy, like spit years ago. A French beauty expert first told me about clays. Then few women used them, so some of those women became the marvels of nations for their wonderful complexions. Now countless women use them. Clay is recognized as a prime essential of beauty at the best. Women who can't stay cannot hope to compare with women who employ it. My exceptional results come from a new-type clay, perfected by 20 years of scientific study. It is white, refined and dainty. And able experts have found ways to give it manifold effects. Where it excels It is found that only rare clays—certain mineral-laden clays—bring

MONUMENTS Gen. Carr's Memorial, Troy, N.Y. ORDER THAT MONUMENT NOW We have made a profound study of monument building, and an order placed in our hands is sure to receive faithful, intelligent execution. We Will Gladly Furnish Estimates Blue Mountain Marble Granite Company 1502 S. Ave., La Grande, Oregon

eyes of the law the property is his," says a La Grander. "And then an outlaw lumberjack can keep him out of his yard. It isn't right; there ought to be a law." It looks as though the International picture of the immediate future will be done in oils. Ford says he is not in the race. But An Observer Want Ad will sell it.

SOHMER Cupid Grand THE first successful small Grand was a Sohmer, built 39 years ago, by Hugo Sohmer. The Sohmer Cupid Grand of today is the logical development of this pioneer idea. It is the supreme Sohmer achievement; the practical demonstration of the capacity of the Sohmer genius to produce a Grand five feet four inches long, and that has a greater volume and a finer quality of tone than has been achieved in any other diminutive Grand. An extremely convenient deferred payment plan makes purchase possible to everyone really desiring the best. Your piano taken in exchange. Catalog mailed on request. W. H. Bohnenkamp Co.
