Sherry's To-Day Only. Duncan Shows How Cowboys Like to Joke.

Cowboys are great practical jokesters and in "Playing It Wild" the new William Duncan and Edith Johnson picture which will be shown at the Sherry theatre today only, a typical joke of the kind the cowpunchers enjoy is played by Duncan.

Duncan plays a carefree, young cowpuncher and the son of the boss of the ranch where he is riding is dressed and ready for his wedding. Duncan loiters at the corral with the other men but in easy sight of the house, where the young bridegroom-to-be is waiting, Duncan is showing off how well he can do a broad jump and boasting about it and the young owner goes to his and tells Duncan he can beat him. Duncan jumps; the young owner does beat him by two feet, but he splashes down into a waterhole which Duncan can had cleverly screened with hay! It costs Duncan his job in the story, but it's a big laugh. Also showing A Comedy.

Sherry's Sun. & Mon. Co-Stars For First Time.

Co-starring for the first time in their career, Bebe Daniels and Antonio Moreno appear in the principal roles of the Paramount production of "The Exciters," coming to the Sherry theatre. This is a splendid picturization of a successful play by Martin Brown, adapted to the screen by John Colton and Sonya Levien and directed by Maurice Campbell.

Speaking of speed, one would believe that even the modern miss would, at least for awhile, be satisfied with but one means of excitement. But not so with Miss Daniels in the role of Ronnie Rand in this picture. Ronnie is a real speed girl in every sense of the word. Morning finds her out for a spin in her power launch, and with the afternoon comes a series of thrills in the air. The close of the day means to Ronnie a delightful trip in one of her motors with the anticipation of a series of similar exploits on the following day. Pleasure is all that this girl has to think of. She has not a care in the world—that is, not from the girl's family a goodly sum of money for an annulment of their marriage. The climax of this peculiar and interesting picture—clay, stamps "The Exciters" as a picture almost alone in its class. The supporting company is wondrously adequate. Also showing a Comedy.

GEORGES RAISE BIG OBJECTION

This Idea of Calling Every Porter "George" Grows Irrksome.

(By I. N. S.) CLINTON, La. Aug. 11.—If your name is George, you don't like the way that appellation has been bandied about since the illustrious St. George went out and did his stuff among the dread dragons of old-time Britain, just tell your grievances to Geo. W. Dulaney.

Mr. Dulaney—or we'll call him "George"—because he likes it—George little fancied even years ago, when he started his movement for the prevention of calling porters "George," that it would reach such

huge proportions. Now members of the society claim it has a membership of more than 10,000 and among these are many whose patronymics are not to be listed with.

It's a national movement, according to George—George Dulaney, we mean—and growing bigger day by day. George Coburn, George Ade, and other Georges were original sponsors for the movement, whose sponsors now include King George V of Great Britain, according to George—George Dulaney, we mean. General George Goethals is honorary vice-president; George T. Dexter is honorary treasurer (and there's a catch in that it we may believe George—George Dulaney, we mean); and George Ade is post laureate.

One of the compelling reasons for joining the society is that there are no dues to pay. All Georges are eligible and any member may select a new George by administering the oath of allegiance. It is reported that officers have been made to George Bernard Shaw and (Colonel) George Harvey.

But who does the secretarial work you ask. Who knows? "Let Georges do it."

America Should Have Tax-Free Rubber

Tires and economy in motor transportation are so intimately related that safeguarding the future of our rubber supply becomes a subject of vital national importance. Forward-looking American tire manufacturers—the world's largest consumers of rubber—are already preparing to meet the situation, and in due time an ample supply of raw rubber will undoubtedly be available in districts free from burdensome taxes and restrictions. Supplementing the commendable efforts now being put forth to provide the United States with tax-free rubber, the Pennsylvania Rubber Company of America, Inc., has already engaged a staff of experts for research in countries throughout the world where conditions may favor the growth of this indispensable commodity.
