THEATRES

Sherry's Last Day
Daughters of the Rich One of Year's Best.

Famous Saltus Novel Is Everything That Constitutes Perfect Film.

Lavishly produced and sympathetically directed, "Daughters of the Rich," realized every promise held out by its title.

Gasnier's screen version of the first of Edgar Saltus' stories to be filmed surely will create a demand for more of that author's works. For it forcefully tells a melodramatic story in so convincing a manner as to keep the most blase theatre-goer catching his breath and wondering what will happen next.

Like the two Al Lichtman attractions of which it is a sequel—"Rich Men's Wives" and "Poor Men's Wives," this picture has been staged with a cast that represents much thought and a true appreciation of the requirements of the parts.

Gaston Glass, who scored such a hit in "The Hero," again has a tremendously heroic role to which he does full justice. Ruth Clifford, who gowns herself so lavishly and is so attractive a personality that she might be forgiven for indifferent characterization, does herself proud in the trying part of "Sally Kandy"—the daughter of the rich man about whom the story revolves.

Ethel Shannan, the widely heralded discovery of B. P. Schulberg, will have a difficult time living up to the work she has done in this, her first picture under her new contract. Miriam Cooper is, as always, sweetly appealing and convincing. Truly Shattuck, whom we all know through her vaudeville success, wins new laurels as the title seeking mother. Vola Vale is her own sweet self.

Stuart Holmes deserves a paragraph all to himself. The man we have followed through reels of intriguing villainy in the past has emerged into a fascinatingly human bit of characterization that threw an entirely new and interesting light upon him.

"Daughters of the Rich" is a fitting sequel to its highly successful predecessors of the screen. The highest praise that may be paid to a picture may be applied to it and summed up in these words:

Its is great entertainment.

Also showing a "Fighting Blood" picture.

Escape In Log Flume Through Forest Fire.

Ever ride down a timber flume? To drift along, high up among the mountain tree tops, on a log that offers rather insecure footing, is an exciting experience. But to try the same stunt with the trestle work of the flume on fire and all the tree tops dropping red hot sparks and Marguerite de la Motte, who tried it during the filming of "Scars of Jealousy," Thomas H. Ince's latest production, bear witness that the experience is too thrilling for repetition.

To get one of the scenes that comes at the climax of this drama of strage hill people of Northern Alabama, a timber flume was constructed by Ince technicians in a thickly wooded tract of the high Sierras in Northern California. With the assistance of some lumber jacks who had been clearing out a section of a forest reserve for the government, the flume was built so that it not only would float logs but also would be safe for the use of Lloyd Hughes and Marguerite de la Motte, who, in the story, make a spectacular escape from a fire trap by floating down such a flume.

When the flume was completed Director Lambert Hillyer insisted on trying it out before he would allow the actors in his company to do the stunt. Using his assistant, Steve Roberts, as a double, Hillyer climbed up the flume, clasped Roberts tenderly in his arms, and dropped down on a log as it was floated past him.

The log promptly turned turtle. So did Hillyer. Roberts, when he came to, was gasping for breath in the river below where Hillyer had dropped him. Three times Hillyer tried to show his stars just how the scene should be done, and each time he dropped Roberts into the river below. The forth time proved successful, and Hughes and Miss de la Motte took the places of the director and his assistant.

The underbrush near the flume was fired before the cameras started grinding, and by the time the log-riders had neared the end of the flume the trestle was blazing and all the trees crackling and snapping with flame. Hughes, throwing Miss de la Motte into the river below, literally leaped for his life, and the cameras caught one of the best "thrillers" ever filmed.

"Scars of Jealousy" will be shown at the Star theatre Thursday and Friday.

Twisted Cords

Running through the telephone cord are a number of delicate, flexible wires.

"Kinks" are formed when this cord is allowed to become twisted, and some of these wires may be bent or broken.

This means a "noisy" telephone line. You cannot hear or be heard as well. In fact, a twisted cord may cause a complete interruption of your service.

Keeping the telephone cord straight will give you greater satisfaction in the use of your telephone.
