Many Speedy 3rd Basemen Amid Majors

(By I. N. S.)
NEW YORK, Aug. 16.—Not within the last ten years have the major leagues been crowded so thickly with accomplished third basemen as are at present lining up promptly at the pay window on the first and the fifteenth of the month. Nearly every club has what it considers the logical candidate for the highest rating, and arguments have been both plentiful and heated as to the respective capabilities of the men in question.

New York considers that it has the kingpin of the lot in Joe Dugan, of the Yankees. They are likening Joe to Jimmy Collins, Bill Brudley and Arthur Devlin, as the offenses flow from facile type-writers. Pittsburgh has another story, however.

They are all for "Pie" Traynor in the City of Smoke and insist that the young man is not only the best of the field right now, but will have them all licked to a whither within a couple of years. Traynor has the advantage over Dugan and others in that he will outlast most of them from fifty to one hundred points.

Chicago, on the other hand, continues to shout sweet nothings about Willie Kamm, the expensive bushy, who made good. Kamm has proved his ability beyond question, but many rate him below Dugan and Traynor.

The National League, however, has a few more candidates to offer among others, Pinell, of the Reds, and Frob, of the Giants, to say nothing of Stock, of the Cardinals, and Baekle, of the Braves, both of whom are above the average in ability.

The list can be further augmented by adding Bobby Jones, of the Tigers and Buege, of the Senators, the latter being regarded as a rising young man down in Washington. Larkie, of the Indians, also gives evidence of a latent ability that will carry him up among the topnotchers.

All in all, only the Red Sox and the Browns in the American League, and the Dodgers, Phils and Cubs, in the National, lack third basemen who can be said to measure up to the major league standard in every particular.

Mike McTigue to Meet Gene Tunney

NEW YORK (AP)—Mike McTigue, world's light heavyweight champion, who won the title from Battling Siki in Dublin last spring, will meet Gene Tunney, American champion, on September 25, at the Polo Grounds, according to Joe Jacobs, the champion's manager.

Sport Writer Sees Soldiers As Ring Stars

Garcia and Burnbrook Are Named by Turbyville, Baltimore Scribe, as Comers.

(By Davis J. Walsh, International News Service Sports Editor.)

MANILA, Aug. 16.—Seven provinces in the Philippines are vying with each other in the construction of provincial hospitals, which are now sadly lacking in the islands. The province of Tarlac expects to finish its institution first. The movement was initiated by General Wood.

NEW YORK, Aug. 16.—The Army—that noble institution in which men are reduced to "canned Willie" and thirty a month—gave Gene Tunney, Bob Martin, Captain Bob Hooper and according to Fred Turbyville, Baltimore sport writer and critic of boxers, are Bob Garcia, featherweight, and Eddie Burnbrook, welterweight.

Both are products of the Third Corps Area. Both are coming champions, no less. How do we know? Turbyville, he says so.

The same source of information is authority for the statement that Burnbrook "is never out at night." The only gentlemen of our acquaintance who are never out at night are bartenders, convicts and hospital patients. Burnbrook, it seems is not to be confounded with any of these classes, particularly the latter. He is sports that he cannot say the same thing for his opponent.

However, permit Mr. Turbyville to do the talking. In his terse, sarcastic way, he puts the matter before you so closely that it smites you right on the eyebrows.

"Garcia," says Fred, beginning at the beginning, "is a Mexican Indian, nineteen years old, and fights at 125 pounds.

"A sure shot, I believe, for a featherweight championship fight within this year.

"Never been beaten. Only on floor once and that was when hit in the groin by Kid Williams. The Kid, badly beaten, fouled repeatedly and was disqualified in the ninth round. Garcia showed everything that night.

"Two years ago he won the featherweight title of the Third Corps Area. He has ruled supreme since. He's recognized as the Army featherweight champion now.

"Jim Corbett's column carried a story about him the other day. He's the fastest man I've ever seen in his ring. He's not a deadly puncher, but hits so often, and hard enough, to wear down the average opponent. You'll hear a lot of Garcia in the next few months.

"Burnbrook a comer.

"Two years ago Eddie Burnbrook won the Third Corps Area boxing championship at Baltimore and won the middleweight title. He weighed about 152 pounds. No one had trained him for the fracas and he didn't know he could make the welterweight class.

"A year later, after Captain Charles J. Mahoney had taken an interest in him, he was brought down to the class he belongs in and easily won the welterweight title. He won again this winter.

"He is now in the professional ranks and has been beaten but once, that in his first fight with Young Mahoney, more than two years back. He was outpointed.

"Never been knocked down and doesn't intend to be. Has a deadly right hand punch. Knocked out Johnny Volgan in less than a minute of a bout here during winter. Volgan was an hour coming to. Only hit one blow. The blow that he also was clever Burnbrook more than held his own with the veteran Phil Bloom, who has met them all.

"Around Baltimore they think Burnbrook is a sure shot for the title. He's a clean living chap and is never out at night. He starred on the famous Third Corps football team a year ago. He plays baseball and basketball well.

"Burnbrook is ready to meet Walker now."

Frankie Darren and Abie Miskind Fight 15-Round Draw.

LOGAN, Utah (AP)—Frankie Darren of Logan and Abie Miskind of Salt Lake fought 15 rounds to a draw in a slow bout here Tuesday night. Both boxers finished in good shape, showing no marks as a result of the fight.

German Upheaval and Imperialist Restoration Is Seen by Ex-Official

(By I. N. S.)
PHILADELPHIA, Pa., Aug. 16.—"Watch out for a great upheaval in Germany shortly" is the warning of Dr. Arthur Sonnenberg, former health commissioner of the city of Kiel, in that country, now visiting here.

"Conditions recently have developed to a point where conflict is inevitable," Dr. Sonnenberg said. "Barbarism is in the hands of the monarchists. Thuringia is controlled by Communist-Saxony by pluralist Socialists and Prussia by pluralist Socialists. Out of these opposing elements trouble is bound to come.

"The 'Safety Police' are powerless to control the demonstrations of the factions. The Socialists possess arms and carry on military training in defiance of the Republican government.

"The depreciation of the mark has wrought incalculable damage to the morale of the country. The only thing that solidifies sentiment of the nation at large is resentment against the French invasion of the Ruhr and the executions and imprisonment of Germans resulting from that.

"Personally I look for a restoration of the monarchy, but not before half a century has elapsed. It is unthinkable that the former Kaiser should ever regain the throne. His second marriage has destroyed his chances.

"The Crown Prince, however, might possibly succeed in restoring the monarchial regime if extraordinary circumstances favored such a move, but it is unlikely. Recently he has somewhat gained in popular opinion by the manner in which he has taken his exile.

"A restoration, if it does come, will be through the co-operation of the Austrian Germans, who will join in an attempt to create a greater Germany that shall have for its eastern boundaries Russia, Hungary and the Balkan countries. Such a new Germany will gladly take up her share of the world's labor. In the Peace Palace at the Hague, who look to the future see a symbol, gleaming through the clouds of present-day conditions."

DANCING SWINGS BACK TOWARD DECENCY

(By Associated Press)
LOS ANGELES, Aug. 16.—Wriggling, squirmy, jazzy dancing is losing its popularity in nearly every part of the United States, and modesty, propriety and reserve are coming back in the dance halls, according to Fenton Bott, national director of dance reform, who attended the summer session of the normal school of American National Association of Dancing Masters here.

AUSTRALIA CUTS CHILD MORTALITY

(By I. N. S.)
NEW YORK, Aug. 16.—The system of child welfare work which is regarded by health authorities as the chief factor in reducing the infant mortality rate of New Zealand below that of any other country in the world has now been introduced in Australia, where a similarly receptive improvement in health conditions for the childhood are anticipated as a result of the innovation.

Of the results already achieved by this step in Australia, the general secretary of the Australian Royal Society for Mothers and Babies has written as follows in a letter to Dr. J. Emmett Holt, physician-in-chief of the New York Babies' Hospital and first vice-president of the American Child Health Association, a national organization working for the improvement of methods of child health

care throughout the United States: "Fifteen years ago the death rate among children under one year was the same for both Australia and New Zealand—about 50 per 1,000. By 1921 the death rate in New Zealand had fallen to 47 per 1,000, while the Australian rate stood at 59 per 1,000. In New South Wales (which has adopted the system introduced by Lady Plunkett in New Zealand) our rate is now very little behind that of New Zealand. Our latest statistics show that since 1904, when the infantile death rate was 104.7 per 1,000, we have reduced it until it stands at 54 for 1922. Therefore, in New South Wales we now have only seven more deaths of children under one year of age per thousand than they have in New Zealand.

"The decline in the infant mortality rate in New South Wales has been very rapid since the introduction of the baby clinics in 1914. These and the provision of similar agencies, such as our welfare centers and train-

ing school for nurses—where the Plunkett system in vogue in New Zealand is being taught—have materially assisted in bringing about this most desirable decline."

Loading is just a slow and tiresome business of fighting another cigarette.

LUCKY STRIKE
"IT'S TOASTED"

FOR SALE

A choice home on "B" street on the brow of the hill in Old Town, overlooking the city and valley, consisting of a modern house, 7 acres of land, a small lake, fruit trees, berries, shrubbery, shade trees, lawn, garden and pasture—an ideal place for one who desires to keep a cow, chickens, ducks, etc. and the price is only \$6500, and a payment of half cash will handle it; balance terms to suit the purchaser. Come in and let us show you a real bargain.

Drugs Excite the Kidneys, Drink Water

Take Salts at First Sign of Bladder Irritation or Backache

The American men and women must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate clogged kidneys, to neutralize the acids in the system so they no longer are a source of irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive; can not injure, makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time. If all means have your physician examine your kidneys at least twice a year.
