Many Dairymen Expected To Attend Pacific Show

Many dairymen and others active in dairy products from states throughout the country are expected to attend the 1923 Pacific Slope Dairy Show to be held at Oakland, October 29 to November 2, inclusive.

The exhibit at Oakland will follow the National Dairy Show at Syracuse, N. Y., and will be staged just prior to the Pacific International Livestock Show at Portland, Ore. A number of delegates will participate in the three attractions, according to reports received by Southern Pacific officials.

The Pacific slope exhibit will be held in the civic auditorium of Oakland, facing Lake Merritt. Arrangements are being made for more than two exhibits of dairy products, dairy machinery and of educational agencies, as well as county displays.

He Proposes a Children's Memorial to His Friend.

William Chester McDonald has spent five of his 11 years strapped in bed. A year ago President Harding gave him an untroubled photograph and a message of cheer. Today Billy proposes that the children of the country contribute their pennies to build a Children's Building as a memorial to his lamented friend at the semi-annual celebration at Philadelphia. Here he is explaining his plan to Mrs. Winifred Stoner, donor at his hospital-home in Atlantic City. Mrs. Stoner started the fund with \$1000.

WHEAT ACREAGE WILL BE LOWER

Reports from Farmers Indicates 15.5 Decrease in the acreage to be Sown in Wheat.

WASHINGTON, Aug. 16.—A reduction of 15.5 per cent, or 7,177,000 acres, in the acreage to be sown in winter wheat this fall, is indicated by 25,000 reports from farmers gathered by the department of agriculture.

If the reduction of 15.5 per cent actually is made this year in the sown acreage from last year, it would make a total sown acreage of about 39,290,000 acres, compared with 46,379,000 acres actually sown last fall, of which 39,756,000 acres were harvested and the rest abandoned.

Reports on rye acreage indicate a reduction of 9 per cent. The acreage sown last fall is estimated at 5,234,000 and the reduction indicated would leave a total acreage to be sown this autumn of 4,759,000. The previous (1909-1913) annual acreage sown was 2,562,000.

The intended sowing of winter wheat this fall in the important producing states, given in percentage of acres sown last fall, follows:

Pennsylvania, 98 per cent; Ohio, 96; Michigan, 96; Indiana, 83; Illinois, 80; Missouri, 75; Nebraska, 75; Kansas, 80; Texas, 82; Oklahoma, 78; Colorado, 90; Washington, 105; all other states, 92.

Two Fatal Accidents in Idaho. IDAHO FALLS, Idaho, Aug. 14.—Two fatal accidents are reported from the St. Anthony country over the week-end. Cecil Broover, 16, fell from a wagon, alighting upon a bolt, which penetrated his back, resulting in death.

The 11-year-old son of Mr. and Mrs. Brown of Sand Creek was smothered to death when a sand pile in which he was playing caved in on him. Two younger brothers attempted to dig him out, but failed to reach the body in time.

TO UNBOTTLE RICH REGION

Natron Cut-Off of Southern Pacific Railway to Open Up New Possibilities in Southern Oregon.

PORTLAND, Ore., Aug. 16. (A. P.)—Unbottling of a rich region of Southern Oregon is to be made possible through the Natron cut-off of the Southern Pacific railway construction

of which has been ordered to proceed following the decision of the government to drop the litigation over the Southern Pacific control of the Central Pacific.

This gap of about 120 miles between Oakridge on the north to Kirk on the south, will complete the line between Klamath Falls and the Southern Pacific's main line south of Eugene.

Southern Pacific officials plan to extend the roadhead northerly from Kirk with as much speed as possible toward the summit of the Cascade

range where tunnelling will be necessary. Klamath Falls being the outfitting point for the work on the cut-off from the southern end will be the scene of much activity.

From the northern end the supplies and equipment will be forwarded through Eugene and Springfield.

President Sprague, of the Southern Pacific, has announced that the engineering department is preparing plans for contractors to submit bids for the construction work, and at the same time the necessary permission is being sought for traversing Indian lands which line along the route of the cut-off.

Besides affording an outlet for the rich region of Oregon lying around Klamath Falls the cut-off, it is said, will add to the scenic wealth of Oregon by making some of the most beautiful mountain regions of the state accessible.

LUTHERANS TO RALLY AT PARK

Lutheran Rally to Be at Riverside Park Sunday, August 19, Is Announcement.

You and your friends are cordially invited to attend the Lutheran Rally next Sunday at Riverside Park. There will be a short service at 11 a. m. with plenty of singing after which a joint dinner will be served by the ladies. Each family is requested to bring lunch enough for themselves. A long table will be set up in the pavilion in accordance with the good old country fashion where all may eat at once.

The Ladies Aid of the Zion English Lutheran Church will furnish coffee and cream. The Sunday School under whose auspices the rally is conducted will provide Ice Cream.

Now my good Lutheran people, take time to spend a profitable as well as an enjoyable day. Let that day be Sunday August 19, 1923.

In anticipation of meeting the majority of the Lutherans in Union, Baker and Wallowa counties, I remain yours for the Lutheran Church truly devoted.

RAILROAD MAP OF OREGON IS CHANGED TODAY

PORTLAND, Ore., Aug. 16. (A. P.)—The railway map of Oregon undergoes a slight change today through the elimination of that stretch of the Oregon Trunk line of the Spokane Portland & Seattle railway, between North Junction and Metolius, Ore. Thirty miles of the line will be abandoned, eliminating the towns of Coleman, Mecca, Vanora and Pelton. The Oregon Trunk line and the Oregon-Washington & Navigation company will jointly operate over the latter's tracks between South Junction and Metolius, a more direct route than the line which is being abandoned. Tracks of the abandoned line are to be torn up, it has been announced. Madras becomes a joint division point under the new arrangement. Of the approximately hundred and fifty miles between the Columbia river and Bond about half is now operated jointly by the two roads.

The Dowser Who Flivvered!

Mysteriously guided by the behavior of a willow wand, sometimes a "dowser"—the water-wizard—tells where to dig a well which really yields water. Then much ado is made over the feat. But who ever hears similar noise about the dry holes, dug when the dowser flivvered?

Now and then, possibly, it happens that people buy wisely without heed to advertisements. But the chances are against any one having such luck!

It does not "just happen" that advertised values are invariably genuine buying opportunities. They must be, because they are openly offered to every one who reads about them.

Advertised value must be true value. Else it could not keep on being advertised to a public so keen and critical as this public of ours.

READ THE ADVERTISEMENTS TO BE RID OF GUESSWORK!

Heads Up!

HE was one of our savings customers. He strode along with his head up, his chest out, a light in his eyes. He was alive with confidence. His deposits had just passed \$1000. A thousand all his! No wonder he was confident. You can do the same. Five dollars a week will bring it in less than 4 years. Start now and stick to it. The first thousand in 3 years and 6 months.

The Straight Lines of the New Modes Are Gracefully Achieved By Wearing 'La Camille'

Never have the styles called so insistently for lines that are straight and slender. "La Camille" works wonders in gently persuading surplus flesh into fashion's silhouette—makes your gown a smooth-fitting success. You'll love the new models of "La Camille"—giving you the lines and buoyancy of youth. Low-topped and of dainty fabrication—lightly boned—but visible only in their benefits. Be fitted to your individual model of "La Camille" and enjoy a youthful figure and a flexible ease that is delightful. A complete line of the latest models always on hand.
