CRISIS PASSED IN GERMANY

CRISIS ENDS; FOUR PARTY RULE REVIVED

Germany Resting Easier Today with Parliamentary Crisis Over the Top.

STRESEMANN YIELDS TO THE PARTISANS

Leaders of Warring Factions Agree Revamping of Coalition One Way Out of Dilemma.

BERLIN (By the Associated Press).—A resolution of Chancellor Stresemann's defunct four-party coalition Friday night put an end to the parliamentary crisis, the mysterious origin of which is only exceeded in novelty by its baffling solution, in that agreed there had been no ground for disagreement three days ago and that a revamping of the coalition was the only way out of the dilemma.

Conservation of party prestige, emotions of public office and concern over political patronage all are declared to have played an unusual part in the inter-party truce which was preceded by a day of bartering and jockeying for position. The coalition leaders apparently preferred to risk their immediate political future by giving the four-party block another tryout at taking a chance of being eliminated from the nation's affairs through the advent of the dictatorship with which they were threatened.

Chancellor Yields.

Chancellor Stresemann succumbed to the partisan onslaught and completely jettisoned his earlier plan of defiance to the Reichstag by confronting it with a restricted minority of non-partisan experts, which would have been invested with extraordinary authority by virtue of dictatorial decree of President Ebert.

Predictions around the Reichstag accorded the reconstruction coalition a short preliminary existence. It is declared the present makeshift solution will have an inevitable sequel in the nature of a dictatorial regime without which it is now commonly Germany's chaotic economics is inconceivable.

Ebert is Strong Man.

While President Ebert acquiesced in Friday's patched up truce, those who profess to know his views believe the head of the republic now is the only man qualified to assume a drastic initiative and that he is destined to play a historic role in the not too distant future.

More evidence that the deal that has as its object the opening of the vast country of timber east of Union will become a concrete fact, is showing up daily.

They will be followed by several other gangs of cruisers and the work will be cranked as fast as possible, including all the timber that will go into the Rice

Elgin and Imbler Busy with Apple Crop; Union and Cove Are Working in Prune Orchards.

About this time of the year the fruit harvest is the one thing of paramount importance to residents of the Grande Ronde Valley, one of the best fruit producing counties in Oregon. Elgin and Imbler excel with their apples, Cove and Union forge to the front with prunes and other communities are harvesting both, although in smaller amounts.

From Elgin and Imbler, beyond doubt the apple picking means much work and a good brisk payroll for the next month or more. H. H. Weatherspoon in putting 50 pickers in his orchard. He expects to have between 60,000 and 75,000 boxes orchard run. Scott Harris is expecting to handle 20,000 boxes. "All available warehouse and packing space will be utilized and it will be necessary to ship out the fruit almost as it is packed in order to care for it. Terpany and Harris are putting up a new packing outfit in the Good-nought Mercantile Co. warehouse and expect to run their packers three shifts. Bates & Peasley are preparing to start in the East building and will also run their packers fast enough to keep up with the picking.

"Mr. Weatherspoon will have his own large warehouse to himself this year and will not have storage room enough in it to care for his crop.

"Down Imbler way the orchard men are getting under way and things are taking on good tone. The price situation, outside of damaged apples, (Continued on Page 5)

BOND ELECTION DUE WEDNESDAY

North Powder Citizens to Vote Upon Question of a Sinking Fund to Cover Indebtedness.

An election for voting for or against a sinking fund to cover the bonded indebtedness of the city of North Powder is to be held in that city next Wednesday, October 10. Judges and clerks have already been selected and polls will be open from two until five o'clock Wednesday afternoon. The bond issues to be met amount to \$7,500 and \$10,000.

According to the North Powder News there is little argument adverse to the issue. The newspaper states: "Every business man in town and all taxpayers who have voiced their opinions, declare for the creation of a sinking fund, and undoubtedly the people will vote an almost unanimous 'yes' on the question."

"Inasmuch as the money is needed for the purpose, and the opportunity of saving several thousand dollars a year is lost to the taxpayers, it would be unnatural and unusual for the same to be turned down. It is a gain of either paying off the debt by degrees, or paying it off in a lump sum with all penalties attached. By creating a sinking fund the money now deposited will earn interest and by the time the issues are due, will cut a great hole in the \$27,500 now owed by the city.

For Use by People. The resolution recommended to "forward-looking citizens in all states, the program of state conservation through the complete use and development and control of the waters of the state as submitted to California voters in the water and power act and for the service of the people at cost as opposed to corporation development and control of water resources for private profit."
