"Don Quickshot"
Wednesday:
Story Thrilling

"Don Quickshot" of the Rio starring Jack Hoxie which will be shown at the Rio Theatre Wednesday, in a typical western play of the cattle country drama along the Rio Grande.

The story involves adventures of a romantic cowboy who spends most of his nights reading "corvante" "Don Quickshot" and much of his spare time doing imaginative characterizations of the hero of the legend. When he is fired for his day dreaming, he immediately hits the trail south.

No picture could have been better adapted to Hoxie's unusual ability as a cowboy and his dramatic skill. Hoxie is far more than a "busher" cowboy who appears at some in full cowboy regalia. He is a veteran of the open range country of the days when cowboy life was real, when the great cattle industry of the west was at its height.

Although he has been in pictures for three years he has never strayed from the western range in which he began his career and in which he fits so well.

And "Don Quickshot" of the Rio Grande is a visualization of the old West. The story was adapted from a magazine story by Stephen Chalmers and directed by George B. Marshall.

"Orphans of the Storm"
Showing Last Day at Sherry's; Griffith Picture Full of Thrills

D. W. Griffith's "Orphans of the Storm," based on the well-known stage play, "The Two Orphans," and released through United Artists Corporation, continues as the media of popular interest at the Sherry Theatre where overflowing crowds daily express their delight by applause, laughter and tears. Among the crowds are not a few who saw this screen epic when the engagement first began, but come back to enjoy more of its beauties.

The canvas is so vast and the figures so numerous, colorful and interesting that the work improves on the second seeing. The gorgeous tapestry is most skillfully woven with the heart-stirring, the grotesque, the lovely and comic side by side in harmonious wealth of detail. It is in itself a masterpiece of the re-creation of that epoch, "Orphans of the Storm," enthusiasts to come again and again.

Always predominantly remains the picture of Henriette and Louise, the lovely bit of grace on the whole, and Dorothy Gish in those character, Joseph Schildkraut as Henriette's lover, and Monte Blue as Henriette's rescuer in the famous cavalry ride, continue their great hits.

New material in the wild Carpathian dances and new fooling by Crichton Hale and Foster Brown in the comic roles add lustre to the birth of the comic interludes.

Yankees Will Win, Rowland

"I Pick the Yankees to Beat the Giants in Six Games," Says Former White Sox Manager.

NEW YORK (AP)—"I pick the Yankees to beat the Giants in six games."

This predicted Clarence Rowland, manager of the world's champion White Sox in 1917, and now a member of the American League umpiring staff, on his arrival Monday to attend the world's series.

Billy Evans, one of the two American League arbiters, chosen to officiate in the series, declined to put himself on record on the outcome, but expressed his opinion that the Yankees' all-star pitching staff might be the deciding factor.

"The Giants were good enough to beat the Reds and I believe they can also take the Yankees into camp," said August Herrmann, president of the Cincinnati club.

Whitman and Oregon To Play October 19

Football fans of Eastern Oregon are much interested in the coming battle between the University of Oregon and Whitman college football teams, which will meet in Pendleton, at Round-top park on October 19th. Both teams seem to be of about equal caliber, and Coach Horlekke of Whitman college and Coach "Shy" Huntington of Oregon both concede that it will be one of the best games of the season. Last year Oregon was able to defeat the Missionaries by the narrow margin of 6 to 4, and this year the sons of Marcus Whitman are determined to even up scores.

Last year this game, which is the only collegiate game to be played in Eastern Oregon this season, attracted 5,000 people to Pendleton, and the crowd this year, with good roads and special travel fares, evidences of being by far the largest which ever witnessed a sporting event in this part of the country.

LUMBER MARKET STILL ACTIVE

The lumber market continues active, with fall needs running into substantial volume and asserting a strengthening influence on prices, especially in view of low stocks of popular woods. There is a heavy call for yard and shed items, says the American Lumberman, Chicago. Building is active in most cities. The large number of building permits taken out and other facts indicate not only that there will be great activity in the construction field as long as the weather remains open, but also a continuation of building throughout the winter for early spring delivery. Reports from agricultural sections indicate steady, though slow, improvement in country trade and lumbermen believe this month will bring out considerable business from this source. In districts remain busy, and are buying fairly well.

Orders for straight cars are more in evidence than for some time, showing that, though strict conservatism is still practiced, many dealers are at last rounding out their broken stocks. These orders indicate more often experience trouble in placing their orders, because of the unfavorable supply situation at many mills. Due to the difficulty in securing Douglas fir, which is in very strong position on account of the heavy cargo loads, much of the mid-western and eastern trade goes to southern pine. White pine at this wood has shown no notable advances recently, they hold strongly and manufacturers refuse to bid for orders.

Southern pine exporters state that demand and inquiries from Europe, the West Indies and South America are heavy and that prices on an export basis are advancing. Japan is reported to have begun buying for reconstruction purposes on the second coast, taking orders and sawn lumber in quantities.

Northern pine and hemlock are somewhat stronger, but other sections show no essential change. Cypress and redwood are firm, while western pine and North Carolina pine are still weak.

Continued expansion in demand for hardwoods is reported from all producing sections. There is a steady flow of orders from all leading consumers, who are buying frequently rather than in quantity. The hardwood market generally is working into a stronger position, and the price tendency is more markedly upward as the scarcity of dry stocks increases.

The hootch peddler isn't the only one punished twice for the same offense. There's the bigamist.

SPORT BRIEFS

Vandels Will Study on Football Trips

MOSCOW—There will be no interesting out on studies for the members of the Idaho football squad on trips if plans presented by Coach E. L. Matthews to a recent faculty meeting are carried out. Matthews has suggested that each department head give to the members of the team before leaving, regular lesson assignments, and then the Vandel instructor will personally supervise a daily study hour for the football men.

Expect 33,000 Persons To See Chicago Series

CHICAGO (AP)—Capacity crowds of 33,000 is assured for the opening game of the city series between the Cubs and White Sox, scheduled to start at the National league park Wednesday. The National leaguers, who won the classic last fall, are favored Monday by experts to win because of

FRUITRAISERS OF CALIFORNIA ASK RAIL CUTS

Eastern Consumers and Far Western Shippers Interested in November.

By Ellis H. Martin, International News Service Staff Correspondent.

SAN FRANCISCO.—Eastern consumers and California producers of fruit are alike interested in the proceedings brought by the California Growers and Shippers' Protective League against the transcontinental railroads for a reduction of rates. The case is to be heard next month by the Interstate Commerce Commission in San Francisco. Because of the importance to California interests the California Railroad Commission has petitioned for leave to intervene at a party to the case.

The action is directed against practically all rail carriers in the United States and names approximately 500 different carriers as defendants. It is alleged in the complaint that the transcontinental rates on fruits in effect are unjust, unreasonable and prejudicial.

Prior to the war increases the rate on deciduous fruits from all Pacific Coast shipping points to practically all destination points within the United States was \$1.15 per 100 pounds. The first order of the Director General of Railroads, effective June 25, 1918, increased the rate to \$1.44 per 100 pounds, and on August 26, 1920, in compliance with the order of the Interstate Commerce Commission, which followed the passage by Congress of the Transportation act, the rate was increased to \$1.92 per 100 pounds. Effective January 1, 1922, the rate was reduced to \$1.73 per 100 pounds, which rate is in effect at the present time to designated points in the extreme Eastern territory. There is at the same time in effect a rate of \$1.62 per 100 pounds to points in the Middle Western territory.

The fruit shippers are endeavoring to have the rate re-established on the basis of \$1.44 per 100 pounds, which rate is in effect practically the entire United States.

Some idea of the importance of the case to both producers and consumers can be gained by noting the tremendous increase in the number of carloads of deciduous fruits forwarded from California within the last several years. In the year 1913 12,222 cars were forwarded; in the year 1922 the total was 49,629, and it is estimated that for the year 1923 a total of approximately 60,000 cars will have been moved.

The Interstate Commerce Commission set the standard for hearing at San Francisco October 15, 1922. It is reported that the hearing will be held in the early morning and that the early setting would not permit of adequate time for proper investigation and the preparation of exhibits and have requested the Interstate Commerce Commission to reset the proceedings for hearing some time after November 15.

Claims Sugar Beet Record

FOUNT MORGAN, Colo. (AP)—John Lorey, a farmer near here, Monday was claiming the world's record for sugar beet raising. Lorey exhibited a 281 pound sugar beet raised this year, and delivered to the Dodd Beet company, near here. It is 23 pounds heavier than any sugar beet ever grown, as far as local records show.

K. P. PRELATE TO VISIT CITY

Federick K. Alwood, supreme prelate of the Knights of Pythias of the United States, who is on a lecturing tour in the west, will address La Grande Knights of Pythias, their families and all persons interested at the K. P. Hall at eight o'clock Thursday evening, according to an announcement by C. D. Graham, secretary of the local lodge. Mr. Alwood's subject has not been announced.

Chicago Is Short 6,647 Babies, Reports Indicate

CHICAGO (AP)—With a steadily declining birth rate, Chicago is "short" 6,647 babies since 1916, according to statistics issued by the Infant Welfare Society of Chicago.

In 1916, when the population of the city was only 2,517,722, 56,417 babies were born. In 1922, when the population figure was placed at 2,530,000, only 56,724 babies were born. The rate during those years had fallen from 22.4 a thousand to 20.02. Using these figures as a basis, Orin W. King, Executive Secretary of the Infant Welfare Society, declared Chicago is short 6,647 babies.

"The falling of the birth rate," said Mr. King, "is forcing driving home to the public spirited citizens of Chicago the increasing necessity of guarding the human life that is given in each year even more zealously than in the past. It is all the more important that we exert every possible means to prevent the infant loss in this community when we believe, and with good reason, that the birth rate will continue to drop as it has since 1893."

Statistics of the society show that last year when it cared for approximately 12,000 babies, an actual saving of 430 lives was credited to the society because the death rate among babies under 2 years of age cared for at those stations was only 14 a thousand, while throughout the city generally it was four times as great.

Bad Weather Delays Pilots

BALT LAKE (AP)—Lieut. F. R. Whitmore, pilot for the United States Navy in the international races from St. Louis to San Diego, arrived at Rock Springs at 7 p. m. Monday, landing on account of bad weather, according to a message from Rock Springs. Lieutenant Williams and Conklin also turned back and landed at Rock Springs at 5:25 p. m., according to the local air mail field.
