CO-OPERATION With Citizen and City. The other day a man said to us: "Why does your company advertise in the local paper? You are bound to get all the business in your line, and you must waste money by advertising." IN THE FIRST PLACE: Advertising is an essential of good business, and even though the Eastern Oregon Light and Power company is not in competition with another like business, there is no reason why good business methods should not be pursued. THEN TOO, it has been clearly demonstrated that more light and power is used by customers who appreciate the service and understand the effort required to supply it, than by those who do not know the problems and affairs of their public servant. 1. This company is a part of each community which it serves. II. It has a story to tell that can only be told by advertising. III. Newspapers are a part of the community and business life and it is the duty of the company to use them for business purposes. THROUGH advertising we help support this paper. The local newspaper, properly conducted, is one of the most important assets of any community or city. It not only pictures commerce and daily life as it is, but it generally points the way to civic improvement and betterment. PROBABLY no other agency is expected to do more, and generally does more for the general good of its citizens and its community, than the newspaper. And it is, by its very nature, required to do most of its constructive work and give of the only commodity it has for sale—its space—without remuneration. TO DO OUR SHARE in support of an agency which constantly works for the development of the community in which we operate, is an obligation we cheerfully assume. And we believe that this newspaper is entitled to such advertising support as we can give it, aside from the direct value to us, of the advertising itself. Eastern Oregon Light and Power Company "Always at Your Service"
