(Continued from page 1)
This subject but if necessary shall place all facts before a proper tribunal.
Weeks Feels Strongly.
Although Mr. Weeks would not comment upon Mr. Ford's statement beyond leaving his own former reply, he was every indication that he felt strongly on the charges that political influences working through him had prevented the Detroit manufacturer from obtaining Muscle Shoals. During the day he twice discussed the situation with President Coolidge, the last time after he had prepared his answer which he carried with him to the White House.

"Y" Workers in Havana Extend Friendly Aid

HAVANA (AP) - The Merchant Marine Y. M. C. A. is here primarily to deal with American sailors, make their days better and help them when they are in need, but soon time to time the organization finds opportunity to leave its regular field and do good in broader patterns. Ernest Winters, the secretary, and his wife always welcome such chances.
Recently Mr. Winters inaugurated in the Y. M. C. A. the great job of Havana, Protestant religious services in English for the benefit of the 40 or 50 British, American and East Indian sailors on the boat of the ancient building. Not long ago two young boys came to Havana from Maryland, but up at an expensive hotel, and began looking for jobs. Their small savings melted away in a few days and while the American consul was seeking a chance for them to work their way home on a ship, Mr. and Mrs. Winters were keeping the two out of mischief and in food. Another undertaking was the return home of an American drug addict whose papers showed he had held an army commission during the world war, and on the same ship with this man went a negro woman, stranded in Havana, whose son in New Orleans had been recruited by the secretary of the Y. M. C. A.
