If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system, the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says, "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.

DeLuxe

THE BEDSPRING LUXURIOUS

DeLuxe is the most luxuriously comfortable bedspring made. It will give you a lifetime of satisfactory service and more soothing delightful *healthful* repose than you have ever known

Luxurious comfort in the bedspring DeLuxe is a result of special features in the construction, among which are the extra-long highly tempered conical coils tied together diagonally at the top with elastic helical coils. These helical coils are securely attached to the large coils by Patented S-Hook Fasteners which insure the integrity of the entire fabric and distinguish DeLuxe from its many inferior imitations. Each coil is thus given freedom of action and the bedspring is made flexible, so that it follows the contour of the figure and supports the whole body buoyantly in a natural and therefore healthful position. It does not sag like a hammock or pitch to the side of heavier weight when occupied by two persons. Tranquilized and made drowsy with a sense of physical comfort, you drift off into sound and refreshing sleep.

DeLuxe is handwoven finished in Rome Gray Linen and will fit metal or wood beds (and four-foot wood beds) without any change.

Survey Shows Skirt And Blouse Popular With American Girls

NEW YORK, (AP)—The separate blouse and skirt is the typical costume of the American woman and girl, according to the United Women's Wear League which recently completed a survey of the evolution of American fashions for women.

Powered by native conditions of living, the skirt-and-blouse has been the favorite costume in this country from the very beginning of the nation's history and now remains strongest in popular favor. The investigators found that while foreign style innovations have come and gone, the vogue of the blouse and skirt has never waned permanently because American women have found that costume both practical and suited to their type—tall, slim, athletic and active.

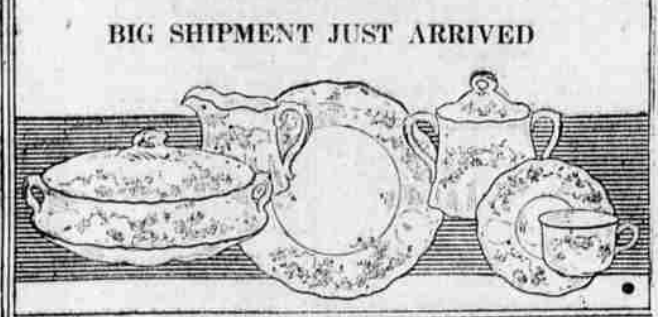

Around the dress and gown, of French and Italian origin, have held sway and modes of living have declared against the blouse and skirt European designers every season and to this country new fashions for evening wear but none sends a costume which vies with the blouse for the practical necessities of everyday American life.

"Some where between the dignity of formal dress and the striving for daring that French municipalities exhibit in fashion parade," according to M. Moschis, executive chairman of the league, "there is a place for the costume that expresses the independence of the American girl—this girl you see in illustrations, on the streets, in the shops, this tall, straight slim, active girl who walks with a swing of her capable shoulders and looks about her with a direct, fearless gaze."

"It is this type of girl who has clung tenaciously to the separate blouse in all its manifestations. She knows that it is becoming, that it is of style out of reach of the dowdy and the dumpy and she has made it her own. Let who will wear the narrow, clinging draperies she wears them herself in the evening but she finds the best expression of her personality in the crisp and easy lines of a modern blouse and skirt. It is her uniform but devoid of all the monotonous implications of the word."
