Furniture presents a much wider variety of Christmas gifts than ever before—reasonable things, too, that come within the scope of presents and combine utility with attractive beauty. Every year furniture has become more and more popular in supplying a new field for the Christmas shopper, until this year one might say that the Christmas list is easily topped with the variety of suggestions to be received from our beautiful and choice furniture displays. There are many odd ends and pieces—in fact so many that you will be pleasantly surprised when you come to see our displays. We shall be glad to show you the novelties and the more dignified regular pieces. We urge you to come earlier than usual—so that you may have the opportunity of selecting from our displays in their complete and varied array before the Christmas orders have to be filled.
