Ball Forces Mobilizing For Session

CHICAGO, (By the Associated Press)—Baseball forces of the nation started mobilizing here Wednesday night as scores of the clubs for the important meetings starting next Monday and continuing throughout the week.

President Ban Johnson of the American league definitely disposed of the possibility of an arrangement between himself and Commissioner Landis when he announced the American league would hold its meeting December 11, one day in advance of the provisions of the constitution.

Commissioner Landis had summoned the owners of the major leagues to meet here December 12 to join session. The American league constitution made it mandatory on President Johnson to call his own meeting on this particular day but in order to avoid a clash, the American league executive set the meet a day earlier. However, the American league club owners will go into session of December 12, in order to carry out the diction of the constitution date.

The American league directors will meet with President Johnson next Monday to formulate the league's policy for the joint session with the National league club owners on the following Wednesday.

The schedule for the 1924 season will be among the questions to be considered by the American league club owners. President Johnson favors a schedule of 154 games starting the season about the same date as last year.

Coast League Dispute.

Harry Williams of Los Angeles, one of the two presidents of the Pacific Coast league, arrived Wednesday with several of the Coast league owners. President Williams said his mission was to restore harmony in his organization and he believes if the legality of his election is questioned, the National board of arbitration will uphold the decision of the five club owners who voted him into office.

"This is a position I did not seek," President Williams said, "but five club owners of the league selected me and at the annual meeting of the league I was regularly and legally elected.

William J. McCarthy, the deposed president, claims the league rules provide that a candidate must receive five votes to be elected and unless a man is so elected the holdover officer continues to serve. With Seattle voting there five votes for Williams and for the police he is supposed to represent.

McCarthy's contention is that the Seattle club was not entitled to vote.

Among the baseball men arriving Wednesday were Oscar Reichow, business manager of the Los Angeles club; W. H. Klepper, president of the Portland club; Charles L. Lockhart, president of the Seattle club, and H. W. Lane, head of the Salt Lake club; Fred L. Rivers, secretary of the Portland club; Wade Killefer, secretary treasurer of the Seattle club; Marty Krug, manager of the Los Angeles club; Barney Burch, president of the Omaha club, of the Western league, and Jack Lelivett, manager of the Tulsa club of the same league.

SYRACUSE CO-EDS BAR ROUGH SPORTS

SYRACUSE, N. Y.—Branding introduction of football and boxing as collegiate sports for the fair sex as a new move to commercialize university athletics, Miss Katherine Sibley, director of physical education at Syracuse University, has announced neither innovation will find a foothold here.

"Such sports as football and pugilism are distinctly for men, and Syracuse girls at least will not take part in them," declared Miss Sibley. "The aim of the university physical education department is to produce good, strong, wholesome, womanly women, not commercial athletes.

"Our various athletic teams will not take part in any intercollegiate meets, neither do we look for the Olympics. Our girls will display their athletic prowess on the home field, where they are supervised by the proper authorities.

"There are many sports at which women will equal the men, but those sports at which women do excel should be also supervised by women. Our department is for women, governed by women. More than 200 girls played basketball last year, and active club had 200 members. Our rifle team was prominent in its field and won many honors throughout the year. We expect to do some big things this year, especially when our new athletic field opens in the Spring."

LEE MORRISSEY IS "EASY MARK" FOR A. MISKIND

SALT LAKE (AP)—Abie Miskind of Salt Lake won the decision in six rounds of fast boxing here over Lee Morrisey of Idaho Falls, Ida. The men are welterweights.

The local boy had quite an easy time with Morrisey, who was lost with his right arm, he would face Miskind and take blow after blow on the head and came out smiling. His left was always alert for an opening and those were his main tactics throughout the fight and end it all. He took lots of punishment, for Abie hammered him continually with short jabs to his head and uppercuts.

Morrisey did his best, consistent work in the fourth round. He assumed the lead at the start and his aggressiveness forced Abie into the corners and compelled him to resort to his best to get out with out taking a few slugs. Once Lee barely missed a mighty swing as Abie was getting out of a corner. He had lots of power in that wallop for the momentum carried him into the ropes.

The final round saw Morrisey make his last stand, but Miskind was not to be defied the victory in the final mash. But had time been able to erase a few years from Morrisey it would have been a whale of a scrap.

Ed. Shepard, local middleweight won over Kid Flash, negro boxer, in four rounds.

Bishop at Hood River.

HOOD RIVER, Or.—Right Rev. William P. Remington, bishop of the eastern Oregon diocese of the Episcopal church, spent Monday in the mid-Columbia. At 11 o'clock he officiated at confirmation services for a class of eight at St. Mark's church here. Tonight a class was confirmed at St. Paul's church at The Dalles. Bishop Remington will be honor guest at a dinner served here tomorrow night by members of the local church.

Shell-Torn Verdun Is Building Modern Stadium for Sport

VERDUN, (AP)—A standard athletic stadium with regulation rugby and association football fields, running tracks, velodrome, grandstands and club house, being erected on the edge of this battered city, simultaneously with the work of reconstructing homes to provide shelter for the war victims, is evidence of the place which outdoor sports and athletics now occupy in French life.

"London Park" as the new grounds will be known, in grateful appreciation of the fact that 250,000 francs of the amount necessary for the expense involved were subscribed in London, is to be officially inaugurated by Premier Poincare next summer. Invitations will be sent to celebrated foreign athletes and their participation is expected greatly to enhance the ceremony from an athletic point of view.

A straightway cinder path chute of 500 metres is now completed and the plans call for a circular cinder track of 500 metres. Seating accommodations will be provided for 10,000 spectators with additional room for 28,000 standees.

The work commenced last summer has been somewhat delayed, owing to the fact that the site of the stadium is between the Tour des Champs and the Porte Chaussee in the center of the worst shell torn area surrounding the town, and workmen had to proceed very carefully as their picks on many occasions turned up duds which exploded with belated fury.

The Rainier Apple

The Apple to Plant for Profit

Awarded Wilder Silver Medal 1922 American Pomological Society

In our sincere judgment this is the finest dessert apple thus far developed. It has all the mild qualities of the Delicious, which commends it to the taste of those who cannot eat the more acid apples, and, in addition, it has a decidedly spicy flavor, will keep firm in ordinary storage for weeks without becoming mealy, and in cold storage the *RAINIER* keeps perfectly for a year.

UNCLE SAM'S VERDICT—"The keeping qualities of the RAINIER APPLE are unsurpassed by those of any other variety of the Pacific Northwest that has yet come to the attention of the U. S. Department of Agriculture. Its ability to retain its firmness, brightness and quality with almost no decay or skin blemish, places it above even the Arkansas Black, Winesap and Yellow Newtown. In 32 degrees Fahr. cold storage it keeps in prime condition into May or later, and instances are known where large numbers of boxes have been held in excellent condition into September of the following year."—Bulletin No. 187, United States Department of Agriculture, Page 28.
