OUTBURSTS OF EVERETT TRUE By Condo

was directed by Alfred H. Green. The story concerns the will of a father who stipulated in his will that all his sons and daughters must marry before they shall inherit his estate valued at several million dollars. One brother and the two sisters have no difficulty in finding mates under these circumstances, but one member of the family alone is uninterested in matrimony. This is Tom (Rockwood), played by Thomas Meighan, a civil engineer who is working on a big electrical project.

Pool Niblo has outdone all of his previous efforts in "Strangers of the Night," the screen version of Walter Hackett's stage success, "Captain Applejack." The man who directed "The Three Musketeers," "The Famous Mrs. Fair" and "Blood and Sand," has again turned out a new screen play. Working on the brilliant story of the Irish fighter who becomes a pirate and roams the Spanish Main, he has embellished it with beautiful photography, magnificent acting and a superb cast. The picture is presented by Louis B. Mayer, through Metro.

Specialties were furnished by famous drama and went into sales of laughter in Main lobby. In the role of "Captain Applejack," fought through the mystery of the treasure hidden in his ancestral castle in Cornwall, and swampered and swore aboard his pirate craft. End, picture's islands. Joyous contrast with "Captain Applejack," dark seductiveness of these two brilliant actresses portrayed the heroine and romantic adventures of the famous English mix. and the beautiful Rosaline app. Robert McKim was at his best as the leader of the cast who stood out distinctly were Emily Fitzroy, Otto Hoffman, Thomas Meighan, and Mabelle Hume.

But, Meredith was responsible for writing the excellent scenario and the memorable photography is credited to Alvin Wyckoff, who left the De Mille to do this picture. Robert Ellis was the artist who designed the beautiful sets. Comedy showing "Peaceful Neighbors."

DOINGS OF THE DUFFS

GIBBON AUTO CATCHES FIRE

GIBBON (Special)—An inch or two of snow fell here recently. We are having cold stormy weather.

Last Saturday night the new Dodge coupe of Mrs. Mae Welch that was parked in front of the depot caught fire, although there was eleven gallons of gasoline in the tank it did not explode. The cause of the fire is not known. It is supposed that the draft caused the gasoline to catch fire and go to the exhaust.

Joness Bonifer has returned to her home at Gibbon.

Mrs. Harry Marie is very low from blood poisoning. She is not expected to live.

Hazel Parsons, while playing, fell and struck her head on the pavement, fracturing her spine. She is some better now.

Mrs. Edith Thompson and Owen Meloy Bonifer were in Pendleton shopping Thursday.

Jack Hattwell and family have moved to Elsie, Oregon, where he is assistant section foreman for Frank Wright.

The dance Saturday night was well attended and a good supper was served.

German Resorts to Trickery.
 To Rot House in Which He Lived

BEHLIN (AP)—"Mister Campbell" was an extremely popular chap about labor bureau and factories in Berlin. He represented himself to be the son of a British industrialist who wanted to hire export German workmen at two pounds sterling weekly. He visited many factories and promised many jobs, but did not make any definite contracts.

for we have included every novelty style, and every plain style as well, in this Sale.

The assured quality of our merchandise is thoroughly known. This is not lessened one whit through these price reductions. The styles are those which are being worn right now—styles that will be worn way into the spring season (and Easter comes late this year, April 20th).

The exceedingly low prices prevailing now emphasize the advantage of supplying footwear needs for months to come.

GROVER SMITH, Mgr.

At last he confided to some of blond American wheat with Swedish-made friends that he had in equal ratio, but by drying was tired of hotel life and would like to have accommodations in a 26 per cent of American wheat with private home. The account was required for the bond.

The machine consists principally of four rotating cylinders which for the circulation of the grain, to which water is applied.

You never can tell. What appears to be a railway crossing may be the place where you cross the river.

SWEDISH PERFECT METHOD TO DRY NATIVE WHEAT

STOCKHOLM (AP)—A new contrivance for counteracting the destructive influence of damp weather on the grain production of Sweden is a grain drying apparatus. It is believed that the use of this machine will not only prove economical to flour mills, but will at the same time have a definite effect on the importation of wheat from America. Swedish mills have, in the past found it necessary to

The Straight Lines of the New Modes Are Gracefully Achieved By Wearing 'La Camille'

Front Lace Gowns never have the styling called so constantly for lines that are straight and slender. "La Camille" works wonders in gently remodeling surplus flesh into fashion's altitudes—makes you own a smooth-fitting success. You'll love the new models on "La Camille"—because you'll love and buoyancy of youth low-topped and of dainty fashion—lighty boned—but vis the only in their benefits. Be fitted to your individual model of "La Camille" and on as a youthful figure and a flexible ease that is beautiful. A complete line of the latest models always on hand.
