Japanese Imperial Court to Dispose of Stock Holdings

TOKIO, (AP)—The Imperial Court has announced a decision to dispose of its holdings in public companies to the amount of 10,000,000 yen (\$2,500,000) in order to enable it to meet heavy losses occasioned by the earthquake and fire. The household holds stock in the Bank of Japan, Nippon Yusen Kaisha, Yokohama Specie, Bank, Industrial Bank, Formosan Bank and other companies amounting to hundreds of millions of yen. Furthermore the land, buildings and household effects of the Imperial Court are valued at more than \$3,500,000. The quake damaged much of this property. Palaces and adjoining residences, villas and the extensive walls surrounding them were severely shaken or destroyed. Replacements and repairs will take millions.

Town Supplies Electricity Free.

IDITAROD, Alaska, (AP)—This town, in the heart of the gold placer district, finds it unnecessary this year to make a tax levy. The municipality has a reserve of \$2,500 in the treasury. Revenues from federal licenses will amount to more than the expenses of the town government.

It is Planned to Build a Municipal Electric Plant out of the Surplus and to furnish the current free to residents.

RUSSIA SEES PROSPERITY

MOSCOW, (AP)—Both the Russian people and the Russian government have to enter the year 1929 with less strain on their purses than during the closing year. High costs of operation in both government and private industries left many deficits at the end of this year despite high prices. The government is trying to introduce economy in all departments and by curtailing credits to merchants and even to its own trusts, to force down prices all around.

Russia, for all practical purposes, went on a gold basis late in 1927. All prices in the Moscow and other metropolitan stores are now marked in gold rubles. The year 1924 may see the total disappearance of the unguaranteed paper money. While this strenuous campaign to secure a stable currency was proceeding, the sudden transformation to a gold rate did away with bargains in Russia. The result was that in December prices for commodities other than foodstuffs were from four to five times the pre-war level.

The government shows some signs of making further economic concessions to private capital, during the coming year in order to secure cheaper production. It also

hopes to give impetus to initiative by lifting the limit on salaries of state employees. Some of the best of these men were leaving the government service and going into private business because the limit with the state was \$50 to \$70 per month.
