Tiny capes form the sleeves of the new straight dress of heavy satin. Just a little gathering on each shoulder adjusts the neckline—for the rest the dress is as a dress can be. The model is suitable to silk crepe or satin in any of the popular colors and would be decidedly attractive in velvet. It may be worn with or without a belt according to one's personal taste.

Cotton Does Well in Argentina.

BUENOS AIRES. (AP)—This season's Argentine cotton crop is expected to reach 40,000 metric tons, or more than 175,000 bales, according to indications, and it will be the largest yet produced since cotton began to be grown on a substantial scale a few years ago. Greater Mileage - and Skid Proof

IT'S a mighty strong recommendation to a far sighted tire buyer that a C-T-C will travel farther and skid less than any tire he can buy, isn't it?

That is why you are seeing C-T-C tires on more and more cars every day—and are hearing their song of safety as they swish by on the wet pavement.

You can't afford to take the risk of driving those old skiddy tires. Put them by until dry weather comes and equip with C-T-C's.

If you are in doubt of C-T-C superiority, go to any authorized dealer before January 15th and take him up on the following guaranty:

Simultaneously place a new C-T-C and any other new tire of same size on opposite wheels.

If, or when, the C-T-C fails to outwear the other tire, you will get a new tire FREE.

And remember, C-T-C'S DON'T COST MORE than ordinary tires.
