Water, Water Everywhere— With the regular January thaw at local that the name is good shure of the older residents of La Grande call it, still enduring, the condition of some of the street crossings in the city this morning resembled miniature lakes of water. At the intersection of Fourth and Adams, on the west corner, the gutter was completely stopped up and the condition was such that

unless booted or otherwise equipped to wade, citizens were unable to cross on that side of the street. In other portions of the city similar conditions, although not so bad, exist.

ACCUSE PASTOR OF BEING ADEPT IN "SHIEK'S ART" CHICAGO (INS)—Mrs. Charlotte Leland pictured her pastor, the Rev. Dr. Carl D. Case, as a kisser no less skilled than the slick Latin heroes of the films, when she testified last Monday afternoon in her husband's suit for divorce.

The clergyman with who she contends she married "four or five times," kissed her on one occasion for five minutes, the witness said.

So deaf was the clergyman with his pursed lips, she testified, that the church blinder he brought to \$10000.

"Did it make you angry?" asked Frederick Brown, "friend of the court," who is trying to prove the minister's contention that Mrs. Leland is unbalanced, with a complete confession.

"No," answered the witness. "Why not?" Brown insisted. "You were billed," she replied. "How were you billed?" "He came at me so absolutely and I just seemed to feel he had been doing right. I didn't feel

any the less love for my husband." From the point where she told how "he came at me so absolutely gradually," Mrs. Leland's story painted the clergyman in the guise of a cat creeping nearer to the rosin.

INCOME TAX REDUCTIONS ARE URGED

(Continued from page 1) on discussed the tax situation Monday but reached no conclusion.

Before taking up the earned income provision the committee definitely rejected Secretary Mellon's proposal to prohibit husbands and wives in the community property law states from dividing their incomes for purposes of taxation.

Chairman Green had submitted a substitute proposal, the original having already been defeated, to prohibit this division of income. Representative Garner, Democrat, Texas, and Hadley, Republican, Washington, led the fight against this section.

Mellon Proposal Rejected. Secretary Mellon's recommendation for special reduction in the taxes on earned income provided for the 25 per cent rate to apply on such incomes of any amount and defined earned income as wages or salaries alone, and professional services.

Representative Garner, author of the Democratic tax plan, accepted the plan but suggested a reduction of 33 1-3 per cent. The 25 per cent rate, however, will stand in committee, Chairman Green said, because no amendment was offered to change it.

WILLIAMSON BUYS CATTLE

Wedded to the belief that the rough places in the cattle raising lives are over for a while Joe Williamson came in from Portland a few days ago, where he and his wife are spending the winter, and made a deal with R. J. Greene whereby he became owner of the cattle which Mr. Greene has been running on his ranch near the Minam.

Joe says he never saw so much sheep herding and cattle driving on the range as he witnessed in the lobby of the Imperial hotel in Portland where the "fellows" gather to talk things over. He said it got into his blood and he came to La Grande and bought 250 head, and will run these cattle on his land over Lookout Mountain in Baker county.

RELIEF BILL IS ORDERED APPROVED

(Continued from page 1) found President Coolidge keenly interested in farm legislation and eager of the opinions of wheat-country interests regarding the various proposals now before congress.

"We attempted to show the president the fact which is everywhere recognized in agricultural regions," said Mr. Jewell, "that the pressing need today is for better prices for farm products, not for more credit. Farmers are pretty well fixed for credit; what they need is a fair price for the things they have to sell."

"As representatives of the export corporation league, which are now organized in practically every state in the northwest, we were able to speak for business interests as well as purely farm organizations. In making his support for the McNary-Hoygen bill, which we believe to be by far the most workable plan proposed to increase prices for agricultural products."

No Reason to Testify. WASHINGTON (By the Associated Press)—Henry Ford today informed the house military committee he thought it unnecessary for himself or any representative to appear before a committee to further discuss his offer for Mustang Squadron, saying that the committee had all the facts and that further hearings would only cause delay.

STAMFORD, England, (AP)—For the trial of one man, eventually put on probation for stealing a pair of boots, the following had to attend at the quarter sessions: the recorder, the mayor, the deputy mayor, the clerk and his deputy, a prosecuting solicitor, a police superintendent, an inspector, two sergeants, four constables, 40 jurymen and women, three reporters and the official shorthand writer.

GETS LETTER FROM MEXICO

The following letter, written January 19 from Salinas, Cruz Co., Mexico, has been received by E. Elmore Bell, of this city, and describes some of the present conditions in Mexico.

The letter reads: Dear Father and Sister: There is a boat in port so I will try to get a letter to you.

Of course all kinds of business here is on the lull. Transportation has been cut off by rail since December 1st, when the Huerta forces took Santa Lucia, which lies at the junction. It seems that they have been fighting somewhat around there all this time. We have no definite information as to just where the various scraps are going on or how they are resulting. The only means of communication is by telegraph and wireless telegraph, and lately they have even cut the telegraph wires. The cable was cut a good while ago, between here and Puerto de Mexico, but there is still a cable to Panama, but which messages can be relayed to New York. There has been no fighting here as yet, but the people of the town would rather welcome the rebels if they came. The military commanders here are just robbing the people blind. At the first chance when the fighting started they made a levy of some 40,000 pesos in money from the merchants, besides taking vast quantities of supplies, such as flour, beans, rice, corn, hams, bacon and canned goods and a vast amount of liquor. They even took all the opium, morphine and cocaine out of the main drug supply house in town.

The soldiers boarded at small restaurants in the plaza and later when they left for the fighting lines the captain would not pay their bill or even give a vale for it. The officers have feasted themselves at the best hotels in town, have been drinking of a great deal of expensive liquor and paid the bill with a "vale," or as we call it an I. O. U. Not content with that they levied a daily contribution on all merchants of the town in amounts varying from \$5.00 to \$20.00 per day, and an army officer goes around every day to collect it. They even put a levy on the small dealers in vegetables, meat and fish. The other photographer here has to pay \$1.00 a day even and has to sure that he like us, gets no business these days. The government clerks and officers here have not been paid for several months and may not get any pay for a good while yet. As for the people there is no work for them either. There has been several public works started, but they are all closed now. The military authorities have not bothered us nor any other Americans in town. The consul told us to notify him if they did.

Now don't worry about us. At present there is no way to send us aid, not even by P. O. money order, as it could not be cashed here. And money sent direct is too great a risk. There is only one route by which to send a letter, that is by steamer from San Francisco. However, if you folks among you, can get together a little fund to send us, when transportation is once again opened we would greatly appreciate it.

We shall surely be glad to hear from you. I suppose there are a lot of letters from you and other folks hung up along the coast. With love from your daughter, CASSIE A. URBAN.

Balt Players in County Employed. CLEVELAND, (AP)—Bill Wambagans, recently traded to Boston Red Sox by Cleveland, and pitcher George Uhle are employed this winter in the county treasurer's office.

FRIENDS REUNION OCCURS AT PARK; EVENT IS ENJOYED

THE PARK. (Special)—A J. Vanderventer was at the Springs on business Friday.

Joe Lay was bargaining with the Union Hardware for a good price on one day this week. It is not known whether he will secure the saw or not, but Mr. Caldwell was instructed to look for a good machine.

Clarence Vanorder is planning on cutting and putting up ice in the near future.

Virgil Kelly of the Medical-Bacteriology auto stage, may handle Joe Lay's fat porkers, placing them on the market at Baker later.

Bert Van was helping one of the neighbors doing some butchering one day this week.

A fine little reunion of friends from Big Creek congregated at the home of Mr. and Mrs. Joseph Lay one evening last week. They came in a sleigh, having a genuine old straw ride. They all departed early, they departed after a cheerful reception given them by the hosts.

Mrs. Lay, and Helen Cantine, the school teacher, in whose honor the party had formed itself on that occasion.

The roads are of the finest for sleigh riding and all are taking advantage of the short time afforded.
