

# NORWAY WINS IN CHAMONIX

### United States in Fourth Place in Olympic Contests—Finland Secod.

CHAMONIX. (By the Associated Press)—Norway made a runaway race of the last two ski events in the Olympic winter sports Monday, winning first place in the whole series with a total of 134 1/2 points to spare over Finland, which finished second with 76 1/2 points.

Great Britain took third place with 29 and the United States fourth with 29.

The Norwegians showed splendid form in all the events in which they competed. They were in admirable physical condition and displayed great efficiency in all branches of winter sports with absolute supremacy in the ski events.

Great Britain, in scoring one point more than the United States, did so with the aid of 19 points from the curling competition, in which only three nations were entered, while on the other hand the United States against eight nations represented in the hockey matches took second place but scored five points.

The standing of the nations on the final accounting was:

- Norway, 134 1/2; Finland 76 1/2; Great Britain, 29; United States, 29; Sweden, 26; Austria, 25; Switzerland, 24; France, 19 1/2; Canada, 12; Czechoslovakia, 8 1/2; Belgium, 6; Italy, 1.—Total, 231.

Nine points of the 466 for 16 events were not allotted, three points being withdrawn in the military ski race and six in the curling.

**FAVORITE STUDY OF AMERICA'S FIRST LADY.** Mrs. Coolidge is said to prefer this picture above all others taken of her since she took up residence with her president-hubby at the White House. She has a reputation for being an intelligent woman and above all a wise mother. That's a record to be proud of, don't you think?

"Ownership of property ceases at death," he continued. "The right of disposal goes, by law, to the state; but the state makes a concession in granting the right to make a will, which, once drawn, is irrevocable."

Young advised that a person, preparatory to drawing up a will, consult a good lawyer and select a competent executor. A trust company, he said, is the safest executive.

### Filter Plant Success

BEND, Or.—With pressure increased from a pumping head of 65 pounds to 85 pounds, water from the new filter plant erected by the Bend Water, Light and Power company at an approximate cost of \$30,000, was forced into the city mains for the first time at 11 o'clock.

The increase in the pressure of the water will be of great assistance to the local fire department. The filtered water has now reached all parts of the city. The taste of chlorine, noticeable at times in the water pumped from the old plant, had been eliminated by the new filter plant. Two other pumps, both with a capacity of 1,500 gallons a minute, will be added to the plant.

### Ignored!

Mrs. Finley J. Shepard, formerly Helen Gould, broke down and wept at Gould estate accounting hearing in New York City. She said she had been "ignored" and added that her brother, the late George Gould, had always said women couldn't "keep counsel."

## BOXING

CHICAGO. (AP)—Battling Siki, the boxer, caused Ed (Strangler) Lewis, heavyweight wrestling champion, to jump out of a ring here the other night, it was revealed Monday night. Siki did not challenge Lewis. Instead he tried to kiss the heavyweight champion, following the French custom. Sengulness referred an exhibition match in which Lewis appeared. When the stranger was declared the winner, Siki started to throw his arms around him and immediately plant a kiss on the cheek of Lewis and Lewis took it on the run.

NEW YORK. (AP)—Tex Rickard, boxing promoter, admitted Monday he was considering the organization of a professional hockey league next winter. He denied, however, that he has arranged to put the Canadian Olympic championships in the league to represent New York, as reported from Canadian sources.

NEW YORK. (AP)—Luis Angel Firpo now plans a re-entry into this country April 2 or 3 for his 1924 pugilistic campaign, during which he hopes to "lick Wild and Dempsey." Captain Thomas W. Sheridan, skipper of the American Legion, which arrived from Buenos Aires Monday, said that what Firpo told him just before sailing. "When Firpo came to the ship at Buenos Aires he had about 5000 fans trailing him," said Captain Sheridan. "We had to keep him inside as the stevedores stopped work when he walked out on deck. I fed him a plank steak, American style, and he said that is what he intends to train on here. He was in training that day—he ate only about three pounds."

### AVERAGE MAN THINKS HE WON'T DIE, SAYS BANKER

COLUMBUS, O. (I.N.S.)—"The greatest difficulty is not getting money, but disposing of it," declared Arthur Young, Cleveland banker, addressing a local audience. He asserted that "the average man believes he is the one exception to the inevitable law of death."

### Marks Only Value Is Purchasing Dollar

DUSSELDORF. (AP)—Intrinsically the paper mark has long outstripped the Russian ruble in worthlessness, but unlike its brother in adversity, the mark still serves as an excellent decoy for the capture of dollars and other stable currency.

Despite the present tendency of the mark to maintain a fairly steady quotation in the money market, it is the chief business of every man, woman and child to possess as few paper marks as possible at the end of the day. When the bank clerk gets his salary he goes to the nearest bank and buys dollars. When the merchant sells an article of merchandise for paper marks he sends a messenger to procure its equivalent in dollars. The bank, in turn, sells its marks to people who figure they can save a little by paying their bills in paper marks instead of foreign money.

After thus decoying dollars for dozens of people during the business day, the mark goes to bed at night despised by all whom it has served, and the man who has many marks left at night usually has a restless sleep.

### Bandon Sees Meteor.

MARKSFIELD, Or.—What at first was supposed to have been an earthquake at Bandon was finally determined to have been the impact of a large meteor in that vicinity, probably in the ocean near the mouth of the harbor. The shock occurred at 10 o'clock in the evening and the people on the streets saw an intensely bright meteor pass from east to west, lighting the entire sky.

It was believed that the report accompanying the impact was caused by the heat of the meteor and water.

### Trail Calendar Issued.

BAKELT, Or.—Another one of the many features of the Old Oregon Trail association will use this year in advertising the "road which saved an empire" and the shortest and best route to the Pacific northwest is a large calendar in two colors, with seven descriptive pictures and a map with the trail marked in red from the Missouri river to Seaside, Or.

Walter E. Merchem, president of the trail association prepared copy for the calendar, which was printed by a local plant. The calendars will be sent to hotels, garages and road organizations throughout the United States.

Life is just a slow and painful business of being handcuffed by habits.

### ST. LOUIS COURT HOLDS PAROLE IS REVOKABLE

ST. LOUIS. (AP)—A parole may be revoked even after the time of the term of sentence has expired, it was held in a decision by the United States circuit court of appeals here Thursday. The decision was in a case overruling District Judge Pollock of Kansas who granted a writ of habeas corpus for the release from Leavenworth penitentiary of Leonard W. Asher, after he had been returned to the penitentiary for alleged violation of his parole.

Asher was sent to the penitentiary December 29, 1915, to serve three years following his conviction in Utah for alleged thefts of funds of the American Express company. He was paroled June 15, 1917, under the two-third rule, on condition that he go to Wyoming and remain there until April 2, 1921. In February of 1921, however, he was arrested in Portland, Ore., and returned to the penitentiary on a charge of violating his parole.

Judge Pollock granted the habeas corpus writ on the theory that as the time of the sentence had expired, his parole could not be revoked.

### New Tariff Suspended.

SALEM, Or.—The public service commission suspended until April 12 sections of the new tariffs filed by the Yamhill Electric company, Tualatin Valley Electric company and Sheridan Light and Power company, relating to extensions of electrical energy.

It was charged by the commission that the sections of tariff under suspension conflict with the order issued by the commission several months ago. Hearing with relation to the new tariffs has been set for February 15 in Portland.

### Bus Line Has Deficit

SALEM, Or.—The Central motor bus line, which operates out of Salem, had a deficit of \$3,259.53 during the year of 1923, according to the annual report of

the corporation filed with the public service commission here. The passenger revenue of the company aggregated \$40,256.79, and the operating expenses were \$43,516.32, leaving a deficit of \$3,259.53. The total operating expenses were the amount of \$487.50 and without the amount of \$7278.02. The Independent Telephone company, with headquarters at Pilot Rock, had a net income of \$999.72 during the year 1923. The operating revenues of this corporation were \$12,924.44, with operating expenses amounting to \$9983.59. The operating income was \$2184.73, from which was deducted taxes, depreciation and other charges.

About 87 per cent of the people who think they could run the country safely let their radiators freeze.

## What Became of the Peddler?

**E**VEN in remote regions, the once-familiar figure of the peddler is rarely seen. In the cities the brass-lunged huckster has practically disappeared.

Advertising has banished those outworn hangers-on of trade. Through advertisements, women learned discontent with the limited choice offered by the peddler's pack and the huckster's cart.

Advertising teaches us to be more exact in judging values; to require things to measure up to better standards; to make better use of every cent we spend.

Advertising has done away with haphazard choosing by showing how wide and precise a choice you really can have. Haphazard buying is going the same route. People who read advertisements know what is what—and they make sure they get it at the right price!

ADVERTISEMENTS GIVE YOU LIVING NEWS OF ECONOMIES. READ THEM REGULARLY!
