Safe Fat Reduction

Reduce, reduce, reduce, is the slogan of all fat people. Get thin, be slim, in the eye of fashion and society. And the over-fat wring their hands in mortification and helplessness, reviving at nauseating drugs, afraid of violent exercise, dreading the unwelcome and unsatisfying diet, until they fit upon the Marmola Marmola Prescription and learn through it that they may safely reduce steadily and easily without one change in their mode of life, but harmlessly, secretly, and quickly reaching their ideal of figure, with a smoother skin, better appetite and health than they have ever known. And now comes Marmola Prescription Tablets from the same famous formula as the Marmola Prescription. It behooves you to learn the satisfactory, beneficial effects of this great, safe, fat reducer by giving to your druggist one dollar for a box, or sending a like amount to the Marmola Company, 4612 Woodward Avenue, Detroit, Mich., with a request that they mail to you a box of Marmola Prescription Tablets. Adv.

SNOW MELTING WITH RAPIDITY

Walla Walla County Enjoying Springlike Weather—Winter Wheat is in Good Shape.

WALLA WALLA, (Special)—Spring like weather continues to prevail in this section and practically all snow has melted in the valley, and on the hill facing the south.

Higher in the hills a few inches of snow still remains, but with the warm sunbathing each day the heavy snows become larger.

The nights have been extremely cold and the snow starts the small creeks running early each day.

The winter wheat appears to have withstood the winter in splendid shape, in many spots where the snow has melted away, the wheat shows green and healthy.

Grass is beginning to start on many pastures where the snow has been gone for a few days and stockmen are looking forward to the early spring crop of grass.

All farmers and stockmen were prepared to meet the severe cold season when food was scarce, and the price very high, and they are now looking forward to a long winter by putting up plenty of hay.

With the first snows of the winter, not coming until well late in December, much wheat was allowed to feed on fall pasture, after which much rough feed, such as straw stacks etc., furnished feed until a short time ago. This has materially shortened the hay feeding period.

A few of the farmers, owning small bands of sheep, are looking at this time, with the present condition of the weather, the results should show a high percentage of lambs.

R. McCrea, proprietor of the Hotel Northern, has had two men busy the past few days repairing and re-seating the wood furnishings of the interior of the hotel and lobby room of the hotel. Walter Gurnea and Burton Miller have the contract of the work.

The branch line train was delayed hours late Tuesday, due to a slide in the canyon near Elgin. Considerable time was required to clear away the dirt and rocks sufficiently for the train to get through. People coming from Maxville, report the road from there to the north business west of town, in a very bad condition for travel of any kind. The stage route started from here to Maxville, about two weeks ago, and travel with the heavy cars very difficult. Much of the road toward this section is of light soil and when wet the heavy cars sink to the axle in many places. A part of the road on Oneida runs through the lower valley, which is always very muddy in the spring of the year, when the frost goes out.

One case of scarlet fever is reported to have developed here. T. C. Johnson returned home from Portland Tuesday, where he went with a car of boys for the winter, the last of the week.

Mrs. T. L. Sherod, who was a patient at the hospital here, for several weeks but now feeling well, recently recovered to return to her home in middle valley, is reported to be steadily improving.

HAS AN OLD PLAN TO EXTERMINATE THE BOLL WEEVIL

NEW ORLEANS, La. (U.P.)—Chalmers, that after years of study he has discovered a new method of exterminating the boll weevil. Dr. H. Abbott, a New Orleans florist, has invited government scientists, studying the weevil, to make an inspection of his method.

The florist insisted that his weevil works like a thief. "The idea is very simple," he said, "and consists of placing a brown light in the center of a field, bright as the sun, and the weevil will be attracted to it and will be killed by the light."

"I have studied the weevil," continued Dr. Abbott, "and have learned that the weevil comes out during the life of the adult in the summer. It is attracted to light, so I have placed a brown light in the center of the field, and the weevil will be attracted to it and will be killed by the light."

Working on this observation, I used up a fire in the field around a brown light, with a contrivance that will kill the weevil the instant

LUMBER TRADE SLOWED DOWN

The lumber trade through the north and eastern sections of the country has been slowed down considerably by the recent heavy snowfall and storm, says the American Lumberman, Chicago.

Heavy snows have, however, not retarded the lumber trade in the south, where the weather is still clear and the demand for lumber is still strong.

The lumber trade in the south is still active, but the demand for lumber is still strong, and the price of lumber is still high.

ST. HELENS, Ore.—The annual county budget meeting was held here.

In addition to the county court, three taxpayers were in attendance.

The budget, as adopted prior to the calling of the session, was declared the basis for the year.

The court maintained that no change could be made in the budget as the session had extended the tax rate on the basis of the budget previously adopted.
