COMPLETE THE NEW BASEMENT

The Carr Furniture company has completed its new basement where house furnishings will be carried and tomorrow will open it to the public.

An artistic stairway has been built to the basement, the entrance being a few feet from the front door. The stairs are on an easy incline and at the landing below a beautiful shadow box has been built in for the display of house furnishing articles. The shadow box is a very popular number of exhibiting goods and later the company may add several more of them.

The interior of the basement is finished in white and articles for the home are displayed on white shelves and white shelves. The lighting effect is very good.

Mr. Carr states that he intended to give this department his personal attention believing that his customers will appreciate it.

closed that the oil committee was investigating a report that he had

sent in Sinclair oil stock.

This report, brought to Washington by a special investigator, not only had been laid before the committee, but also has been called to the attention of President Coolidge by Chairman Lenroot and other administration leaders in the senate.

In his public statement, which took the form of an open letter to Senator Pepper, Republican, Pennsylvania, Mr. Daugherty made no specific mention of the reported oil stock transactions or of any of the individual charges made publicly against him. Instead, he declared in general terms that some senators were denying him constitutional privileges which are accorded "the basest criminal."

"Is the preservation of the orderly processes of the law and the preservation of constitutional rights of no importance?" he asked.

"Shall reputations be destroyed and public officials driven from office by clamor, insinuation and falsehood?"

SENATOR IS ACCUSED OF GRAVE CRIME

his attack on the committee. He

charged that official records had been kept of the hearings on other items in the bill, but that when this one was reached "the stenographer lifted his pen."
