

Local News In Brief

COMING EVENTS

February 28, 29-Mar. 1—Basketball championship tournament (District No. 1—six counties) at Union.

To Enterprise on Business

C. H. Eberhard is spending a short time in Enterprise on business.

Return to Hilliard

Mrs. William Condit has moved back to her home above Hilliard after spending the winter in La Grande.

Called by Illness

Mrs. J. H. Hillman of Downy, Idaho, arrived in La Grande this morning. She was called by the illness of her sister, Mrs. John Hutchinson.

Leave for Denver

Mrs. J. H. Leonard returned to her home at Denver, Colorado, last evening, after visiting relatives here and Portland. She was accompanied by Miss Elvina Steinger, of Portland, who will be married there Saturday. They have been visiting at the Ed. Thomas home in this city.

Invitations are Out

Invitations to attend the Annual Home Products Banquet of the Chamber of Commerce of Union county have been sent out. It occurs on Friday, March 4th in the Savoy Hotel building. The La Grande Printing company donated the invitations and the food for the banquet is being donated by the different business houses of the city.

ENTERPRISE 5 DEFEATS ONTARIO HI

One thing can be said for the Powderites; however, and that is that they are as game a team as has ever played in Eastern Oregon. Facing odds that they knew they could not overcome, they nevertheless gave Baker all they had and despite the large score, the game was fairly interesting.

Our Customers As a Rule, Are Well to Do. Even tho' we Never DO Them!

The other day, in checking over our mailing list, the thought came to us that most of our customers are fairly well to do—they own their own homes, their own cars and have money in the bank and nearly all of them are savers.

That's why they trade here — because their needs are covered without uncovering their nest egg. Remember this the next time you need clothing — you don't have to be well fixed to trade here but you are fixing yourselves to be in clover if you buy everything the same chandise.

Small Profits Large Values Michaels-Stern Spring Suits \$2.50 to \$48.50 Fitform Clothes \$35.00 to \$65.00

Clint's Clothery A Store with a Conscience

Four games will be played today. Union will meet Baker at 2 o'clock in the first contest.

La Grande and Joseph will take the floor following the Union-Baker game and fans are expecting this contest to be one of the best of the season.

On Saturday afternoon the four winning teams will meet and the evening the two undefeated quintets will play for the championship.

Following the final game the Union American Legion will stage a dance.

ONTARIO IS BEATEN BY ENTERPRISE HIGH 37-21

In the opening game of the tournament, Enterprise high school overhauled the Ontario team, the "darkhorse" of the tourney, during the last few minutes of play and won by a margin of 16 points.

When the game began it appeared that both teams were about evenly matched and at the end of the half, the score stood Ontario 12, Enterprise 12.

During the second period, however, Enterprise snapped out of it and scored 12 points to Ontario's 8. In the last period Ontario forged to within a basket of the Wallowa county-scoring but a rally by Enterprise that scored four baskets, put the game on ice.

Hart, Enterprise forward, was high point man of the game with 15 points. McCullough, Ontario forward, was second high with 12. Ontario's guards played fast ball but the Enterprise team, with the best display of teamwork they have made this season, pierced them more than once for close baskets.

A fair crowd was in attendance and all were satisfied that if the remaining games were as full of interest as the opener, the success of the tourney was assured for all time.

Summary: Enterprise 37, Ontario 21.

Score by Quarters

Table with 5 columns: Team, 1, 2, 3, 4, Total. Rows for Enterprise and Ontario.

Officials: H. C. Caccia, Seattle, referee; S. W. Rich, Walla Walla, umpire; Nolan Skiff, scorer; John Workman, time; Hargrave, Ontario, and H. M. Phillips, Enterprise, assistant scorers.

UNION WINS CLOSE GAME FROM WALLOWA TEAM

In the second game of the Thursday elimination contest, at 7:20 o'clock in the evening, the Union high Maroon and White team emerged winner in a close exciting game that was anyone's until about the last minute of play.

During the first three quarters both teams appeared about on a par, with first Union and then Wallowa scoring. Union led the greater portion of the time but at no time did they score a lead of many points.

Both teams played aggressive basketball with Henderson and Greer for Wallowa and Blacker and McClellan for Union, high scorers.

Summary: Union 25, Wallowa 21.

Score by Quarters

Table with 5 columns: Team, 1, 2, 3, 4, Total. Rows for Union and Wallowa.

Officials: H. C. Caccia, Seattle, referee; S. W. Rich, Walla Walla, umpire; Nolan Skiff, scorer; John Workman, time; Hargrave, Ontario, and H. M. Phillips, Enterprise, assistant scorers.

NORTH POWDER SCORES 6 POINTS AGAINST BAKER HI

The final game Thursday night between Baker and North Powder was easy for the Queen City Indians. After a fairly close first half, which ended Baker 10, North Powder 4, Baker began opening up and during the last half scored 21 points to North Powder's 2.

Baker did not play a fast game but on the other hand, they clearly excelled the North Powder boys in nearly every department of the game, especially in reference to their five-man defense.

that Baker was saving their men as much as possible for today. Summary: Baker 33, North Powder 6.

Score by Quarters

Table with 5 columns: Team, 1, 2, 3, 4, Total. Rows for Baker and North Powder.

Officials: R. C. Caccia, Seattle, referee; S. W. Rich, Walla Walla, umpire; C. C. Snow, La Grande, scorer; assistants, W. R. Davis, Baker; Elliott, North Powder; John Workman, time.

THE OPEN COURT

CORRESPONDENTS MUST SIGN THEIR NAMES TO THE EDITOR OF THIS DEPARTMENT. LETTERS PRINTED.

To the Editor:—In order to correct a quite general misapprehension that I thought the statements and comments of the market reporter of the Portland Journal, have arisen relative to the egg ruling recently issued by this office to be more effective, March 1st, I beg the use of a little space in your valued publication.

To begin with, this ruling was not made in the interest of any dealer or person, but for the protection of the consumer and for the protection and in the interest of the honest producer, be he farmer, small poultryman or operator of a commercial hennery, as well as the grocer and other dealer who wants to receive and give a square deal.

The ruling was made consulting a number of producers as well as dealers and with the advice of the office of the district attorney of Multnomah county, and of the state market master and we believe it is in the interest of the poultry industry and of all honest persons connected therewith.

Regardless of whatever may have been said to the contrary this ruling was not intended to, neither does it exclude any good marketable egg no matter where nor by whom produced, as follows:

1. A fresh egg is an egg of recent production, clean, full with "fixed air" of not more than three-sixteenths of an inch in depth, sweet, strong of body and unimpaired in quality. The albumen must not appear watery. A larger air space with a movable lower line indicates a state egg, or one that is becoming weak or watery.

2. A fresh standard egg is a fresh egg, as defined in paragraph 1, weighing not less than one and five-sixths ounces.

3. A fresh pullet egg is a fresh egg weighing not less than one and seven-twelfths ounces.

4. A fresh "peewee" egg is any fresh egg weighing less than one and seven-twelfths ounces.

5. All standard eggs, pullet eggs and "peewee" eggs shall be packed separately and the grade plainly marked on the end of the case, showing the particular grade of the eggs in the case.

6. Second-grade eggs are good, edible eggs, but with an air space more than three-sixteenths of an inch in depth and not good enough to grade as standard in the different classifications herewith defined. Eggs known as large hatch spoils, heavily shrunken eggs, settled yolks and leaking eggs, and eggs with loose air space are fit for consumption but will not stand transportation.

7. Eggs known as "yolk stuck to the shell," "blood rings," "partially hatched," "muddy eggs," "black spots," "black or mixed rots" and other eggs of unwholesome nature shall not be offered or exposed for sale or sold.

GETTING TOO FAT? TRY THIS—REDUCE

People who don't grow too fat are the fortunate exception. But if you find the fat accumulating or already cumbersome, you will be wise to follow this suggestion, which is endorsed by thousands of people who know. Ask your druggist for Marmola Prescription Tablets and follow directions. One dollar is the price of the small box. Get them from your own druggist or send price direct to Marmola Co., 4612 Woodward Ave., Detroit, Mich. By doing this you will be safe from harmful drugs and be able to reduce steadily and easily, without starvation diet or tireless exercise.—Adv.

facing into deep ruts. A large portion of the road is reported to be in excellent condition, having stood the test in splendid shape. Also experienced in road building say, that at places where deep ruts have been cut into the surfacing, is due largely to the material not being settled sufficiently, and that after the road has been thoroughly wet and settled this trouble will not be experienced again.

At one point about a mile east of town the surfacing has been cut into deep ruts, resulting in a mud-hole which many motorists find quite difficult to get through. Saturday morning an one of the stages was on its trip up the valley in an axle was broken at this point.

The broken axle was brought to the garage for repair before the trip could be continued. Several others have become stuck in the same place, due to the ruts being so deep that the clearance of the average car would not pass over the ridge between the ruts.

All dirt roads are badly cut up, and muddy in many points, making travel all the higher, vitand. It is impossible with cars. Where the frost has been out of the ground for any length of time, the roads are beginning to show signs of drying some, and with the absence of storms for a short time, some of the valley roads will be dried sufficiently to allow drags to be used.

Charles Potter finished a logging contract for the Bowman-Hillier Lumber company last week. He has been engaged on this contract since last fall, and has cut in over 500,000 feet of logs. The past winter has been exceptionally good for logging in the woods, the snow did not reach the depth

NEW TODAY

Due to difficulty experienced in collecting charges for advertising that is listed under classified advertising and under the "new today" heading, the Evening Observer will hereafter take no classified advertising or advertising to be run as "new today" unless the advertising is accompanied by cash.

which it usually does in the late part of the winter season. Reports say the snow has now melted until about 10 or 12 inches remain in the woods yet, while the warm spring-like weather has drawn the frost, making the ground very soft at this time.

J. L. Maxwell was in the upper part of the valley during the past week looking for fat stock. Alfred Noregaard was an upper valley business visitor the last of the week.

Mr. and Mrs. Albert Curvey drove from La Grande Friday afternoon, and visited the last of the week with Mrs. Curvey's parents, Mr. and Mrs. C. A. McClaran. A Chris Cook of Lentine, was a business visitor here the last of the week.

A large crowd attended a dance held here Friday night. Some of those present say that the supply of "moon" shows no signs of being greatly depleted.

With the gradual rise in the price of cattle, in some of the larger markets, some of the stockmen are beginning to think that something bright will yet manifest itself in the business. The price quoted by buyers in this section for fat steers is much better than existing offers for some time.

Average stuff is said to be worth around \$7 per hundred, while first class steers are worth about \$7.50. This figure should seem quite encouraging, when compared with prices which have been received for the past two or three years.

Men who did not sell last fall and took the chance of carrying their stock through the winter, in hopes of a change in the price will no doubt benefit enough through the rise in the price to allow some profit over the cost of wintering.

There has been an abundance of feed which could be secured at all times at a reasonable price. Much hay yet remains unsold. A few farmers have been delivering hay into town in small quantities, the price received delivered is said to be around \$12 per ton. E. P. Johnson has been preparing to commence lambing within the next week.

Brazil Offers Opportunities. BERLIN. (AP)—"A Revista" is the name of a new illustrated magazine which is being published in Berlin in both German and Portuguese. It is designed to establish closer relations between Germany and the nations speaking Portuguese, and contains many articles.

The moment this sulphur preparation is applied the itching stops and after two or three applications the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching or disfigurement. Mentho-Sulphur always heals eczema right up.

A small jar of Rowles Mentho-Sulphur may be had at any good drug store.
