

OSHKOSH B'GOSH

OSHKOSH B'GOSH

This ticket describes Double Dyed Denim and is on every Oshkosh B'GOSH Overall, Nos. 101, 101 and 101.

This competitive test proved Double Dyed Denim fast color.

If only every overall wearer might have seen this test made! The superiority of Double Dyed Denim was proven in a most startling manner.

Samples of denim woven at different mills were sewed together. One of these samples was the Double Dyed Denim. The entire strip was soured with dirt and grease. Then it was sent to the laundry.

Powerful chemicals were used to take out the dirt and grease. Again and again this process was repeated. Illustrated at the left you see the result.

Some of the pieces were almost white; others a dirty gray; one showed a pale blue. Standing out in striking contrast was the Double Dyed Denim. It came through tough and strong as ever and a wonderful bright blue.

Double Dyed Denim is made only into Oshkosh B'GOSH Overalls. It was originated and is controlled by the Oshkosh Overall Company. Try a pair. That's all we ask. They must make good or we will.

667 Killed in London in 1922. LONDON, (AP) — The annual police report shows that 667 persons were killed in the streets of London during 1922. The number in 1921 was 654. The report shows more people injured in 1922 than in 1921. Accidents average 261 daily.

CALIFORNIA IS AUTO LEADER

Has More Automobiles in Proportion to Population Than Any Other State in Union.

SAN FRANCISCO, (AP) — California has more automobiles to each thousand of population than any other state in the union, according to figures compiled by W. H. Marsh, director of the state vehicle department.

In the eleven months ended December 31, 1,052,650 automobiles and trucks had been registered by the department. During 1922 there were 747,537 motor cars registered. Marsh said that an analysis of the records of this and other states indicated that during the coming year New York would be the only state having a greater actual number of cars than California.

For 1923 and 1924 he expects a close contest for second place among California, Pennsylvania and Ohio. He predicts that within less than five years California will pass New York, because of the climatic conditions that make California a year-around region for open cars, as well as 6,944 miles of paved highways within the state.

During the year California registered 14,624 motorcycles and 5,371 trailers. In this period temporary permits were granted to more than 70,000 automobiles carrying tourists or settlers into California from other states. It is estimated that more than 200,000 persons visited the state in motor cars.

Statistics prepared by Californians, Inc., and organization for the dissemination of information about the state, show that for every 100 farms in California there are 29 automobiles, said to be a greater percentage of motoring farmers than has been reported by any other state.

Motor stages and truck lines are having an increasing part in the state's transportation facilities, the records of the State Railroad Commission indicate. The new year began with 677 automotive lines operating under jurisdiction of the

commission. Of these carriers 164 transport freight exclusively and 133 take passengers only. The commission has licensed 67 motor carriers whose cargoes are limited to certain commodities, such as milk, eggs and poultry, lumber, films, fresh fruits, vegetables and berries. These specialized lines are said to enable the farmer to get produce to profitable markets at low freight rates. Motor transportation has left few inaccessible spots. Mountain and desert alike have been overcome. Companies operating this form of carrier own 3,200 cars and trucks. Their physical properties are valued at \$12,500,000.

Ferry Complaint Filed. SALEM, Or. — Complaint was filed with the public service commission here with relation to the alleged inadequacy of the Wheatland ferry, which operates on the Willamette river between Dayton and Salem. The complaint charged that the ferry was unsafe, and that some action should be taken to make necessary repairs or replace it with a more substantial craft.

Klamath to Have Auto Show. KLAMATH FALLS, Or. — Under the auspices of the local post of the American Legion every automobile dealer of Klamath Falls, representing more than 25 makes of cars, have united to hold an automobile show here on February 29 and March 1. A number of cars exhibited recently at the auto show at San Francisco have been entered in the Klamath exhibition.

Practical Bakers Will Attempt to Make Bread More Appetizing. CHICAGO, (AP) — Bread is to be made more appetizing under plans of baking experts from 50 parts of the United States who will meet here for a three-day conference beginning March 17, under the auspices of the American Institute of Baking. It will be the first conference of its kind.

Despite the fact that the bread of today is superior to that of a few years ago, statistics of the Wheat Council of the United States show that the per capita consumption of wheat annually is only 4.22 bushels now as compared with 5.98 bushels before the war. More than 200 men who have actual charge of the production of bread in commercial baking plants will attend.
