### Track Call Will Be Sounded March 17

Several "last years" stars to form nucleus for MacFavish's team

With the district basketball title won and also thought to represent this portion of Eastern Oregon at Salem in the state tournament March 13, 14, and 15, interest in track is beginning to increase in quantity.

A preliminary has been prepared which will be conducted the first of next week for the purpose of arousing enthusiasm in track and field prospects for this season.

Several stars of last years team still remain in school about which MacFavish will build the nucleus of a team.

Among them are Lynch, hurdles and pole vault, Steinbeck, sprints and 440, Captain Price, sprints and 440; Tubby Zondell, high jump; Stager and Coker, weights; Jacobson, distance and broad jump; Glass, broad jump and others. In addition to the veterans MacFavish is expecting to recruit several others who will be a material help to the team.

**Bringing Up Father**—Of all the family father is apt to be the most careless of a rough or cold, and it is the duty of mother or the girls to see that he takes POLYNE HONEY AND TAR (COMPOUND) promptly. It is pleasant and easy to take and quickly relieves coughs, colds and hoarseness. No opiates—Ady.

## STRANGE RACE IS DISCOVERED

Methodist Missionary Tells of An Uncivilized People Found in North India.

**CHICAGO (AP)**—A race of men living unclad under rock ledges and overhanging cliffs, with a language that is not traceable and who speak a dialect that has no similarity to any known language, is described as existing in Pithoragarh, North India, by the Rev. M. Wells Branch, returned Methodist missionary.

Their bodies are covered with dark hair from living without clothes, are slightly Mongolian in type, small of stature and they never go armed. They use only the crudest tools beside their knives, yet they live in forests in which roam tigers, leopards, bears and wolves.

"They are like shadows in the forests and will salute no one," said Rev. Mr. Branch, who lived near them for a decade. "They make wooden dishes with their knives and are expert whittlers. When they wish to sell any of their dishes they come out of the forest, put down their spears and knives and inspect them and if he wants any, he leaves rain, other food or something of about equal value."

"They are anything but warlike and are reckoned the most timid denizens of the forests. They are wonderful tree-climbers but do not live in them. How they manage to survive life in the forests in which roam tigers, leopards, bears and wolves, is more than anyone knows."

"They believe themselves all descended from royal blood. For this
