Maybe you have been offered a "special discount" on this or that make of tire.
Think this proposition over.
Ask yourself who pays for this sales inducement.
Is the dealer generously sacrificing his profit—the manufacturer's?
Or, is the equivalent of the discount being taken out of the tire?
Think it over

Many farmers are using this spring. Carbonate of Copper instead of Blue Vitrol for treating their wheat and other grains, according to our best authority in agricultural schools and from farmers that have used this Carbonate of Copper in the Poudre country about Spokane for the past five years. This is by far the best to use. We also have Blue Vitrol as well as Carbonate of Copper in any quantity. The Carbonate of Copper is economical as it only costs for 2 ounces to the bushel of grain. ARMY TO FLY 'ROUND WORLD

(Continued from page 1)

ing the first nation to encircle the globe entirely by air.

Careful Preparations.
The most careful preparations have been made for the flight by the army air service, which has had valuable assistance from the Aeronautical Chamber of Commerce of America. Through the latter organization several scores of American business corporations with representatives abroad have been enlisted to aid the flyers at various points.

The squadron will be made up of four biplanes, known as Douglas world cruizers.

The flight will be in command of Major Frederick L. Martin. He will be accompanied by Lieutenants Lowell H. Smith, Eric H. Nelson and Leigh Wade. All four are experienced pilots, each with a record of more than 1,000 hours flying time. Lieutenants Leigh P. Arnold and LeChaire D. Schuba have been designated as part of the flight personnel to act as alternates. They also have time records for actual flying time that compare with those of the other four. The personnel also will include four enlisted men.
