DAILY BIBLE THOUGHT

BE KINDLY AFFECTIONED one to another with brotherly
love; in honor preferring one another; recompense to
no man evil for evil. Provide things honest in the sight of
all men. Be not overcome of evil, but overcome evil with
good.—Romans 12:10, 17, 21.

Time In Its Flight

To many it seems like a time long past, those war days
when President Wilson asked congress to declare war on
Germany and congress and the nation responded to a man.
Those were hectic days, and to speak of them seems like
reading another age; yet it will be but seven years on
April 6 that congress took the war step.

Wilson is dead but a few weeks and already he, too, be-
longs to that strenuous time that is gone. And so one
by one they fade away, the personalities connected with
the era of war. Many of those whose names were catch-
phrases of war-time already were old; others took on years
with responsibilities, for the fever of the time burned up
its victims physically and perhaps spiritually as well. These
men were of another day, and for them their day passed.

Time is a wonderful solvent. Were it not for the stag-
gering unpaid war debt of every nation and the economic
chaos that still threatens parts of the Old World, man
would speedily forget the great conflict in which the entire
world was engaged so recently. The cost remains as a per-
petual reminder of man's folly and will not let him forget.
The world sees but dimly the war-great who have all
not passed, and even then with slight heed in the face of
the stern problem of life which is the heritage of catastro-
phe. It would be good to think that great men and great
women never again shall be required to devote genius to
the destruction of their fellow men. But such thoughts
would probably be a delusion.

Not Spring Fever

Spring is the season when new energy and hope rise in
the blood courses of man like the sap in the trees. It is
the invisible urge which makes man plan gardens, renew
the home, plan for the future and make noble resolves.
People who don't feel the spirit of spring have forever lost
the spirit of life itself.

It is lamentable that the season for making resolutions
is in mid-winter. For every reason except the calendar
new resolutions for change of human conduct should come
with the first warm breeze of spring. Resolution is born of
inspiration and human beings, like hibernating beasts and
winter blasted vegetation, are inspired by nature's warmth
alone.

Most of us mistake spring fever for a tired, care-free
feeling when a real analysis reveals it as a feeling of im-
pudence for great things, inspired ambition and a devouring
desire to get away to see and know all. Spring fever is a
much maligned human experience. That springtime desir-
for a new job, a new house and new scenes isn't indolence
and lethargy as commonly conceived. It is nature's impetus
for poets, artists, explorers, inventors and all the rest of
the world's dream children.

Dry statistics show the country not so dry as the statis-
tics.

The first reliable sign of spring is when gasoline prices
go up.

RYME OF A CYNIC

My girl said she

But that's no sign
I'll be one, I declare.

Henry Ford is now working on a
car which will make a speed of
100 miles an hour. This will not
interest the chronic Ford drivers.
All the chronic Ford man wants is
to be able to tell after the day's
run is over how he passed a Pack-
ard or a Cadillac on a hill.

It is true that jokes make a
certain automobile a success. The
jokes may be able to do something
yet for prohibition.

Mama asked the little three-year-
old daughter, "Does papa shave be-
cause he wants to shave, or be-
cause he wants to succeed?"

Mother—Mary, what has hap-
pened to you doll?

Mary—The doctor says I'm a
physical break-down and he has
prescribed interludes.

five-room modern home owned
by the school district and located at
801 1/2 avenue.

The home must be removed from
the present location in order to

Acid In Stomach Sours the Food

Says Excess of Hydrochloric
Acid is Cause of
Indigestion.

A well-known authority states that
stomach trouble and indigestion are
nearly always due to acidity—acid
stomach—and not, as most folks be-
lieve, from a lack of digestive juices.
He states that an excess of hydro-
chloric acid in the stomach retards
digestion and starts food fermenta-
tion. Then our meals sour like garbage
in a can, forming acid fluids and
gases, which inflame the stomach like
a hot bath. We then get that
heavy, lumpy feeling in the chest, we
eructate sour food, belch gas and have
heartburn, flatulence, water-brash or
nausea.

He tells us to buy and use all digestive
aid, and instead get from any phar-
macy four ounces of Iod Salts and
also a half-pound of Iod while it is
offering and purchase it. While relief
often follows the use of Iod, it is im-
portant to neutralize the acidity, re-
move the gas-making mucus, start the
liver, stimulate the kidneys and thus
promote a free flow of pure digestive
juices.

Iod Salts is inexpensive and is made
from the salt of grapes and lemon
juice, combined with Iodine and sold
in capsules. This harmless salt is
used by thousands of stomach suf-
ferers with excellent results.

and was bound over to the grand
jury under bonds of \$1000. Due
to the fact that she has been un-
able to raise the bonds as yet she
was confined to jail.

Clears Up Several Robberies
Stolen goods procured include
narcotics and fountain pens stolen
from L. A. Wright's drug store in
Union some time ago, silks taken
from the Hall store in Freewater.

Ore, a fortnight or so ago, articles
believed to have been taken from
several concerns here, including
the W. H. Bohnenkamp company,
the Standard Laundry, the Grande
Ronde Lumber company and the
J. C. Penney company and prob-
ably other places that have been
pilfered here during the past few
months.

Traced by Watch

It is understood that a watch
bearing the same numbers as the
one that was taken in the Free-
water robbery was recently sold
here and a check on the move-
ments of the man who made the
sale was made with the result that
he was apprehended in the act of
attempting to sell some silks al-
leged taken from Freewater.

Officers are still working on the
case and it is to be expected that
several other disclosures will be
made in the next day or so.

Keep in Trim for Life's Race

The obstacles of life, no less than the hurdles of the
running track, demand a keen mind and a sound, active
body working in perfect harmony.
And a healthy body is the funda-
mental requirement, without
which the mind cannot do itself
justice.

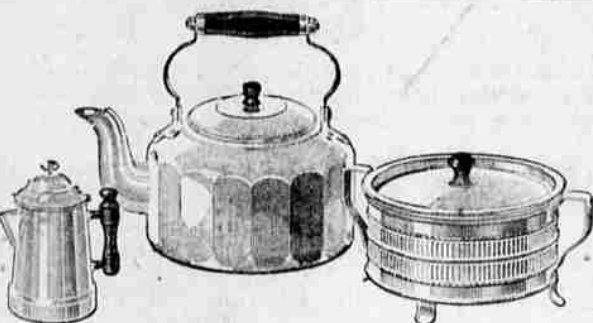

Peptona

An Exhibit Of Fine Aluminum Ware

Your interested attention
is invited to an unusually
complete assortment of
VIKO, The Popular Alumi-
num which we are now
showing.
We know you will be de-
lighted with the great va-
riety of different articles.
There are scores of them,
for all sorts of uses.
You will be impressed, too,
with the beauty and qual-
ity of these splendid uten-
sils. There's nothing like
the thick, hard aluminum

of which VIKO utensils
are made to insure lasting
wear and satisfaction.
Perhaps you will be sur-
prised at how moderately
priced VIKO is. Honestly,
we don't believe that any
better value exists.
Confidentially, to a few for-
tunate ones:—There are
some 3-quart VIKO sauce
pans, which we are selling
for 90c. They should be
\$1.05. We haven't nearly
enough of them. Come
early!

and Milk

IT'S the heavy foods of winter that slow you up and cause
"spring fever." Avoid them and give your system a chance
to readjust itself.

Eat Tru-Blu Grahams and milk daily for a week. They pro-
vide the mineral salts, vitamins—and the bran—that tone up the
system. Try them. You'll feel much better.
