

NEWS of SOCIETY

Social news must be in the hands of the society editor by 9:30 o'clock. Due to the fact that the social page is made up before noon, it is practically impossible to insert stories after that hour. Hereafter, items, no matter how important they are, that are delayed beyond that hour, will not be printed until the following day—News Editor's Note.

The Neighborhood club meeting Tuesday afternoon, April 1, will be in the nature of a tea. The officers are Mrs. J. D. Lynch, president; Mrs. C. H. Bidwell, first vice-president; Mrs. Bruce Dennis, second vice-president; Mrs. H. A. Zurbick, recording secretary; Mrs. E. T. Andrews, corresponding secretary and Mrs. H. E. Dixon, treasurer, will be hostesses to the members of the club and their guests.

After a short business session the ladies will devote the time to fancy work and social visiting. Each member is requested to bring a guest. A silver offering will be taken for the Near East Relief.

CHURCH NEWS

18th AND CITY COMMUNITY CHURCH—
HARD UP.
 "You're not hard up when your purse is flat.
 And your trousers frayed like an old door mat;
 You're not hard up when your bills fall due
 And you haven't a dollar to see you through;
 You're not hard up till you see the day
 That you haven't a word to say.
 You're not hard up when your coin is gone,
 And you whistle a tune as you journey on;
 You may walk the streets while others ride,
 And your pockets have naught but your hands inside;
 That's not being broke you may depend,
 For you're not hard up while you have a friend.
 But you are hard up and in a sorry way
 If you haven't a cheery word to say;
 If nothing on earth appeals to you
 And you can't see charm in the sides of blue,
 And you are hard up, if you've reached the end
 And can say in truth that you have a friend."

The Greenwood and Riverdale Parent-Teacher associations were guests for the afternoon and after prayer had been offered by Rev. Wm. T. Holl, an excellent program was given. The seventh and eighth grade girls sang two beautiful selections, "Beautiful Oregon Rose" and "My Sunshine." The Koon Quintet of the Greenwood school sang a number that was enjoyed by all present; Little Nick Hughes sang a very clever song; the girls' glee club of the high school, under the direction of Miss Isabelle Miller, rendered a most delightful selection. Little Miss Evelyn Mays gave a charming dance and Mrs. Heaster gave a very interesting reading. Besides this excellent program being carried out a number of short matters of business were discussed and reported briefly by the Superintendent A. C. Hampton.

Piped
 If you do not care for the very severe lines of the strictly tailored suit, here is something that may suit you better. Bands of the material piped with silk and hem of the coat and often the general appearance just a trifle.

At the close of this very interesting program the guests retired to the domestic departments of the high school, where delicious refreshments were served and an enjoyable social hour spent.

The Girls' Friendly Society will meet at the home of Miss Marjorie Warlock, 1102 Sixth street next Wednesday evening, April 2, at 7:30 o'clock. Following the business meeting Miss Mae Nell will continue her travel talks, her subject this time being Manila and the Philippine Islands. Friendly girls are especially interested in the islands because the G. F. S. association have as special wards some of those girls, native girls, utterly wild when first known by Americans, whom they are developing to American womanhood in the All Saints school at Bantoc, situated in the northern part of the islands. The Girls' Friendly Society girls have for years made the success of this school possible. Some of the pupils of the former the daughters of the girls, later we have educated. Students the graduates are now nurses and teachers among their own people, as well as mothers in Christian homes.

This coat adheres to the popular straight lines but offers interesting variation in the clever use of heavy printed cloth on navy blue pointed skirt. The collar and cuffs and the low belt are novel enough to be worth the most careful consideration.

HIGH SCHOOL NOTES

(By Ella Austus)

Mr. Miller of the Oregon Bankers' Association gave a series of talks to the students, this week, on various subjects that were of interest to everyone as well as being quite helpful. Tuesday he talked to the civics class regarding the great wheat question and the Mellon plan as a remedy for it. As the civics class had been doing a little studying of the Mellon tax plan, Mr. Miller's talk cleared up many points in their minds concerning it.

Wednesday Mr. Miller addressed the entire student body and this time banking was his subject. The same day he talked to the economics class on the United States Monetary System. In this talk he brought out the importance of a sound basis for money and also gave a brief history of U. S. money. Things of this kind make a subject of much more interest to the student and the economics class reported enjoying it immensely.

The first call for track was issued March 17, and about sixty men answered the call, among them were a few veterans. At the present time they are somewhat handicapped by the lack of a track, however a new track is being laid for by the fifth of April, at the latest. It is a decided handicap to do good work under such conditions; never-the-less, the work is going on just the same.

Coach MacTavish reports that the first two weeks are acting as a "conditioner." It is hoped the new track will be in such a shape by next week that some heavy work can be started. On April 5, an interclass meet will be held.

Fashion Notes

All Tipped Up.
 Paris—With the hat worn near the center or toward the back of the head never returns. Today the little semi-tan o-sinister is worn farther over the eyes than ever; not a vestige of eyebrow shows and the upper eyelid is often half obscured.

Favorites of Day.
 Paris—Navy, wood-brown and soft tones of gray predominate today in tailor-made of every description. As the season advances, pleats and panels, gowns and gathere, are more frequently employed.

Time in Black.
 London—A tunic in black. A tunic in black with or without out sleeves is now added to the ingeniously simple frock of printed crepe. Sometimes these tunics are made of the fashionable alpaca.

Splashes of Color on Indies.
 New York—A pleated influence seems to have exerted over some of the lingerie designers. Undergarments of cotton, gauze and even corsets are splashed with vivid and irregular little splashes of color, like confetti.

If you do not care for the very severe lines of the strictly tailored suit, here is something that may suit you better. Bands of the material piped with silk and hem of the coat and often the general appearance just a trifle.

and the squad will be picked from the winners of the various events. The first regular meet will be held April 15, with Union at Union.

After the assembly on Wednesday Mr. Towler retained the Senators and talked to them about graduation. He advised that, if they intend to go to college, they should do so next year. When a few years elapse between high school and college, the habits of study are lost, so it is often quite hard to settle down to work again. After this he talked to a few of the Senators individually regarding their credits and their difficulties in graduating.

Some six week exams have been given this week, but to a few of us they serve only as a reminder that Senior exams are coming soon. Senior exams are given about six weeks before the end of school and these exams are to more definitely place the seniors in regard to graduating. To be exempt from them on average of A is required.

Tuesday morning it seemed that the under-classes would turn green with envy or do some other foolish thing. And why? Because Tuesday morning all the Senior boys came to school wearing Kentucky dusters. It was even necessary to take these dusters to class because the Juniors seemed to have acquired a special desire for them. Not to be outdone by the Seniors, the Juniors all came to school Wednesday morning with wing collars. Some of them have been having a little difficulty in cutting wings promises to become a popular sport by the rabble if present conditions continue.

Friday morning brought another war to the Twinkles, the Senior girls came to school wearing boys' shirts and ties of all colors, styles and especially sizes. The Junior girls had a meeting Friday and it is rumored that they have some especially deep idea in mind; "might anything can be expected Monday."

The girls' annual stunt show, the April Antiques is well under way and the girls are practicing hard and working enthusiastically on the parts. It is not generally known as yet but what will be included in it. Each of the classes will present a stunt, as well as the different departments. There is an Egyptian dance which has been planned.

Miss Davis, the commercial teacher has been planning to have some competitive contests with other near by towns along the lines of shorthand and typing. If this plan goes through a few of the best students along these lines will be picked to represent the school. Trips will be planned for Friday afternoons and the rest of the shorthand and typing classes will probably accompany them if enough cars can be furnished.

Coach MacTavish reports that the first two weeks are acting as a "conditioner." It is hoped the new track will be in such a shape by next week that some heavy work can be started. On April 5, an interclass meet will be held.
