COUNTY FAIR IS FAVORED

Secretary Patten Working Up Interest at Origin for 1924 Event.

REGIN, Ore., (Special to the Observer)—Secretary Patten of the county fair is devoting some time to the matter of boosting for the success of the 1924 fair. Incidentally Mr. Patten is also favorable to a running old time Fourth of July celebration.

Mr. Patten is of the belief that a celebration on the fourth would not only be inexpensive for the business men, but on the other hand a surplus of finances would be realized which could be applied to financing the county fair. The county fair has been an upland pull financially, as well as creating a job of work individually. Mr. Patten has shouldered a man's share of the work in the past and he feels that the fair of the future should be a going concern. With an interest already created in the fair, he feels that a fair this fall would go over on a self-sustaining basis and without any outlay of cash individually on the part of the business men.

The farmers especially last year manifested considerable interest in the county fair by their exhibiting and they would no doubt take greater interest this year. With the prospect of making the fair self-sustaining it looks like an unwise policy for Regin to throw up the sponge at this stage of the game. If the farmers show a willingness to patronize the fair, it would seem unwise for the business interests to foster a community interest by also giving it their moral support at least.

Experts Film South Sea Birds
PAGO PAGO, American Samoa, (AP)—R. H. Beck and J. G. Cooper, of the Whitney Expedition studying bird life in the south seas have returned here after a trip through these islands in which they obtained specimens and photographs of all the types of birds found here. The expedition is operating under the auspices of the American Museum of Natural History.

These far trips have been made to the Marquesas, Society and Cook groups as well as a few isolated islands.

Why is the dollar mark like this?

—because it was originally a combination of the initials U and B (United States). Due to haste in drawing, the curve of the U gradually dropped away. The top price of No. 6 Disinfectant plus freighting strength makes it the ideal cleanser for every home. No. 6 is ten times more powerful than carbolic acid—and ten times as safe. It goes like cleaning sunshine where sunshine cannot reach. One of 200 Parixest preparations for health and hygiene. Every item the best that skill and care can produce.
