

NEWS of SOCIETY

Social news must be in the hands of the society editor by 3:20 o'clock. It is the fact that the social page is made up before noon. It is practically impossible to insert stories after that hour. Hereafter, items, no matter how important they are, that are delayed beyond that hour, will not be printed until the following day—News Editor's Note.

Special provided at the Country Club and evening when the last regular country club dance of the season took place. The club rooms were beautifully decorated in accordance with May Day, exquisite spring flowers and delicate pastel colors being in evidence. A Japanese lighting effect was used.

Approximately seventy couples were in attendance and every one enjoyed a good time dancing with music furnished by Hildner's orchestra. During the evening balloons were distributed among the guests as favors, adding much to the enjoyment of the evening. Before adjournment delicious refreshments were served.

The Wednesday Bridge Club was delightfully entertained Wednesday afternoon at the Country Club with Mrs. J. J. Carr as hostess. Bridge was the feature of the afternoon with high honors going to Mrs. A. C. Hampton. The club rooms were beautifully decorated in elaborate cases and

fore adjournment a delicious two course luncheon was served. The Club will not meet next week.

A delightful surprise party was given at the home of Miss Ruby Falk, honoring her thirteenth birthday anniversary Wednesday evening.

The evening was spent in dancing and playing games and at an appropriate hour a delicious luncheon was served by Misses Ethel Brown and Gladys Austin.

Those celebrating the occasion with the charming hostess were Frank Wilson, Lella Payer, Vera Payer, Fred Payer, Jennie Dobson, Fred Kay, Martina Sims, George Sims, Mary Gilliam, Mo. Falk, Donna Falk and Stiek Hughes.

Mrs. Lee Reynolds will present Miss Mildred Spencer in main recital Sunday, May 4, at the Neighborhood Club rooms. The program is as follows:

Polonaise: Beethoven; Rondo: Haydn; Mildred Spencer; Fairy in the Bell: Williams; Valse: Chopin; Marche: Reynolds; The Nightingale in the Garden: Kullak; Etude: Kullak; Nocturne: Chopin; The Rainbow: Debussy; Avening: The Campfire; Duets: Faye Golden.

Krude, Schiller; Indian Love Song; Godeaux; Rainy Day; Lullaby: Mildred Spencer.

Members of the Junior and

Senior classes of the high school are looking forward to tomorrow evening with great interest. It is the date on which the Junior Senior Banquet will take place and the affair promises to be the most delightful social affair of the year.

The Junior Class is host to the Seniors at this time and they are busily engaged in making every plan necessary in making the banquet a success.

Mrs. Forest Ivanhoe, daughter-in-law of Mrs. A. E. Ivanhoe of La Grande, will sing from broad-casting station KGO Oakland, California on the evening of May 6. Mrs. Ivanhoe is well known in La Grande and those who have heard her sing are looking forward to May 6 with great interest.

"The Masonic Ring" or "The Adventure of a College Bride" three act farce by Louise Brand Mason was presented at the Community church of Island City Wednesday evening with a large crowd in attendance. There is an air of mystery about the play and many surprises were revealed before the climax. The cast of characters is as follows:

Londoner York, a jealous husband, Kenwick; Cheryl; Bartholomew; Jeremiah; Forthbrother; Detective; Eddie; Bokland; Fred; Hall; Cousin to Mrs. Rodrick; York; Elvin; Thompson; Mrs. Rodrick; York (otherwise known as "Phoanis" a recent graduate and heir of three weeks); Mrs. Ron-

wick; Clark; Ethel; Winn, a college chum of Phoebe's; Hilda; Bokland; Madame York; Mother of Rodrick; York; Mrs. E. E. Kiddie; Phoebe York, the stern elderly sister of Rodrick; Yora; Bertha; Phoebe; Miss Delaney Jones, a best friend of friend of the family; Mrs. W. W. Wade; Tildie; McSarrath, the forty-two-year-old ward of Miss Delaney Jones; Wytheil; Wade.

Synopsis: Act I—Library of Madame York's home. A morning in late September.

Act II—Same, two days later. Act III—Garret of Madame York's home, three days later.

Place—A New England Town. Time—Present.

Several special musical numbers were given between acts. Two excellent solos were rendered by Mrs. T. R. Maxwell, accompanied by Mrs. E. L. Holmes. Paul Knautz sang a solo, accompanied by Mrs. Knautz at the piano, which was greatly appreciated by the audience and Mrs. Adler and Mrs. Fuller sang two beautiful duets, accompanied by Miss Adler at the piano.

Enterprise—(Special to the Observer)—A big event of the school year will be the Senior Play "Ship Thru" to be presented May 5, at 8 o'clock p. m. in the auditorium. The cast has been working hard on this production and it promises to be one of the best ever presented by the Enterprise high school.

The popularity and adaptability of the scarf is demonstrated. Three extra large ones provide all the trimming and much of the color. The scarfs are of black and white check with floral designs in red. The foundation frock is of white silk.

WOMAN DIVES FOR TREASURE SHIP OF OLD

LONDON (188) — Margaret Naylor, first woman deep-sea diver, is receiving attempts at Telemory, off the west coast of Scotland, to salvage the Spanish treasure ship "Admiral of Florence," sunk there in November, 1588.

Reported to have 20,000,000 gold "pieces of eight" aboard, the sunken galleon has hitherto defied every attempt at salvage. In 1913 however, Colonel Foss, successful in recovering from her wreck dishes, coins, cannon balls and other relics, but he met with an accident and has trained Miss Naylor to take over his work.

"It ought to be a fairly simple job now," says Colonel Foss. "Miss Naylor has discovered that the vessel's poop lies under three feet of clay, and this can be cleared away in a couple of days. It will then remain to get into the ship by sluicing the mud and sand out of her. When this has been done a better idea can be formed as to the best means of raising the ship to the surface."

The first attempt to recover the lost treasure was made by Archibald Miller, who descended in a primitive diving bell in the seventeenth century. He secured an iron box with documents relating to the treasure, two huge anchors and a crown and diadem. The crown and diadem he lost as he rose to the surface. Various other attempts at subsequent times have gained various articles of beautiful workmanship, but the treasure has so far remained intact.

Satin Frocks with a Chic New Feature

There is a mingling of the boyish and the girlish in these Satin Frocks for May wearing. For they are very tailored and scarcely a one escapes without some impudent touch of color or ecru lace to make it unusual. Bright red and green appears in embroidery, appliques and bandings on smooth black surfaces. Almost every type can be flattered with one of these very simple, very smart, new dresses.

when it comes to thinning. Fine, thick rows of seedlings look so tempting that often the thinning process is neglected until so late that the plants don't have a fair chance when it is done. Thinning should start as soon as the germination is apparent and assured. Pull out extra plants rigorously until the remainder are at the proper distance apart in the row or their best development.

It is necessary to plant the seed rather thickly for the germination of the best seed that grows is seldom 100 per cent. Some of it is not fertile on the mother plant and will not germinate. The germination varies as low as almost 50 per cent in some cases and in the finest quality seed although this low standard does not occur among vegetables which germinate much more freely and in larger percentages than many flower seeds.

Radishes thin automatically and if carrots or parsnips are planted in the same row with them the pulling of the radishes leave the latter plants well spaced. Carrots for the young roots should be three inches apart; beets should be thinned for greens to leave the plants for roots six inches apart. Turnips about the same. Parsnips are often spoiled by leaving them growing in a mass. Indiscipline thinning would give a greater crop by giving much larger individual roots. Thinning among the root crops is especially needed and must be watched closely as the crowding of the roots will not show above ground while the foliage is luxuriant but when it comes to harvesting the thin roots tell the tale of neglect.

If the planting is not large, instead of pulling out the young plants and throwing them away in the thinning process, they may be transplanted very easily. String beans seven six and seven to a hill should be thinned to three or four if all the seeds come up. Cucumbers often sown a handful to a hill to save space from the bugs for a crop should be thinned to three or four plants at most.

Spacing in the Garden.

Much of the success of the vegetable garden depends upon giving the individual plants sufficient room to develop their full possibilities in the way of bearing. In order to furnish a handy guide a table is herewith appended showing the proper distance at which the practice of successful gardeners shows to be about right. The distance apart of the rows is dependent to a great extent on the method of cultivation, a high standard, apart being necessary for a wheel hoe than for the hand hoe or a hand weeder.

Vegetable	Distance Apart	Distance Between Rows
Bean (bush)	15 in.	2 to 3 ft.
String bean	4 to 8 in.	2 ft.
Beets	6 in.	1 ft.
Brussels sprouts	12 in.	1 1/2 ft.
Cabbage	2 ft.	2 ft.
Carrots	6 in.	2 ft.
Chard	12 in.	3 ft.
Celery	6 to 10 in.	2 ft.
Cucumbers	3 ft.	5 ft.
Endive	12 in.	1 ft.
Escallop	2 ft.	2 ft.
Kale	3 ft.	2 ft.
Head lettuce	8 in.	1 ft.
Onions	4 to 6 in.	1 ft.
Parsley	6 in.	1 ft.
Peas (bush)	6 in.	1 1/2 ft.
Peas (tall)	2 to 4 in.	2 ft.
Potatoes	2 to 4 in.	1 ft.
Splach	6 in.	1 ft.
Turnip	1 to 2 in.	1 ft.
Rutabaga	8 to 10 in.	1 1/2 ft.

Wolves, invade Romanian Dance. BUCHAREST, Romania, (AP)—Honorary wolves recently interrupted a masked ball at Brasov. They made their way into the hall while the dancers were so engrossed with their merry-making that they failed to be conspicuous for some time until had happened. The animals were as badly frightened as the fainting women and most of them were shot before they could escape.

cial labor agent. Similarly work-ers in need of employment may register at the postoffice.

HIKEMINGTON, Wash. (AP)—The use of hammocks by binoculars of the United States Navy is gradually giving way to more comfortable bunks. A thousand of the latter are being installed on the Oklahoma at the Puget Sound navy yard and it is said the hammocks will give way to the bunks on all American vessels.

Bunks have long been in use on destroyers, because there is no room for stinging hammocks, and it is said this is the reason binoculars prefer service on the destroyers.

Postmasters Act as Labor Agents. GENEVA, (AP)—Postmasters in New Zealand towns will act as employment under a plan reported to the International Labor Bureau here. In places where there are no government labor agents an employer may apply to the postmaster and if no labor is available the postmaster will forward the application to the nearest office.

Beauty Parlor

This shop will be run the same system as the Kathryn Boone Shop of Pendleton with experienced operators in attendance. Miss Boone will spend part time here and part in Pendleton.

Why does a bell ring?

Because the stroke of the clapper causes metal vibrations which start air waves. Due to the bell's round, hollow shape, these air waves strike the ear as a ringing sound.

Puretest No. 6 Disinfectant

"Rings the bell" every time, as a foe of germs, insects and dirt. No. 6 is ten times more powerful than carbolic acid—and ten times as safe. Cleanse whatever it touches. Use it where you want things sanitary. One of 200 Puretest preparations for health and hygiene—every item the best that skill and care can produce.
