Just A Little Common Sense

We deal in tires. We buy the best we can buy regardless of price. We believe in quality first—not price. There is no such thing as a bargain in cheap tires. Not even the slightest chance to get more than you pay for. By the time you run a good tube buy two and then blow out both, put in a few hours on the dusty road, use your temper, call the manufacturer everything possible, all on account of a cheaply constructed tire, what have you gained?

Gates and Jack Tires are built in the west for western roads. Come look them over—the tires speak for themselves.
